LESTER D. LANGLEY

The Americas In The Modern Age

Immanuel Maurice Wallerstein

The Americas In The Modern Age:

The Americas in the Modern Age Lester D. Langley, 2003-01-01 In this wide ranging book historian Lester D Langley offers a fresh interpretation of the history of the modern Western hemisphere since the mid nineteenth century He evaluates the dynamics of hemispheric history commencing with the articulation of the two Americas Theodore Roosevelt s America and the contrasting America described by Cuban revolutionary essayist and poet Jos Mart and culminating with recent controversial efforts to forge a united hemisphere Tracing the interactions and influences among the nations of South Central and North America including Canada Langley departs from other accounts of the past 150 years He argues that the seedtime for today s Americas was not the Cold War but the late nineteenth and early twentieth centuries He also contends that it is not what the countries and people of the Americas have in common that binds them instead their cultural political and economic conflicts tie them together Comprehensive and balanced this history of the nations of the Americas offers new insights into both the past and the future of inter American relations *America in the Modern World* Stephen Burman, 1991-11-15 The past few years have witnessed changes which will be of lasting significance in international affairs The revolutions in Eastern Europe and the Soviet Union for example are fundamental not only for those societies but also in their implications for the rest of the world They signal the passing of the international order that has governed the post war era Since the United States was the principal architect of that order its passing will have fundamental implications for America s role in the modern world It has been suggested that this transformation will reduce the US to the status of an ordinary country indeed that the signs of decline are already everywhere apparent In this book the author argues to the contrary that the emerging new world order offers great opportunities to the US to maintain its status as the leading power in the world Sources for Latin America in the Modern World Nicola Foote, 2019 Latin America in the Modern World is the first text to situate the history of Latin American into a wider global narrative and it does so without de emphasizing the distinctive experiences of each of the Latin American countries Focusing on five themes state formation the construction of national identity through popular culture and religion economics and commodities race class and gender and the environment and written by leading scholars Latin America in the Modern World provides students today with an entry point into understanding this vital region The authors emphasize the distinctive experiences of each of the Latin American countries Instead of suggesting that all Latin American nations have an interchangeable heritage the authors seek to clearly identify themes topics people and intellectual currents that help to knit the history of modern Latin America into a coherent category of study The book would not serve students well if it focused primarily on the history of the three largest countries Mexico Brazil and Argentina to the neglect of others like the Central American and Andean nations As a consequence case studies from almost all of the countries are included at some point in the narrative when their history seems to illuminate a theme or idea particularly effectively In this fashion students will come to appreciate the great diversity of history and culture within

the Latin American region while simultaneously understanding how it fits into the streams and currents of world history and events more broadly America in the Modern World Palgrave Macmillan Ltd,2016-04-30 The past few years have witnessed changes which will be of lasting significance in international affairs The revolutions in Eastern Europe and the Soviet Union for example are fundamental not only for those societies but also in their implications for the rest of the world They signal the passing of the international order that has governed the post war era Since the United States was the principal architect of that order its passing will have fundamental implications for America's role in the modern world It has been suggested that this transformation will reduce the US to the status of an ordinary country indeed that the signs of decline are already everywhere apparent In this book the author argues to the contrary that the emerging new world order offers great opportunities to the US to maintain its status as the leading power in the world Global Interactions in the Early Modern Age, 1400-1800 Charles H. Parker,2010-06-23 Global Interactions in the Early Modern Age is an interdisciplinary introduction to cross cultural encounters in the early modern age 1400 1800 and their influences on the development of world societies In the aftermath of Mongol expansion across Eurasia the unprecedented rise of imperial states in the early modern period set in motion interactions between people from around the world These included new commercial networks large scale migration streams global biological exchanges and transfers of knowledge across oceans and continents These in turn wove together the major regions of the world In an age of extensive cultural political military and economic contact a host of individuals companies tribes states and empires were in competition Yet they also cooperated with one another leading ultimately to the integration of global space **A Cultural History of Work in the Early Modern Age** Bert De Munck,Thomas Max Safley,2020-09-17 Winner of the 2020 PROSE Award for Multivolume Reference Humanities In the early modern age technological innovations were unimportant relative to political and social transformations The size of the workforce and the number of wage dependent people increased due in large part to population growth but also as a result of changes in the organization of work The diversity of workplaces in many significant economic sectors was on the rise in the 16th century family farming urban crafts and trades and large enterprises in mining printing and shipbuilding Moreover the increasing influence of global commerce as accompanied by local and regional specialization prompted an increased reliance on forms of under compensated and non compensated work which were integral to economic growth Economic volatility swelled the ranks of the mobile poor who moved along Europe's roads seeking sustenance and the endemic warfare of the period prompted young men to sign on as soldiers and sailors Colonists migrated to Europe's territories in the Americas Africa and Asia while others were forced overseas as servants convicts or slaves The early modern age proved to be a renaissance in the political social and cultural contexts of work which set the stage for the technological developments to come A Cultural History of Work in the Early Modern Age presents an overview of the period with essays on economies representations of work workplaces work cultures technology mobility society politics

and leisure Urban America in the Modern Age Carl Abbott, 2007 Since the appearance of *Urban America in the Modern Age* in 1987 the study of American cities has flourished In this long awaited second edition Carl Abbott draws on the recent works of historians who have explored issues of urban growth municipal politics immigration and ethnicity suburbanization and environmental change The fascination with growth and change in the nation's metropolitan areas spans a wide range of scholarly fields and the new edition also benefits from scholarship in disciplines closely related to urban history including geography political science sociology and urban planning Featuring an entirely new chapter covering the years since 1980 and a bank of interesting photographs the second edition of *Urban America in the Modern Age* further explores and fine tunes the themes and topics central to its predecessor the physical form of metropolitan areas their sources of growth and mix of ethnic and racial groups the shaping of and responses to public policy and ideas of community planning Regionally balanced with examples from New York Boston and Chicago as well as Los Angeles Atlanta San Francisco Seattle Denver San Antonio Miami Charlotte Washington Detroit and Cleveland the second edition of *Urban America in the Modern Age* makes ideal supplementary reading for courses in Urban History twentieth century America as well as the second half of the U S survey

The Modern World Sarolta Takacs, Mounir Farah, 2015-03-04 Designed to meet the curriculum needs for students from grades 7 to 12 this five volume encyclopedia explores world history from approximately 5000 C E to the present Organized alphabetically within geographical volumes on Africa Europe the Americas the Middle East and Southwest Asia and Asia and the Pacific entries cover the social political scientific and technological economic and cultural events and developments that shaped the modern world Each volume includes articles on history government and warfare the development of ideas and the growth of art and architecture religion and philosophy music science and technology and daily life in the civilizations covered Boxed features include Turning Point Great Lives Into the Twenty First Century and Modern Weapons Maps timelines and illustrations illuminate the text and a glossary a selected bibliography and an index in each volume round out the set

The Scandinavian Early Modern World Jonas Monié Nordin, 2020-05-14 The *Scandinavian Early Modern World* explores the early modern colonialism globalization and modernity in Scandinavia along with its colonies and its role in the shaping of the modern world Scandinavians played an active role in early modern globalization and were present as traders as colonialists and as consumers in competition and collaboration with indigenous agents and other colonial actors in America Africa and India This story is rarely told The joint study of history historical landscape and material culture from a Scandinavian vantage point provides for a comprehensive and original interpretation of the birth of globalization and modernity New perspectives and data are presented deepening and challenging our knowledge of the long seventeenth century In depth analysis of case studies encompassing four continents and their material entanglement makes this book a unique contribution to historical archaeology The *Scandinavian Early Modern World* aims at students and scholars of anthropology archaeology and history alike taking interest in the global connections of the long seventeenth

century and the role of Scandinavia in that process

Globalism in the Middle Ages and the Early Modern Age

Albrecht Classen, 2023-09-05 Although it is fashionable among modernists to claim that globalism emerged only since ca 1800 the opposite can well be documented through careful comparative and transdisciplinary studies as this volume demonstrates offering a wide range of innovative perspectives on often neglected literary philosophical historical or medical documents Texts images ideas knowledge and objects migrated throughout the world already in the pre modern world even if the quantitative level compared to the modern world might have been different In fact by means of translations and trade for instance global connections were established and maintained over the centuries Archetypal motifs developed in many literatures indicate how much pre modern people actually shared But we also discover hard core facts of global economic exchange import of exotic medicine and on another level intensive intellectual debates on religious issues Literary evidence serves best to expose the extent to which contacts with people in foreign countries were imaginable often desirable and at times feared of course The pre modern world was much more on the move and reached out to distant lands out of curiosity economic interests and political and military concerns Diplomats crisscrossed the continents and artists poets and craftsmen traveled widely We can identify for instance both the Vikings and the Arabs as global players long before the rise of modern globalism so this volume promises to rewrite many of our traditional notions about pre modern worldviews economic conditions and the literary sharing on a global level as perhaps best expressed by the genre of the fable

A Cultural

History of Marriage in the Renaissance and Early Modern Age Joanne M. Ferraro, 2021-11-18 Why marry The personal question is timeless Yet the highly emotional desires of men and women during the period between 1450 and 1650 were also circumscribed by external forces that operated within a complex arena of sweeping economic demographic political and religious changes The period witnessed dramatic religious reforms in the Catholic confession and the introduction of multiple Protestant denominations the advent of the printing press European encounters and exchange with the Americas North Africa and southwestern and eastern Asia the growth of state bureaucracies and a resurgence of ecclesiastical authority in private life These developments together with social religious and cultural attitudes including the constructed norms of masculinity femininity and sexuality impinged upon the possibility of marrying The nine scholars in this volume aim to provide a comprehensive picture of current research on the cultural history of marriage for the years between 1450 and 1650 by identifying both the ideal templates for nuptial unions in prescriptive writings and artistic representation and actual practices in the spheres of courtship and marriage rites sexual relationships the formation of family networks marital dissolution and the overriding choices of individuals over the structural and cultural constraints of the time A Cultural History of Marriage in the Renaissance and Early Modern Age presents an overview of the period with essays on Courtship and Ritual Religion State and Law Kinship and Social Networks the Family Economy Love and Sex the Breaking of Vows and Representations of Marriage

A Cultural History of Race in the Renaissance and Early Modern Age Kimberly Ann

Coles,Dorothy Kim,2023-06-01 The past is always an interpretive act from the lens of the present Through the lens of critical race theory the essays collected here explore new analytical models theoretical frameworks and methodological approaches in attempting to reimagine the European Renaissance and early modern periods in terms of global expansion awareness and participation Centering race in these periods requires that we acknowledge the people against whom social hierarchies and differential treatment were directed This collection takes Europe as its focus but White Europeans are not centred in it and the experiences of Black Africans Asians Jews and Muslims are not relegated to the margins of a shared history Situating Europe within a global context forces the reconsideration of the violence that attends the interaction of peoples both across cultures and enmeshed within them The less we are attentive to the cultural interactions cross cultural migrations and global dimensions of the late medieval and early modern periods the less we are forced to recognize the violence intolerance power struggles and enforced suppressions that attend them Power, Political Economy, and Historical Landscapes of the Modern World Christopher DeCorse,2019-04-01 Reveals how the expanding world system entangled the non Western world in global economies yet did so in ways that were locally articulated varied and often non European in their expression This interdisciplinary volume brings together a richly substantive collection of case studies that examine European indigenous interactions economic relations and their materialities in the formation of the modern world Research has demonstrated the extent and complexity of the varied local economic and political systems and diverse social formations that predated European contact These preexisting systems articulated with the expanding European economy and in doing so shaped its emergence Moving beyond the confines of national or Atlantic histories to examine regional systems and their historical trajectories on a global scale the studies within this volume draw examples from the Caribbean Mesoamerica North America South America Africa and South Asia While the contributions are rooted in substantive studies from different world areas their overarching aim is to negotiate between global and local frames revealing how the expanding world system entangled the non Western world in global economies yet did so in ways that were locally articulated varied and often non European in their expression Nostalgia in the Early Modern World Harriet Lyon,Alexandra Walsham,2023 How can the concept of nostalgia illuminate the culturally specific ways in which societies understand the contested relationship between the past present and future The word nostalgia was invented in the late seventeenth century to describe the debilitating effects of homesickness Now widely defined as a sense of longing for a lost past initially it was more closely linked with dislocation in space By exploring some of its many textual visual and musical manifestations in the tumultuous period between c 1350 and 1800 this volume resists the assumption that nostalgia is a distinctive by product of modernity It also forges a fruitful link between three lively areas of current scholarly enquiry memory temporality and emotion The contributors deploy nostalgia as a tool for investigating perceptions of the passage of time and historical change unsettling experiences of migration and geographical displacement and the connections between remembering and forgetting affect and imagination Ranging across

Europe and the Atlantic world they examine the moments sites and communities in which it arose alongside how it was used to express both criticism and regret about the religious political social and cultural upheavals that shaped the early modern world They approach it as a complex mixed feeling that opens a new window into individual subjectivities and collective mentalities

Religious Materiality in the Early Modern World Suzanna Ivanic,Mary Laven,Andrew Morrall,2025-10-01 This collection of essays offers a comparative perspective on religious materiality across the early modern world Setting out from the premise that artefacts can provide material evidence of the nature of early modern religious practices and beliefs the volume tests and challenges conventional narratives of change based on textual sources Religious Materiality in the Early Modern World brings together scholars of Catholic Protestant Jewish Islamic and Buddhist practices from a range of fields including history art history museum curatorship and social anthropology The result is an unprecedented account of the wealth and diversity of devotional objects and environments with a strong emphasis on cultural encounters connections and exchanges

The Modern World-System I Immanuel Wallerstein,Immanuel Maurice Wallerstein,2011-05-11 The Modern World System Immanuel Wallerstein s influential multivolume reinterpretation of global history traces the emergence and development of the modern world from the sixteenth century to the twentieth From publisher s description

[World Wars and the Modern Age](#) David C. King,American Heritage,2005-02-04 Experience explosive changes in American history with the people who witnessed them From 1870 to 1950 America experienced an unprecedented era of rapid change and growth A host of remarkable inventions led the way in transforming this nation into a major world power and yet the forces of change often caused tremendous upheaval in people s lives Now World Wars and the Modern Age provides a rare glimpse into the day to day experiences of Americans who lived through Prohibition the Roaring Twenties the Great Depression and two world wars You ll be there as the New York Times offices are filled with electric light for the first time You ll watch as immigrants flock to America s colorful fast growing cities hoping to start anew You ll read a young soldier s account of going over the top during the grim trench warfare of World War I and barely twenty years later an eyewitness account of the surprise Japanese attack on Pearl Harbor that plunged America into World War II From the personal writings of Henry Ford on his Model T automobile to songs of the Depression from FDR s Inaugural Address to a G I s description of D Day World Wars and the Modern Age presents a wealth of period documents including diaries letters articles advertisements speeches and more from both famous figures and ordinary citizens Find out how all of these American voices together helped make this country what it is today AMERICAN HERITAGE is well known for its magazine on American history as well as its many highly acclaimed books including the American Heritage Illustrated History of the United States and the American Heritage Illustrated History of the Presidents

Samson-The Modern-Day America Stephen R. Williams,2013-06 Power is the point of envy of those who are weak and the pride of those who are not Although power can hold command over the lives of others it can very much lead to the destruction of the one controlling it Author Stephen R Williams discusses the pitfalls of abused power without

repentance and guidance in his latest book *Samson The Modern Day America* Most people are familiar with the story of Samson the only man to hold incredible strength in the Bible He was born to dedicate a life of service to the Lord ordained by God to be a Nazarite and destined to judge and rule the Philistines A similar plot leads us to the powerful country of America which was once a nation of people seeking for a place of worship and service to God Through time both Samson and America acquired power that any entity could ever want However a common weakness leads them both to destruction Discover the cause of a great man s fall and its shocking similarity to the struggle of a powerful country Backed with biblical Scriptures *Samson The Modern Day America* is a book that holds nothing but the key to a struggling country s redemption *Africa and the Modern World* Immanuel Maurice Wallerstein,1986 ***The Church in the Modern World*** Erin Brigham,2014-12-31 *The Church in the Modern World* Fifty Years after *Gaudium et Spes* commemorates the fiftieth anniversary of the Second Vatican Council s Pastoral Constitution on the Church in the Modern World Featuring scholars from the Joan and Ralph Lane Center for Catholic Studies and Social Thought this book offers a future orientated analysis by highlighting contemporary social issues through the lens of *Gaudium et Spes* In part I authors examine the historical political and social significance of the document Part II presents interdisciplinary perspectives on current social issues in light of *Gaudium et Spes* and contemporary Catholic social thought The book covers such topics as immigration women in the Church environmental ethics human rights economic justice the Church in Africa and liberation theology

The book delves into The Americas In The Modern Age. The Americas In The Modern Age is a vital topic that needs to be grasped by everyone, from students and scholars to the general public. The book will furnish comprehensive and in-depth insights into The Americas In The Modern Age, encompassing both the fundamentals and more intricate discussions.

1. The book is structured into several chapters, namely:
 - Chapter 1: Introduction to The Americas In The Modern Age
 - Chapter 2: Essential Elements of The Americas In The Modern Age
 - Chapter 3: The Americas In The Modern Age in Everyday Life
 - Chapter 4: The Americas In The Modern Age in Specific Contexts
 - Chapter 5: Conclusion
2. In chapter 1, this book will provide an overview of The Americas In The Modern Age. The first chapter will explore what The Americas In The Modern Age is, why The Americas In The Modern Age is vital, and how to effectively learn about The Americas In The Modern Age.
3. In chapter 2, the author will delve into the foundational concepts of The Americas In The Modern Age. The second chapter will elucidate the essential principles that need to be understood to grasp The Americas In The Modern Age in its entirety.
4. In chapter 3, this book will examine the practical applications of The Americas In The Modern Age in daily life. This chapter will showcase real-world examples of how The Americas In The Modern Age can be effectively utilized in everyday scenarios.
5. In chapter 4, this book will scrutinize the relevance of The Americas In The Modern Age in specific contexts. This chapter will explore how The Americas In The Modern Age is applied in specialized fields, such as education, business, and technology.
6. In chapter 5, this book will draw a conclusion about The Americas In The Modern Age. This chapter will summarize the key points that have been discussed throughout the book.

This book is crafted in an easy-to-understand language and is complemented by engaging illustrations. This book is highly recommended for anyone seeking to gain a comprehensive understanding of The Americas In The Modern Age.
