questions are constantly addressed and the challenges they pose will engage and enlighten the reader Bergmann was a philosopher of mind as much as he is a psychoanalyst and the range and scope of the ideas in these selected papers is impressive instructive and illuminating Bergmann deals with psychoanalysis as a science and with an ideology referring to psychoanalysis as a Weltanschauung a philosophical basis for psychoanalytic theory He presents an original penetrating analysis of Freud's inner struggle about empirical research validation and related to five other sciences about irrational forces that constitute major motivators of human life and require taking an existential position regarding their implications the search for the meaning of one's existence The Origins and Organization of Unconscious Conflict is an exciting intellectual journey of the scientific and ideological aspects of psychoanalysis and the study of love It will appeal to psychoanalysts psychologists philosophers and both undergraduate and postgraduate students studying in these fields as well as anyone with an interest in mental health and human behaviour

Feeling and Imagination Irving Singer, 2001 This book is a humanistic inquiry into the nature of feeling with particular emphasis upon the way that imagination idealization consummation and the aesthetic contribute not only to the texture of our experience but also to the values that are generated by means of them Love sex and compassion are studied as modes of attachment that human beings create very often as the outcome of prior failures in their personal relations

The Death of Desire M. Guy Thompson, 2016-07-07 A stunning exploration of the relation between desire and psychopathology The Death of Desire is a unique synthesis of the work of Laing Freud Nietzsche and Heidegger that renders their often difficult concepts brilliantly accessible to and usable by psychotherapists of all persuasions In bridging a critical gap between phenomenology and psychoanalysis M Guy Thompson one of the leading existential psychoanalysts of our time firmly re-situates the unconscious what Freud called the lost continent of repressed desires in phenomenology In so doing he provides us with the richest most compelling phenomenological treatment of the unconscious to date and also makes Freud's theory of the unconscious newly comprehensible In this revised and updated second edition to the original published in 1985 M Guy Thompson takes us inside his soul searching seven year apprenticeship with radical psychiatrist R D Laing and his cohorts as it unfolded in counterculture London of the 1970s This rite de passage culminates with a four year sojourn inside one of Laing's post Kingsley Hall asylums where Laing's unorthodox conception of treatment dispenses with conventional boundaries between doctor and patient In this unprecedented exploration Thompson reveals the secret to Laing's astonishing alternative to the conventional psychiatric and psychoanalytic treatment schemes Movingly written and deeply personal Thompson shows why the very concept of mental illness is a misnomer and why sanity and madness should be understood instead as inherently puzzling stratagems that we devise in order to protect ourselves from intolerable mental anguish The Death of Desire offers a

Sex and the Goddess Karin E Weiss Ph.D., PhD, 2019-11-25 It has been over twenty years since the full manuscript of my book was edited for publication in 1998 I had begun writing it in the previous decade the 1980's a period of flourishing women's liberation movements against the patriarchal status quo Books about women's sexuality and spirituality were flooding the bookstores and many writers were producing profound studies of the untold heroism of women throughout history I was a pioneer in the burgeoning field of Sex therapy and education at the University of Minnesota Medical School's Program in Human Sexuality In addition I conducted women's self enrichment groups and workshops in my private practice Woman's Discovery Institute where I also gave professional Astrology readings and classes This rich mix of psychology philosophy spirituality and a knowledge of the cyclic patterns of life shown by astrology created within me an avid interest in researching women's unsung heroism throughout history It brewed in me a heady fascination to stitch it all together in a circle montage that connects all women and all aspects of our multi layered lives I based my theory on the lunar cycle which is eternally linked to women's menstrual emotional and psychic cycles With a friend I created a series of workshops for women to celebrate their many faceted selves and gain confidence to pursue their goals Yet for various reasons my book manuscript remained in my own bookshelf never getting published Until now the times again call for women to claim their autonomy and gain equality in an overly male dominated and viciously callous world I am blessed to find in Xlibris a publisher ready to take on the project with me I am thrilled to finally see my *Life's Masterwork* in print You will find many divergent ideas in these two volumes No single woman encompasses all that are described but as you read and recognize these characters in yourselves and your friends I hope it will help you gain a full appreciation of your own awesome erotic spirit and sacred sexual powers

Love and Violence David Richards, 2023-11-25 This book offers both a philosophical and psychological theory of an aspect of human love first noted by Plato and used by Freud in developing psychoanalysis transference love namely lovers as mirrors for one another enabling them thus better to see and understand themselves and others Shakespeare's art makes the same appeal theater as a communal mirror expressing the artist holding a loving mirror for his culture at a point of transitional crisis between a shame and guilt culture The book shows how Shakespeare's plays

offer better insights into the behavior of violent men than Freud's based on close empirical study of violent criminals develops a theory of violence rooted in the moral emotions of shame and guilt and a cultural psychology of the transition from shame to guilt cultures The work argues that violence is contra Freud not an ineliminable instinct in the nature of things requiring autocracy but arises from patriarchally inflicted cultural injuries to the love of equals that undermine democracy and that only a therapy based on love can address such injuries replacing retributive with restorative justice and populist fascist autocracy with constitutional democracy Love thus understood underlies a range of disparate phenomena the appeal of Shakespeare's theater as a communal art the role of love in psychoanalysis in Augustine's conception of love in religion disfigured by his patriarchal assumptions in Kant's anti-utilitarian ethics of dignity in a naturalistic ethics that roots ethics in facts of human psychology the role of law in democratic cultures as a mirror and critique of such cultures and the basis of an egalitarian theory of universal human rights inspired by Kant and developed more recently by John Rawls In all these domains uncritically accepted forms of culture the initiation of men and women into patriarchy traumatize the love of equals and thus disfigure and distort our personal and political lives

Gabbard, 2000-04-01 Passionate feelings of love and hate are stirred in psychotherapy Paradoxically these passions may either undermine the therapist catastrophically or serve as the crucible in which profound understanding is forged Transferences and countertransferences of love and hate occur on a spectrum that includes unobjectionable negative and positive feelings relatively benign forms of love and hate and more malignant intractable versions of love and hate that present formidable challenges to the therapist Each of these variations is explored in different chapters of this book Gender configurations gender fluidity adolescent transferences the link between
