The Animal Game Penetrator:

The Penetrator Chet Cunningham, 1976 **The Science of Small Arms Ballistics** Alvah Buckmore, Jr., 2018-07-17 The science of small arms ballistics is seriously underdeveloped and underappreciated This unique and different book is a comprehensive study that fills a legitimate need for a work that covers the engineering and theory of small arms ballistics The author shares his extensive research on working out the science of small arm ballistics mathematically and explains his theories such as the field effect and the field effect over trajectory and time along with new theories on interior exterior and terminal ballistics Each equation describes a mathematical relationship such as transfer of energy and has an engineering application to help solve a design problem Some equations such as the calculation of bullet length with a given muzzle velocity and rate of twist represent manipulations of those equations Some other equations represent a set of mathematical instructions to resolve a technical problem such as the computation of trajectory or depth of penetration of living tissue in real time Bowhunter's Encyclopedia Dwight R. Schuh, 1992-06 Includes shooting techniques and hunting methods Arranged in clear alphabetical order with a comprehensive index for cross references **Field & Stream** , 1992-08 FIELD STREAM America s largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice while honoring the traditions hunters and fishermen have passed down for generations

has successfully devoted the better part of his career to applying psychoanalytic theory to the materials of folklore From Game to War offers five of his most mature essays on this topic Dundes begins with a comprehensive survey of the history of psychological studies of folklore in the United States He then presents a striking analysis of the spectrum of behavior associated with male competitive events ranging from traditional games such as soccer and American football to warfare He argues that all of these activities can be seen as forms of macho battle to determine which individual or team feminizes his or its opponents This is followed by a study of the saga of William Tell one of the most celebrated legends in the world A novel treatment of the biblical flood myth in terms of male pregnancy is the penultimate essay while the concluding article proposes an ingeniously imaginative interpretation of the underpinnings of anti-Semitism **Field & Stream**, 1992
