**The Cut and the Building of Psychoanalysis: Volume II** Carlo Bonomi,2017-07-14 The Cut and the Building of Psychoanalysis Volume II explores how the unformulated trauma associated with surgery performed on Emma Eckstein s genitalia and the hallucinations that Eckstein experienced influenced Freud s self analysis oriented his biological speculations and significantly influenced one of his closest followers S ndor Ferenczi This thought provoking and incisive work shows how Ferenczi filled the gaps left open in Freud s system and proved to be a useful example for examining how such gaps are transmitted from one mind to another The first of three parts explores how the mind of the child was viewed prior to Freud what events led Freud to formulate and later abandon his theory of actual trauma and why Freud turned to the phylogenetic past Bonomi delves deeper into Freud s self analysis in part two and reexamines the possible reasons that led Freud to discard the impact and effects of trauma The final part explores the interpersonal effects of Freud s self dissection dream arguing that Ferenczi managed to dream aspects of Freud s self dissection dream on various occasions which helped him to incorporate a part of Freud s psyche that Freud had himself failed to integrate This book questions the subject of a woman s body using discourse between Freud and Ferenczi to build a more integrated and accurate narrative of the origins and theories of psychoanalysis It will therefore be of interest to

Krakowski, 2012-12-06 It is our pleasure to introduce to the readers of *Advances in Psychosomatic Medicine* I the authors of 88 papers presented at the VIth World Congress of the International College of Psychosomatic Medicine in Montreal September 13-18 1981. These papers are representative of more than 700 presentations and discussions that occurred in the course of lectures, symposia, panels, and workshops. Adam J. Krakowski, M.D., primary editor of this volume together with Chase P. Kimball, M.D., G. Unsel Koptagel, M.D., and Hellmuth Freyberger, M.D., are responsible for the solicitation and final editing of the papers included in this volume. Most of the plenary papers presented at the Congress and subsequently received for publication are in preparation for a volume to be issued by S. Karger, Basel, Switzerland, as a special number edited by us with the assistance of Drs. Freyberger and Koptagel. The papers included in this volume represent the main substance of the Congress. The editors regret that a number of presentations were either received too late or in insufficient form to allow for publication at this time. A number of other papers presented at the Congress have been released for publication in the *Journal of Psychosomatic Research*, the *Psychiatric Journal of the University of Ottawa*, *General Hospital Psychiatry*, *Psychosomatics*, and other journals.

*The Future of Psychoanalysis* Peter Zagermann, 2018-05-08 This book is concerned with the question of what psychoanalytic training should look like today. Should we go on with the system that has developed over time? Or should we abandon it, and if so, for which reasons? It provides a detailed and compelling account of the ongoing, sometimes heated international debate about psychoanalytic training. After nearly a century since the onset of formal psychoanalytic training in the 1920s in Berlin, experiences with the prevalent Eitingon model are presented and looked at from different perspectives. Experienced psychoanalysts from all the regions of the psychoanalytic world and from different schools of psychoanalytic thought and clinical conceptualizations share their ideas, critique, and on occasion their diagnoses. Perhaps no other topic of present-day scientific discussion in the field is as prone to evoke more controversial and passionate reactions than the subject of training.

*D.H. Lawrence and the Paradoxes of Psychic Life* Barbara A. Schapiro, 1999-07-29 Contributing to the debate about D.H. Lawrence's relationship with and fictional portrayal of women, this book discusses how the dynamic tensions of his art dramatically reenact the competing forces of psychic and relational life. In her examination of *Sons and Lovers*, *The Rainbow*, *Women in Love*, and various short stories, Schapiro discusses how Lawrence's best works reveal a continual struggle to recognize and be recognized by the other as an independent subject. Drawing on Jessica Benjamin's psychoanalytic theory of intersubjectivity, she also demonstrates how a breakdown of balanced subject-subject relations in his texts gives rise to defensive polarities of gender and of domination and submission.
