## **The Anthropology Of Peace And Nonviolence:**

The Anthropology of Peace and Nonviolence Leslie Elmer Sponsel, Thomas Gregor, 1994-01-01 In exploring neglected aspects of nonviolence and peace this unique collection will find a broad readership among scholars in courses in anthropology and peace studies and with a more general audience

**A Natural History of Peace** Thomas Gregor, 1996 A stimulating and innovative consideration of the concept causes and practice of peace in societies both ancient and modern human and primate We know a great deal about aggression conflict and war but relatively little about peace partially because it has been such a scarce phenomenon throughout history and in our own times Peace is more than the absence of war Peace requires special relationships structures and attitudes to promote and protect it A Natural History of Peace provides the first broadly interdisciplinary examination of peace as viewed from the perspectives of social anthropology primatology archeology psychology political science and economics Among other notable features this volume offers a major theory concerning the evolution of peace and violence through human history an in depth comparative study of peaceful cultures with the goal of discovering what it is that makes them peaceful one of the earliest reports of a new theory of the organization and collapse of ancient Maya civilization a comparative examination of peace from the perspective of change including the transition of one of the world s most violent societies to a relatively peaceful culture and the decision making process of terrorists who abandon violence and a theory of political change that sees the conclusion of wars as uniquely creative periods in the evolution of peace among modern nations

Nonviolence and Peace Psychology Daniel Mayton, 2009-05-28 Recent trends and events worldwide have increased public interest in nonviolence pacifism and peace psychology as well as professional interest across the social sciences Nonviolence and Peace Psychology assembles multiple perspectives to create a more comprehensive and nuanced understanding of the concepts and phenomena of nonviolence than is usually seen on the subject Through this diverse literature spanning psychology political science religious studies anthropology and sociology peace psychologist Dan Mayton gives readers the opportunity to view nonviolence as a body of principles a system of pragmatics and a strategy for social change This important volume Draws critical distinctions between nonviolence pacifism and related concepts Classifies nonviolence in terms of its scope intrapersonal interpersonal societal global and pacifism according to political and situational dimensions Applies standard psychological concepts such as beliefs motives dispositions and values to define nonviolent actions and behaviors Brings sociohistorical and cross cultural context to peace psychology Analyzes a century s worth of nonviolent social action from the pathbreaking work of Gandhi and King to the Courage to Refuse movement within the Israeli armed forces Reviews methodological and measurement issues in nonviolence research and suggests areas for future study Although more attention is traditionally devoted to violence and aggression within the social sciences Nonviolence and Peace Psychology reveals a robust knowledge base and a framework for peacebuilding work granting peace psychologists activists and mediators new possibilities for the transformative power of

nonviolence      *The Handbook of Conflict and Peace Communication* Sudeshna Roy, 2025-09-03 An incisive collection of essays highlighting conflict and peace issues in the Global South with coverage of theory method mediated case oriented and innovative approaches In Handbook of Conflict and Peace Communication renowned communication and media scholar Dr Sudeshna Roy delivers an authoritative exploration of a variety of critical conflicts in the world and a spectrum of approaches to peace communication This book offers an in depth view of how intricate and intractable conflicts can be and how the communicative aspects of conflict are equally challenging The author reviews and guides readers through classic and contemporary analysis in the field providing a truly interdisciplinary work Handbook of Conflict and Peace Communication is divided into five navigable sections Theory Development Method Development Traditional Digital Media and Peace and Conflict Case Studies and Innovative Approaches that help illuminate workable and innovative peace communication strategies relevant to today s conflicts Readers will also find Informative contributions from a collection of outstanding scholars practitioners and activists Comprehensive explorations of past conflict communication theory in the context of contemporary theory Practical tools to navigate complex local and global conflicts In depth examinations of strategies of peace communication from the margins that acknowledge and elevate solutions for and from the most vulnerable Perfect for undergraduate and graduate students scholars and practitioners of peace and conflict studies media studies intercultural communication human rights and social justice Handbook of Conflict and Peace Communication will also earn a place in the libraries of interdisciplinary studies involving philosophy anthropology political science history geography economics psychology and others      **Geographies of Peace** Fiona McConnell, Nick Megoran, Philippa Williams, 2014-06-20 From handshakes on the White House lawn to Picasso s iconic dove of peace the images and stereotypes of peace are powerful widespread and easily recognizable Yet if we try to offer a concise definition of peace it is altogether a more complicated exercise Not only is peace an emotive and value laden concept it is also abstract ambiguous and seemingly inextricably tied to its antithesis war And it is war and violence that have been so compellingly studied within critical geography in recent years This volume offers an attempt to redress that balance and to think more expansively and critically about what peace means and what geographies of peace may entail The editors begin with an examination of critical approaches to peace in other disciplines and a helpful genealogy of peace studies within geography The book is then divided into three sections The opening section examines how the idea of peace may be variously constructed and interpreted according to different sites and scales The chapters in the second section explore a remarkably wide range of techniques of peacemaking This widens the discussion from the archetypal image of top down diplomatic state led initiatives to imperial boundary making practices grassroots cultural identity assertion boycotts self immolation ex paramilitary community activism and protective accompaniment The final section shifts the scale and focus to everyday personal relations and a range of practices around the concept of coexistence In their concluding chapter the editors spell out some of the key questions that they believe a

geography of peace must address What spatial factors have facilitated the success or precipitated the failure of some peace movements or diplomatic negotiations Why are some ideologies productive of violence in some places but co operation in others How have some communities been better able to deal with religious racial cultural and class conflict than others How have creative approaches to sharing sovereignty mitigated or transformed territorial disputes that once seemed intractable Geographies of Peace is the first book wholly devoted to exploring the geography of peace Drawing on both recent advances in social and political theory and detailed empirical research covering four continents it makes a significant intervention into current debates about peace and violence *Indoctrinability, Ideology and Warfare* Irenäus Eibl-Eibesfeldt, 1998-10-01 Violent ethno nationalist conflicts continue to mar the history of the twentieth century yet no satisfactory answer to the question of why humans are susceptible to indoctrination by ideologies that lead to inter group hostility has so far been found In this volume an international team of leading scientists from many different fields approach this complex issue from a biological perspective treating indoctrinability as a predisposition that has its roots in humanity s evolutionary past **The Sage Handbook of Peace and Conflict Studies** Maia Carter Hallward, Ji Eun Kim, Cécile Mouly, Timothy Seidel, Zubairu Wai, 2025-06-07 The Sage Handbook of Peace and Conflict Studies offers a comprehensive exploration of the complexities of violence conflict and peace from a global interdisciplinary perspective The handbook addresses the traditional Western centric approach while emphasizing the need to integrate Global South perspectives to create a more inclusive and transformative understanding of peace and conflict While important voices in peace and conflict studies have long stressed the need to not only address direct violence but also structural and cultural one certain strands of the field have upheld conservative knowledge production and reinforced unequal power structures This volume seeks to challenge these biases by foregrounding critical and decolonial approaches that emphasize gender race culture global history and political economy Its diverse chapters invite us to question mainstream assumptions and promote a broader more inclusive analysis of peace and conflict The handbook explores the evolution of the field highlighting the impact of historical events and the role of oppositional knowledge in political change It offers a critical overview of theoretical approaches emphasizing reflexivity inclusivity and the importance of local actors in peace and conflict dynamics Additionally it examines how cultural and disciplinary assumptions shape peacebuilding and conflict transformation and it critiques traditional global narratives on issues like governance climate change and human rights Finally the handbook presents real world case studies that integrate themes of decoloniality race gender and power inequalities across diverse global contexts By centering the Global South and integrating interdisciplinary perspectives this handbook provides valuable insights for scholars and practitioners committed to fostering a more equitable and just world Section 1 History Knowledge and Power in Peace and Conflict Studies Section 2 Theory and Analysis in Peace and Conflict Studies Section 3 Practices and Approaches in Peace and Conflict Studies Section 4 Global Issues Institutions and Change in Peace and Conflict Studies Section 5 Case Studies in Peace and Conflict Studies

*Ethnic Conflict and Indoctrination* Irenäus Eibl-Eibesfeldt, Frank K. Salter, 1998 Violent ethno nationalist conflicts continue to mar the history of the current century yet no satisfactory answer to the question of why humans are susceptible to indoctrination by ideologies that lead to inter group hostility has so far been found In this volume an international team of leading scientists from many different fields approach this complex issue from a biological perspective treating indoctrinability as a predisposition that has its roots in humanity's evolutionary past

**A Cultural History of Peace in the Modern Age** Ronald Edsforth, 2022-02-24 A Cultural History of Peace presents an authoritative survey from ancient times to the present The set of six volumes covers over 2500 years of history charting the evolving nature and role of peace throughout history This volume A Cultural History of Peace in the Modern Age explores peace in the period from 1920 to the present As with all the volumes in the illustrated Cultural History of Peace set this volume presents essays on the meaning of peace peace movements maintaining peace peace in relation to gender religion and war and representations of peace A Cultural History of Peace in the Modern Age is the most authoritative and comprehensive survey available on peace in the twentieth and twentieth century

**Toward a Nonkilling Paradigm** Joám Evans Pim, 2009 The present volume brings together 24 authors and 14 disciplines including anthropology arts biology economics engineering geography health sciences history linguistics mathematics philosophy physics psychology and sociology to seriously consider the prospects for the realization of nonkilling societies and to challenge each discipline's role in the necessary social and scientific transformation toward a killing free world Pub

*Interreligious Curriculum for Peace Education in Nigeria* Isaiah Ekundayo Dada, 2019-04-18 Nigeria a country under a military regime for several years transitioned to a civilian regime in May 1999 Since this change violent conflicts between Christians and Muslims have continued to erupt They constitute one of the gravest dangers facing Nigeria a country with a population of 189 million people What have Nigerian religious leaders done about this situation especially in educational circles Have they received formal educational training to understand the causes of this violence and especially how to provide alternatives for more peaceful relations within Nigeria Does the current educational system in Nigeria provide the main ingredients for the promotion of a culture of peace The absence and neglect of interreligious peace education as part of a peace education core program and the lack of an interreligious curriculum for peace education in the training of religious leaders are the two problems contributing towards the lack of effectiveness of religious leaders in promoting less violent and more peaceful living The solution to the problem is proposed in this book entitled *Interreligious Curriculum for Peace Education in Nigeria* The book develops a one year curriculum building on Yoruba Islamic Christian conceptions of peace and teaches how to create safe caring spiritual peaceful and successful interfaith relationships between all Nigerian religious communities In the long term the book helps to educate religious leaders to contribute in themselves and with the help of their respective religious communities to reducing the growing religious violence in Nigeria

**The Palgrave Handbook of Disciplinary and Regional Approaches to Peace** Oliver

Richmond, Sandra Pogodda, Jasmin Ramovic, 2016-03-15 In this handbook a diverse range of leading scholars consider the social cultural economic political and developmental underpinnings of peace This handbook is a much needed response to the failures of contemporary peacebuilding missions and narrow disciplinary debates both of which have outlined the need for more interdisciplinary work in International Relations and Peace and Conflict studies Scholars students and policymakers are often disillusioned with universalist and northern dominated approaches and a better understanding of the variations of peace and its building blocks across different regions is required Collectively these chapters promote a more differentiated notion of peace employing comparative analysis to explain how peace is debated and contested **Everyday Peace?**

Philippa Williams, 2015-10-12 Winner of the 2016 Julian Minghi Distinguished Book Award of the Political Geography Specialty Group at the AAG Providing important insights into political geography the politics of peace and South Asian studies this book explores everyday peace in northern India as it is experienced by the Hindu Muslim community Challenges normative understandings of Hindu Muslim relations as relentlessly violent and the notion of peace as a romantic endpoint occurring only after violence and political maneuverings Examines the ways in which geographical concepts such as space place and scale can inform and problematize understandings of peace Redefines the politics of peace as well as concepts of citizenship agency secular politics and democracy Based on over 14 months of qualitative and archival research in the city of Varanasi in Uttar Pradesh India **The Causes of War and the Spread of Peace** Azar Gat, 2017-04-14 Azar Gat sets out to resolve one of the age old questions of human existence why people fight and can they stop Spanning warfare from prehistory to the 21st century the book shows that neither an irresistible drive nor a cultural invention deadly violence and warfare have figured prominently in our behavioural toolkit since the dawn of our species People have always alternated between cooperation peaceful competition and violence to attain evolution shaped human desires A marked shift in the balance between these options has occurred since the onset of the industrial age Rather than modern war becoming more costly it hasn't it is peace that has become more rewarding Scrutinizing existing theories concerning the decline of war such as the democratic peace and capitalist peace Gat shows that they in fact partake of a broader Modernization Peace that has been growing since 1815 By now war has disappeared within the world's most developed areas Finally Gat explains why the Modernization Peace has been disrupted in the past as during the two World Wars and how challenges to it may still arise They include claimants to alternative modernity such as China and Russia anti modernists and failed modernizers that may spawn terrorism potentially unconventional While the world has become more peaceful than ever before there is still much to worry about in terms of security and no place for complacency **Cultural Variation in Conflict Resolution** Douglas P.

Fry, Kaj Björkqvist, Kaj Björkqvist, 2013-04-15 This volume's central purpose is to provide a clearly written scholarly exploration of cultural variation regarding conflict resolution and in so doing highlight certain alternatives to violence It presents an interdisciplinary examination of how conflicts are perceived and handled in a variety of cultural settings Drawing

on data and models from anthropology psychology and political science the chapters analyze conflict resolution across the societal spectrum including cases from Western and non Western traditions complex and tribal societies and violent and non violent cultures While demonstrating the extremely important impact of culture on conflict resolution processes the book does not solely emphasize cultural specificity Rather through introductory chapters section introductions and a concluding chapter the volume editors draw attention to cross cultural patterns in an attempt to further the search for more general conflict principles An explicit message throughout the book is that alternatives to violence exist The volume demonstrates that at various levels from the interpersonal to the international conflicts can be handled in ways that cause far less pain and destruction than violence Chapters by psychologists discuss social and cognitive processes for facilitating the learning of alternatives to violence among children and youth Anthropology contributors explore mechanisms for dealing with social conflict which allow some cultures to remain relatively peaceful and consider implications of their work for reducing violence in other societies Chapters by former President of Costa Rica Oscar Arias and by political scientists examine how non violent political solutions can be employed as alternatives to warfare and violent resistance Encyclopedia of Violence, Peace, and Conflict ,2008-09-05 The 2nd edition of Encyclopedia of Violence Peace and Conflict provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life Building on the highly regarded 1st edition 1999 and publishing at a time of seemingly inexorably increasing conflict and violent behaviour the world over the Encyclopedia is an essential reference for students and scholars working in the field of peace and conflict resolution studies and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change Covering topics as diverse as Arms Control Peace Movements Child Abuse Folklore Terrorism and Political Assassinations the Encyclopedia comprehensively addresses an extensive information area in 225 multi disciplinary cross referenced and authoritatively authored articles In his Preface to the 1st edition Editor in Chief Lester Kurtz wrote The problem of violence poses such a monumental challenge at the end of the 20th century that it is surprising we have addressed it so inadequately We have not made much progress in learning how to cooperate with one another more effectively or how to conduct our conflicts more peacefully Instead we have increased the lethality of our combat through revolutions in weapons technology and military training The Encyclopedia of Violence Peace and Conflict is designed to help us to take stock of our knowledge concerning these crucial phenomena Ten years on the need for an authoritative and cross disciplinary approach to the great issues of violence and peace seems greater than ever More than 200 authoritative multidisciplinary articles in a 3 volume set Many brand new articles alongside revised and updated content from the First Edition Article outline and glossary of key terms at the beginning of each article Entries arranged alphabetically for easy access Articles written by more than 200 eminent contributors from around the world *Beyond War:The Human Potential for Peace* Douglas P. Fry,2007-02-16 Beyond War shows how anthropology can provide unique insights into the nature of war and the potential for peace

Challenging the traditional view that humans are by nature primarily violent and warlike Fry argues that humans also possess a strong ability to resolve conflicts without violence *Peace* Antony Adolf,2013-05-08 How peace has been made and maintained experienced and imagined is not only a matter of historical interest but also of pressing concern *Peace A World History* is the first study to explore the full spectrum of peace and peacemaking from prehistoric to contemporary times in a single volume aimed at improving their prospects By focusing on key periods events people ideas and texts Antony Adolf shows how the inspiring possibilities and pragmatic limits of peace and peacemaking were shaped by their cultural contexts and in turn shaped local and global histories Diplomatic pacifist legal transformative non violent and anti war movements are just a few prominent examples Proposed and performed in socio economic political religious philosophical and other ways Adolf s presentation of the diversity of peace and peacemaking challenges the notions that peace is solely the absence of war that this negation is the only task of peacemakers and that history is exclusively written by military victors Without the victories of peacemakers and the resourcefulness of the peaceful he contends there would be no history to write This book is essential reading for students scholars policy shapers activists and general readers involved with how present forms of peace and peacemaking have been influenced by those of the past and how future forms can benefit by taking these into account **Psychology of Non-violence and Aggression** V.K. Kool,2007-11-27 Kool draws on recent research to illustrate that whilst the control of violence is a reaction to aggression nonviolence is by contrast an active behaviour The book explores a wide survey of theories and examples spanning ideas in cognition motivation and behaviour that will provide students with an engaging entry point to the subject **Keeping the Peace** Graham Kemp,Douglas P. Fry,2004-11-23 This collection of ethnographies discusses how non violent values and conflict resolution strategies can help to create and maintain peace
