Sonboldel, 2024-02-08 An analysis of the aesthetic cultural and political aspects of alternative poetic movements and individual poets in three periods the Constitutional Revolution 1900 1920 the post constitutional era 1920 1940 and the ascendancy of modernism 1940 1960 Farshad Sonboldel shines new light on the history of modern Persian poetry by reimagining the roles that the aesthetic experimentations of alternative poets played in different phases of the literary revolution in modern Persian poetry Dominant narratives portray modern Persian poetry as a gradual rational and moderate change in the classical regime of aesthetics as well as a response to and reflection of cultural and socio political changes within Iranian society They also disregard the significance of radical experiments by alternative poets and undervalue the part they played in the initiation and progress of the so called literary revolution These mainstream narratives minimize the socio political engagement of literary works with the direct reflection of the social reality and thus neglect the way many alternative poems struggle with socio political issues through deconstructing the old and constructing new aesthetic systems Each chapter of *The Rebellion of Forms in Modern Persian Poetry* is centred around poems chosen for their potential to showcase notable experiments of pioneer movements and individuals in each given period Examining the formal and thematic aspects of these poems this book reformulates the story of modern Persian poetry and unravels the relationship between radical aesthetic changes in the practice of poetry and resistance against political and cultural domination in society
