## **The Arabian Peninsula Society And Politics:**

*The Arabian Peninsula* Derek Hopwood, 2015-07-24 Although the Arabian Peninsula is the heartland of Islam and of the Arab world for decades it did not receive the attention it deserves from scholars and writers The School of Oriental and African Studies University of London and the Middle East Centre of St Antony's College Oxford jointly organized a series of seminars culminating in a conference at which the papers in this volume first published in 1972 were discussed Together they constitute an authoritative statement of our present knowledge of several areas of the Peninsula with particular emphasis on the Gulf States Three chapters trace the history of Oman from pre Islamic times to the recent past and in so doing emphasize the theme of continuing conflict between sultan and imam Other chapters examine the Gulf and the Peninsula from the standpoint of inter Arab and of international relations The third section of the book is devoted to a discussion of the increasing rate of social change in the area and the final section deals with problems of oil and state and of economic development

Oil and Development in the Arab Gulf States Walid I. Sharif, 2023-10-12 Oil and Development in the Arab Gulf States 1985 brings together in one volume the manifold sources of information on the Arab Gulf region especially the impact of oil revenues on its economic political and social development It provides a balanced core of primary and secondary sources on various aspects of the economics of Arab oil between 1973 and 1983      The Emergence of States in a Tribal Society Uzi Rabi, 2011 Assesses the reign of Sa'id bin Taymur who was deposed by his son Qabus bin Sa'id in a coup in July 1970 This title refutes the view that Sa'id's four decade reign should be perceived as a place where time stood still It looks at the economic political social and cultural aspects of Oman during the reign of Sa'id bin Taymur      Stories of Democracy Mary Ann Tétreault, 2000 A sophisticated investigation of the shifting tides of democratic governance in modern Kuwait from 1921 to the present based on interviews both with political activists and members of the political elite Stories of Democracy sheds light on a wide array of issues concerning Middle Eastern politics and democratic institutions in general Mary Ann Tétreault explores how various political factions have sought to advance their own notions of Kuwaiti history and politics through distinctive popular appeals 1 pro democracy forces focusing on Kuwait's relationship to the universal values of the democratic world around them and 2 anti democrats proffering Arab and Muslim religious and cultural traditions She explores how such dramatic events as the suspension of the Kuwaiti constitution in 1986 and the invasion by Iraq in 1990

occasioned major shifts in the course of the democracy movement The current running through virtually all of the nation's political drama is the monolithic Kuwait Petroleum Corporation KPC used by the government as an instrument of economic strength to safeguard sovereignty in the absence of military might

**Cultivating the Past, Living the Modern** Amal Sachedina, 2021-09-15 Cultivating the Past Living the Modern explores how and why heritage has emerged as a prevalent force in building the modern nation state of Oman Amal Sachedina analyses the relations with the past that undergird the shift in Oman from an Ibadi shari Imamate 1913 1958 to a modern nation state from 1970 onwards Since its inception as a nation state material forms in the Sultanate of Oman such as old mosques and shari manuscripts restored forts national symbols such as the coffee pot or the dagger khanjar and archaeological sites have saturated the landscape becoming increasingly ubiquitous as part of a standardized public and visual memorialization of the past Oman's expanding heritage industry exemplified by the boom in museums exhibitions street montages and cultural festivals shapes a distinctly national geography and territorialized narrative But Cultivating the Past Living the Modern demonstrates there are consequences to this celebration of heritage As the national narrative conditions the way people ethically work on themselves through evoking forms of heritage it also generates anxieties and emotional sensibilities that seek to address the erasures and occlusions of the past

Oman in the Twentieth Century J.E. Peterson, 2016-02-12 Oman was ruled by the Al Bu Sa id for 250 years and during this period the fortunes of the state varied considerably But in July 1970 as a result of a palace coup the state abruptly turned away from isolation and traditions of the past The most obvious alteration was in the dramatic change in the outward appearance of the country particularly as exemplified by the rejection of the long era of stagnation and the parallel emphasis on socio economic development In the political realm however the shifting balance of power and the rapid growth and diversification of the state s administrative structure were based essentially on perennial themes in Omani politics The interplay between four of these themes forms the basis of this study first published in 1978 The role of the Sultan and the ruling family the development of the administration the exercise of tribal politics and the impact of external influences on the state are closely examined and the modifications they went in response to the various challenges of the twentieth century are discussed The constant flux in the relative importance of each of these themes illustrates the fragile nature of the traditional Omani political system for in the twentieth century the Al Bu Sa id Sultanate found its precarious hold over the country challenged on a number of occasions These challenges ranging from the tribal and religious rebellion of 1913 20 to the Marxist Leninist revolt in Dhufar are also analysed in detail together with the response of the Sultanate to their impact

**The End of Pax Britannica in the Persian Gulf, 1968-1971** Brandon Friedman,2020-11-17 This book examines how the rulers in the Persian Gulf responded to the British announcement of military withdrawal from the Gulf in 1968 ending 150 years of military supremacy in the region The British system in the Gulf was accepted for more than a century not merely because the British were the dominant military power in the region The balance of power mattered but so did the framework

within which the British exercised their power The search for a new political framework which began when the British announced withdrawal was not simply a matter of which ruler would amass enough military power to fill the void left by the British it was also a matter of the Gulf rulers chiefly Iran Saudi Arabia and the ruling shaykhs of the lower Gulf coming to a shared understanding of when and how the exercise of power would be viewed as legitimate This book explores what shaped the rulers ideas and actions in the region as the British system came to an end providing a much needed political history of the region in the lead up to the independence of the UAE Bahrain and Qatar in 1971
