This volume examines how pre Columbian societies in the Americas envisioned their cosmos and iteratively modeled it through the creation of particular objects and places It emphasizes that American societies did this to materialize overarching models and templates for the shape and scope of the cosmos the working definition of cosmocape Noting a tendency to gloss over the ways in which ancestral Americans envisioned the cosmos as intertwined and animated the authors examine how cosmoscapes are manifested archaeologically in the forms of objects and physically altered landscapes This book s chapters therefore offer case studies of cosmoscapes that present themselves as forms of architecture portable artifacts and transformed aspects of the natural world In doing so it emphasizes that the creation of cosmoscapes offered a means of reconciling peoples experiences of the world with their understandings
