Scenes of Madness Derek Russell Davis,2002-09-11 Derek Russell Davis argues that mental health professionals working in a hospital or clinic setting can learn much from playwrights about the psychological processes in mental illness Looking at such diverse characters as Orestes Hamlet Lear Ophelia Peer Gynt Oswald Alving and Blanche Dubois Dr Davis shows how madness in plays is put into the context of the crucial experiences in an individual s history and current relationships and demonstrates that these stories can be a new and exciting source of insight into mental illness **Rare Earth Mettle** Al Smith,2022-01-24 You don t tell an American to switch off her light you build her a better light bulb A leading British doctor

The Secret Language of Churches & Cathedrals Richard Stemp, 2016-07-19 Who is depicted in that stained glass window What is the significance of those geometric figures Why are there fierce looking beasts carved amidst all that beauty Is there a deeper purpose behind the play of light and space in the nave Why is there a pelican on the lectern and ornate foliage on the pillars The largely illiterate medieval audience could read the symbols of churches and cathedrals and recognise the meanings and stories deliberately encoded into them For worshippers these were places of religious education and an awe inspiring feast that satisfied both the senses and the soul Today in an age less attuned to iconography such places of worship are often seen merely as magnificent works of architecture This book restores the lost spiritual meaning of these fine and fascinating buildings The Secret Language of Churches Cathedrals provides a three part illustrated key by which modern visitors can understand the layout fabric and decorative symbolism of Christian sacred structures thereby bringing back to life their original atmosphere of awe and sanctity Part One is an analysis of structural features outside and in from spires and domes to clerestories and brasses Part Two is a theme by theme guide which identifies significant figures scenes stories animals flowers and the use of numbers letters and patterns in paintings carvings and sculpture Part Three is a historical decoder revealing the evolution of styles from basilicas through Byzantine Romanesque Gothic and beyond For all those who seek to know more about Christian art and architecture this richly illustrated book will instruct and delight in equal measure
