The Armed Rovers Beauforts And Beaufighters Over The Mediterranean:

The Armed Rovers Roy Conyers Nesbit,2014-07-19 The little known story of how the Royal Air Force kept supplies from reaching Rommel s Afrika Korps by an RAF veteran and renowned aviation historian By far the most dangerous of the RAF operations during the Second World War were daylight attacks on enemy shipping yet little has been written about this aerial campaign and the brave airmen who took part In particular the intense air sea battles that were fought in the Mediterranean have been neglected in histories of the war in North Africa and Italy Roy Nesbit in this classic account sets the record straight by describing in vivid detail how a few RAF squadrons were successful in destroying supplies vital to the Italian and German armies during the fighting in Libya Egypt and Tunisia At critical moments during the land battles during the dramatic advances and retreats that characterized the fighting in the desert the failure of supplies to get through to Rommel s Afrika Korps was decisive But the casualties suffered by the airmen in these low level attacks were daunting as were those among the naval and merchant seamen whose vessels were targeted This is their dramatic true story by the author of *The Royal Air Force An Illustrated History From 1918 and Arctic Airmen* The Armed Rovers Roy Conyers Nesbit,1995 Beretning om RAF indsats i Middelhavsomr det under 2 verdenskrig *A History of the Mediterranean Air War, 1940-1945* Christopher Shores,Giovanni Massimello,Russell Guest, Frank Olynyk, Winfried Bock,2016-08-05 The third volume in the epic military aviation series focuses on the Allied invasion of North Africa during World War II This work of WWII history takes us to November 1942 to explain the background of the first major Anglo American venture Operation Torch the invasion of French North Africa Describing the fratricidal combat that followed the initial landings in Morocco and Algeria it then considers the unsuccessful efforts to reach northern Tunisia before the Germans and Italians could get there to forestall the possibility of an attack from the west on the rear of the Afrika Korps forces then beginning their retreat from El Alamein The six months of hard fighting that followed as the Allies built up the strength of their joint air forces and gradually wrested control of the skies from the Axis are recounted in detail The continuing story of the Western Desert Air Force is told as it advanced from the east to join hands with the units in the west Also covered are the arrivals over the front of American pilots and crew the P 38 Lightning the Spitfire IX and the B 17 Flying Fortress and of the much feared Focke Wulf Fw 190 The aerial activities over Tunisia became one of the focal turning points of World War II yet are frequently overlooked by historians Here the air sea activities the reconnaissance flights and the growing day and night bomber offensives are examined in detail **With Utmost Spirit** Barbara Tomblin,2004-10-08 Nineteen months before the D day invasion of Normandy Allied assault forces landed in North Africa in Operation TORCH the first major amphibious operation of the war in Europe Under the direction of Gen Dwight D Eisenhower AUS Adm Andrew B Cunningham RN Admiral H Kent Hewitt USN and others the Allies kept pressure on the Axis by attacking what Winston Churchill dubbed the soft underbelly of Europe The Allies seized the island of Sicily landed at Salerno and Anzio and established a presence along the coast of

southern France With Utmost Spirit takes a fresh look at this crucial naval theater of the Second World War Barbara Brooks Tomblin tells of the U S Navy s and the Royal Navy s struggles to wrest control of the Mediterranean Sea from Axis submarines and aircraft to lift the siege of Malta and to open a through convoy route to Suez while providing ships carrier air support and landing craft for five successful amphibious operations Examining official action reports diaries interviews and oral histories Tomblin describes each of these operations in terms of ship to shore movements air and naval gunfire support logistics countermine measures antisubmarine warfare and the establishment of ports and training bases in the Mediterranean Firsthand accounts from the young officers and men who manned the ships provide essential details about Mediterranean operations and draw a vivid picture of the war at sea and off the beaches Barbara Brooks Tomblin taught military history at Rutgers University and is the author of several articles and G I Nightingales The Army Nurse Corps in World War II She lives in California

Strangling the Axis Richard Hammond,2020-06-25 This is a major reassessment of the causes of Allied victory in the Second World War in the Mediterranean region Drawing on a unique range of multinational source material Richard Hammond demonstrates how the Allies ability to gain control of the key routes across the sea and sink large quantities of enemy shipping denied the Axis forces in North Africa crucial supplies and proved vital to securing ultimate victory there Furthermore the sheer scale of attrition to Axis shipping outstripped their industrial capacity to compensate leading to the collapse of the Axis position across key territories maintained by seaborne supply such as Sardinia Corsica and the Aegean islands As such Hammond demonstrates how the anti shipping campaign in the Mediterranean was the fulcrum about which strategy in the theatre pivoted and the vital enabling factor ultimately leading to Allied victory in the region

Malta and British Strategic Policy, 1925-43 Douglas Austin,2004 This book uses official records to show that Malta far from being written off was developed in the inter war years as a British offensive base and that the island s air and naval forces made a major contribution to Allied victory in North Africa

The Decisive Campaigns of the Desert Air Force, 1942-1945 Bryn Evans,2014-04-30 Absorbing this is an excellent account of air operations and tactics of the air battles in North Africa the Mediterranean and Italy Firetrench Compared to the RAF s Fighter and Bomber Commands the Desert Air Force DAF is far less well known yet its achievements were spectacular DAF led the way in North Africa and Italy in pioneering new tactics in close Army Air Force cooperation on the battlefield DAF and Allied air forces gave Allied armies in North Africa and Italy a decisive cutting edge While the Axis forces used the many rivers and mountains of Tunisia and Italy to slow the Allies advance DAF was there to provide that extra mobile firepower the artillery from the sky They were the first multinational air force and the first to introduce air controllers in the front lines of the battlefield With first hand accounts by veteran airmen from Britain Australia Canada New Zealand South Africa and the USA this book tells the previously untold story of how the DAF was the most decisive single factor in winning the three battles of El Alamein and victory in the North Africa and Italy campaigns Yorkshire Evening Post A most welcome addition to the historiography of the

air aspects of the war in North Africa and the wider Mediterranean it will have considerable appeal to a wide ranging readership but especially those interested in the tactical detail and personal experiences of the airmen involved in the various campaigns British Journal for Military History

Kos and Leros 1943 Anthony Rogers,2019-08-22 An illustrated account of the disastrous British led effort to occupy the Dodecanese in autumn 1943 as Winston Churchill attempted to secure the Aegean islands in the wake of the Italian armistice The occupation was a gamble intended to increase pressure against Germany and at the same time possibly provide encouragement for Turkey to join the Allies Spearheaded by the Special Boat Squadron and the Long Range Desert Group garrison troops were deployed to the Italian occupied Dodecanese but they were too late to prevent the Germans from taking control of the key island of Rhodes and its all important airfields An all out German offensive followed Air force and naval units supported a series of assaults by infantry and paratroopers including specialist forces of the Division Brandenburg Within three months only Castelorizzo was still in British hands Rhodes Kos and Leros remained under German occupation until May 1945 and the end of the war in Europe The Dodecanese would be Adolf Hitler s last enduring victory and the last enduring British led defeat

Naval Anti-Aircraft Guns & Gunnery Norman Friedman,2014-01-21 A winner of the Samuel Eliot Morison Award for Naval Literature gives an excellent overview of the problems involved in shooting at airplanes from ships Coast Defense Journal This book does for naval anti aircraft defense what the author s Naval Firepower did for surface gunnery it makes a highly complex but historically crucial subject accessible to the layman It chronicles the growing aerial threat from its inception in the First World War and the response of each of the major navies down to the end of the Second highlighting in particular the widely underestimated danger from dive bombing Central to this discussion is an analysis of what effective AA fire control required and how well each navy s systems actually worked It also takes in the weapons themselves how they were placed on ships and how this reflected the tactical concepts of naval AA defense Renowned military historian Norman Friedman offers striking insights he argues for example that the Royal Navy so often criticized for lack of air mindedness was actually the most alert to the threat but that its systems were inadequate not because they were too primitive but because they tried to achieve too much The book summarizes the experience of WW2 particularly in theaters where the aerial danger was greatest and a concluding chapter looks at post 1945 developments that drew on wartime lessons All important guns directors and electronics are represented in close up photos and drawings and lengthy appendices detail their technical data It is simply another superb contribution to naval technical history by its leading exponent

Aces, Warriors and Wingmen Wayne Ralph,2008-09-11 A celebration and a tribute to the warriors of the air who as young men served their country with unselfish devotion Hear their words Join these young Canadians in combat AN EXCERPT FROM THE ACCOUNT OF GROUP CAPTAIN RAYNE SCHULTZ 410 SQUADRON It was heading home very fast a Junkers 188 in thin cloud well out over the North Sea We hit it badly and it was flaming two three hundred yards of flames streaming behind my navigator being a serious minded individual said Let s

get in closer and take a good look at it as it is a different type of aircraft and I can report on it when we get down So I closed in which was the stupidest thing I ever did The mid upper gunner was not dead he was sitting inside of the flames The next thing I saw the gun traversing down toward us I broke as fast as I could but he put forty to forty four 13mm cannon shells into us I had pistons blown out of one engine and the constant speed unit blown out in the other We were going to bail out We jettisoned the door and the navigator was halfway out when the chap came back from the Ground Control Intercept GCI and said There is a Force 9 to 10 sea and we will never be able to rescue you So we brought that aircraft back to Bradwell Bay and I can tell you it near flew again My navigator was wounded bleeding from the face I could see the engines running red hot one was actually running on molten metal the whole thing glowing inside The air bottles were shot away and I had no brakes for landing The Mosquito was in ribbons

Fortress Malta James Holland,2013-01-31 The extraordinary drama of Malta s WWII victory against impossible odds told through the eyes of the people who were there In March and April 1942 more explosives were dropped on the tiny Mediterranean island of Malta smaller than the Isle of Wight than on the whole of Britain during the first year of the Blitz Malta had become one of the most strategically important places in the world From there the Allies could attack Axis supply lines to North Africa without it Rommel would be able to march unchecked into Egypt Suez and the Middle East For the Allies this would have been catastrophic As Churchill said Malta had to be held at all costs FORTRESS MALTA follows the story through the eyes of those who were there young men such as twenty year old fighter pilot Raoul Daddo Langlois anti aircraft gunner Ken Griffiths American Art Roscoe and submariner Tubby Crawford who served on the most successful Allied submarine of the Second World War cabaret dancer turned RAF plotter Christina Ratcliffe and her lover the brilliant and irrepressible reconnaissance pilot Adrian Warburton Their stories and others provide extraordinary first hand accounts of heroism resilience love and loss highlighting one of the most remarkable stories of World War II

High Hulls Charles R. G. Bain ,2018-11-27 For a time the flying boat was seen as the way of the future These aircraft so strange and foreign to the modern mind once criss crossed the world and fulfilled essential military roles In his latest book for Fonthill Charles Bain looks at the golden age of the flying boat when these sometimes strange and often beautiful vessels spanned the globe These vessels a combination of ship and airplane found themselves working as patrol aircraft passenger aircraft transports and even as combat aircraft This volume contains their stories from memorable aircraft such as the Short Sunderland and Boeing 314 Clipper to the craft that roamed the Pacific Theatre of the Second World War to forgotten giants from Saunders Roe and even strange jet fighters that once landed like ducks It even includes the flying boat that has not let time get in the way of doing its job the Martin Mars Each of these aircraft has a story worthy of the telling and often a memorable role to play in the history of aviation High Hulls delves deeply into a long vanished part of aviation s golden age

Together We Stand James Holland, 2005 When the Axis forces were finally driven from North Africa in May 1943 over 250 000 were taken prisoner as many as had surrendered to the Russians at Stalingrad It was a major victory and a crucial stepping stone to the future invasion of Italy and France Yet just a year before the Allies had been facing one disaster after another In North Africa the Eighth Army s terrible defeat at Gazala represented Britain s nadir Slowly but surely however the Allies began to turn the tide This crucial period was a time of learning for both America and Britain and by the end of the Tunisian campaign they had finally gained material but also certain tactical advantages over Germany particularly in the air war As this book shows the development of a tactical air force principles that are still used to this day

were founded over the skies of North Africa And yet this is also a book about the men and women who found themselves caught up in this struggle people drawn from all parts of the globe and brought together to make up these polyglot Allied forces British and American Nepalese and Punjabi South African and Australian Maori and Zulu and from all ranks and all services BOOK JACKET Kampf um die Ägäis Peter Schenk,2000
