Artbibliographies Modern, 1995 Abstracts of journal articles books essays exhibition catalogs dissertations and exhibition reviews The scope of ARTbibliographies Modern extends from artists and movements beginning with Impressionism in the late 19th century up to the most recent works and trends in the late 20th century Photography is covered from its invention in 1839 to the present A particular emphasis is placed upon adding new and lesser known artists and on the coverage of foreign language literature Approximately 13 000 new entries are added each year Published with title LOMA from 1969 1971 Annual Report - Art Institute of Chicago Art Institute of Chicago, 1922 **America, History and Life**, 1996 Article abstracts and citations of reviews and dissertations covering the United States and Canada The Art Institute of Chicago Museum Studies, Volume 13, No. 2, 1988 **Northern European and Spanish Paintings Before 1600 in the Art Institute of Chicago** Art Institute of Chicago, Martha Wolff, 2008 This volume documents the Art Institute of Chicago's significant yet relatively unknown collection of French Spanish Netherlandish English and German paintings created before 1600 More than one hundred works including altarpieces private devotional works portraits and landscapes by such masters as Lucas Cranach Gerard David El Greco Jan Gossart and Rogier van der Weyden receive their first in depth analysis More than 350 images including comparative illustrations of underdrawings reconstructed ensembles and related works accompany the entries **BOOK JACKET** Giorgio de Chirico and the Real Deborah Walker, 2008 Due to the implacable enigmatic nature of Giorgio de Chirico's vision there has been numerous conflicting interpretations of his painting This discussion considers the artist's integration of Nietzschean philosophy particularly his perspectivism the symbolism of Grecian myths and his enigmatic figuration These ingredients are used as an insight into de Chirico's aesthetic achievements The artist's work is characterized by a consideration of appearance and reality his seemingly straightforward images suggest

a sense of accessibility yet they are ultimately irreducible to knowing His haunting images include references to both the Italian Risorgimento and Nietzsches Birth of Tragedy and these are used in part as an interpretive framework De Chirico s fascination with the poetic content of Nietzschean themes is particularly relevant in the light of the Apollonian Dionysian disunity a work that acts as a touchstone to the understanding of de Chiricos visual mystery **The Winterbotham Collection** ,1947 **Museum Studies** Art Institute of Chicago,1993 *The Art Institute of Chicago Museum Studies, Volume 17* ,1991 **The Joseph Winterbotham Collection** ,1986 **The Copy Turns Original** Cornelia Homburg,1996 In 1889 90 van Gogh produced a series of painted copies of work of other artists This study concentrates on this category of paintings in which the artist intentionally imitates an existing composition and reproduces it using his personal form of pictorial language **The Art Institute of Chicago Museum Studies, Volume 12, Number 1** ,1985
