development of Chinese theatrical art from the Cultural Revolution to the end of the 20th century The Cultural Revolution had a devastating influence on the theatrical profession reducing the creation of performance art to serving the political authorities Adopting a critical view the author argues that the Reform and Opening up of the late 1970s not only ended this period of political interference but also brought about chaos and doubts to the theatrical circle since neither tradition nor western concepts were a panacea for the problems faced by Chinese theatre He posits that people should advocate patterns of drama that are rich and colourful in their expression while encouraging the coexistence and competition of different artistic concepts Scholars and students in the history of the arts especially the history of Chinese theatre will find this book to be an essential guide

**Contemporary Chinese Art** Jeanne Boden,2022-05-06 In the early 1990s artist Xu Bing stamped two pigs with respectively nonsensical Latin words and fake Chinese characters and allowed them to mate in an art gallery The performance of two creatures devoid of human consciousness yet carrying on their bodies the marks of human civilization engaging in the most primal form of social intercourse confronted the public with the tension between nature and civilization The work also addresses the tension between China and the West and therefore perfectly fits the core message of this book Contemporary art in China takes place in a post socialist post Mao context and at the same time a post traditional one searching for balance between aesthetic legacy and modernization It also tries to find its position in the post colonial globalized arena This book explores the tension between individual artistic freedom and a dominant discourse of central Chinese government between China's cultural legacy and modernization and between China and a global art world still dominated by a Western canon As a case study it focuses

on the artists who participated in the Venice Biennale in 1993 which was the first time contemporary art from mainland China was structurally invited to participate in a global art context Jeanne Boden has a PhD in Oriental Languages and Cultures Her research focuses on Eurocentrism Sinocentrism and contemporary Chinese art [jeanneboden.com](http://jeanneboden.com) Cover picture Xu Bing A Case Study of Transference 1993 94 Art in Turmoil: The Chinese Cultural Revolution, 1966-76 Richard King, 2010-07-01 This book decodes the rhetoric of Chinas turbulent decade a time of both brutal iconoclasm and radical experimentation in the arts to offer new insights into works that have transcended their times *The Routledge Encyclopedia of Traditional Chinese Culture* Sin-wai Chan, 2019-12-06 The Routledge Encyclopedia of Traditional Chinese Culture offers an in depth discussion of cultural aspects of China from the ancient period to the pre modern era lasting over 5 000 years comprised of 7 000 word pieces by more than 20 world leading academics and experts Addressing areas such as China studies cultural studies cultural management and more specific areas such as religion opera Chinese painting Chinese calligraphy material culture performing arts and visual arts this encyclopedia covers all major aspects of traditional Chinese culture The volume is intended to be a detailed reference for graduate students on a variety of courses and also for undergraduate students on survey courses to Chinese culture *Popular Music, Cultural Politics and Music Education in China* Wai-Chung Ho, 2016-12-08 While attention has been paid to various aspects of music education in China to date no single publication has systematically addressed the complex interplay of sociopolitical transformations underlying the development of popular music and music education in the multilevel culture of China Before the implementation of the new curriculum reforms in China at the beginning of the twenty first century there was neither Chinese nor Western popular music in textbook materials Popular culture had long been prohibited in school music education by China s strong revolutionary orientation which feared spiritual pollution by Western cultures However since the early twenty first century education reform has attempted to help students deal with experiences in their daily lives and has officially included learning the canon of popular music in the music curriculum In relation to this topic this book analyses how social transformation and cultural politics have affected community relations and the transmission of popular music through school music education Ho presents music and music education as sociopolitical constructions of nationalism and globalization Moreover how popular music is received in national and global contexts and how it affects the construction of social and musical meanings in school music education as well as the reformation of music education in mainland China is discussed Based on the perspectives of school music teachers and students the findings of the empirical studies in this book address the power and potential use of popular music in school music education as a producer and reproducer of cultural politics in the music curriculum in the mainland **Musics of Many Cultures** Elizabeth May, 2023-07-28 The foremost authorities in the field of music from around the world have contributed twenty original essays for this volume edited by Elizabeth May Only European musics have been omitted except insofar as they affect other musics discussed here North American music is represented by the
