A CONTEMPORARY BIBLIOMETRIC ANALYSIS OF THE SHARING ECONOMY LITERATURE

Savremena bibliometrijska analiza literature na temu
ekonomije deljenja

Abstract

The study deployed an evaluative bibliometric analysis of contemporary literature on the topic of sharing economy indexed in the Web of Science (WoS) and/or Scopus within the fields of economics, business and management to provide an objective insight into its academic structure. Also, a comparative analysis of WoS and Scopus databases was conducted with the intention to examine the importance of both index databases concerning the investigated issue. Using a data-driven analysis, geographical distribution, the level of dispersion of papers among journals, the most frequently researched topics, the most influential authors, papers and scientific journals of the sharing economy knowledge within the predefined research field were determined. Comparative analysis of WoS and Scopus databases revealed that Scopus is a more comprehensive, but not more significant source of the sharing economy knowledge than WoS database, which itself could be characterized as an outstanding subset of Scopus.

Keywords: *sharing economy, bibliometric analysis, Web of Science, Scopus*

Sažetak

U radu je izvršena evaluativna bibliometrijska analiza savremene literature na temu ekonomije deljenja indeksirane u Web of Science (WoS) i/ili Scopus indeksnoj bazi u okviru oblasti ekonomija, biznis i menadžment, sa ciljem da se obezbedi objektivna uvid u akademiku strukturu ove discipline. Takođe, sprovedena je uporedna analiza WoS i Scopus baza sa namerom da se ispita značaj analiziranih indeksnih baza za istraživanu problematiku. Primenom analize zasnovane na podacima utvrđeni su geografsko područje koje prednjači u istraživanju discipline ekonomije deljenja u okviru unapred definisanih istraživačkih oblasti, nivo disperzije radova među časopisima, najčešće istraživane teme, najuticajni autori, radovi i naučni časopisi. Putem uporedne analize WoS i Scopus indeksnih baza zaključeno je da je Scopus obuhvatniji, ali ne i značajniji izvor znanja iz oblasti ekonomije deljenja od WoS indeksne baze koja se u istraživanoj disciplini može okarakterisati kao izvanredan podskup Scopus-a.

KLjučne reči: *ekonomija deljenja, bibliometrijska analiza, Web of Science, Scopus*

The Economy Of Literature:

The Economy of Literature Marc Shell, 1993-09 Why did coinage tyranny and philosophy develop in the same time and place Marc Shell explores how both money and language give worth by providing a medium of exchange how the development of money led to a revolution in philosophical thought and language and how words transform mere commodities into symbols at once aesthetic and practical Offering carefully documented interpretations of texts from Heraclitus Herodotus Sophocles Plato Aristotle Rousseau and Ruskin Shell demonstrates the kinship between literary and economic theory and production introduces new methods of analyzing texts and shows how literary and philosophical fictions can help us understand the world in which we live

[The Routledge Companion to Literature and Economics](#) Matt Seybold, Michelle Chihara, 2018-09-17 The study of literature and economics is by no means a new one but since the financial crash of 2008 the field has grown considerably with a broad range of both fiction and criticism The Routledge Companion to Literature and Economics is the first authoritative guide tying together the seemingly disparate areas of literature and economics Drawing together 38 critics the Companion offers both an introduction and a springboard to this sometimes complex but highly relevant field With sections on Critical traditions Histories Principles and Contemporary culture the book looks at examples from Medieval and Renaissance literature through to poetry of the Great Depression and novels depicting the 2008 financial crisis Covering topics from Austen to austerity Marxism to modernism the collated essays offer indispensable analysis of the relationship between literary studies and the economy Representing a wide spectrum of approaches this book introduces the basics of economics while engaging with essential theory and debate As the reality of economic hardship and disparity is widely acknowledged and spreads across disciplines this Companion offers students and scholars a chance to enter this crucially important interdisciplinary area

[Money, Language, and Thought](#) Marc Shell, 1993-09 In Money Language and Thought Marc Shell explores the interactions between linguistic and economic production as they inform discourse from Chretien de Troyes to Heidegger Close readings of works such as the medieval grail legends The Merchant of Venice Goethe's Faust and Poe's The Gold Bug reveal how discourse has responded to the dissociation of symbol from thing characteristic of money and how the development of increasingly symbolic currencies has involved changes in the meaning of meaning Pursuing his investigations into the modern era Shell points out significant internalization of economic form in Kant Hegel and Heidegger He demonstrates how literature and philosophy have been driven to account self critically for a money of the mind that pervades all discourse and concludes the book with a discomfiting thesis about the cultural and political limits of literature and philosophy in the modern world

Literature and the Creative Economy Sarah Brouillette, 2014-04-15 This book contends that mainstream considerations of the economic and social force of culture including theories of the creative class and of cognitive and immaterial labor are indebted to historic conceptions of the art of literary authorship It shows how contemporary literature has been involved in and has responded to creative economy phenomena including the presentation of artists as models of contentedly flexible and self managed work the treatment of training in and exposure to art as a pathway to social inclusion the use of culture and cultural institutions to increase property values and support for cultural diversity as a means of growing cultural markets Contemporary writers have tended to explore how their own critical capacities have become compatible with or even essential to a neoliberal economy that has embraced art's autonomous gestures as proof that authentic self articulation and social engagement can and should occur within capitalism Taking a sociological approach to literary criticism Sarah Brouillette interprets major works of contemporary fiction by Monica Ali Aravind Adiga Daljit Nagra and Ian McEwan alongside government policy social science and theoretical explorations of creative work and immaterial labor
