The Educated Woman Prospects And Problems:

The Educated Woman Group for the Advancement of Psychiatry. Committee on the College Student, 1975 The Educated Woman Group for the Advancement of Psychiatry, 1975 *The Woman Patient* Malkah Notman, 2012-12-06 This volume continues some of the issues raised in Volume 2 and focuses more closely on therapeutic intervention The theoretical discussion of aggression provides a background for the presentation of patterns of aggression and violence affecting women as well as possible connections between physical and emotional symptoms and indirect expressions of aggression The section on aggression against and by women is an extension of some of the content of *The Woman Patient* Volume 1 e g the chapter on rape Theoretical and clinical views that are not often linked in this fashion are included here because we are interested in understanding the development of a self concept that incorporates the constructive aspects of aggression as well as an understanding of violence In this context loss abandonment delinquency and child and adolescent suicide are also extensions of these issues The chapters that follow address aspects of symptom formation and concepts of illness There is as yet no definitive explanation for why women experience certain illness patterns more or less than men Current considerations have been reviewed but these do not answer They are a beginning on which we must build It is apparent that any discussion of these subjects better elucidates the complexity if it includes an intermingling of general problems with concrete symptoms Those specific problems that are usually thought of as psychological such as depression and behaviors such as substance abuse provide a focus for understanding wider issues **Resources in Women's Educational Equity**, 1979 Literature cited in AGRICOLA Dissertations abstracts international ERIC ABI INFORM MEDLARS NTIS Psychological abstracts and Sociological abstracts Selection focuses on education legal aspects career aspects sex differences lifestyle and health Common format bibliographical information descriptors and abstracts and ERIC subject terms used throughout Contains order information Subject author indexes **Women in Industry** Pasquale A. Carone, Sherman N. Kieffer, Leonard W. Krinsky, Stanley F. Yolles, 1977-03-30 Papers from a conference on medical emotional and career problems of women in industry held in April 1976 under the sponsorship of the South Oaks Foundation have been collected in this volume Speakers from government medicine and the business worlds presented new research and recommendations for study of women in industrial work Published by the South Oaks Foundation and Medical School of the State University of New York at Stony Brook **In the Long Run...Longitudinal Studies of Psychopathology in Children** Group for the Advancement of Psychiatry, 1999 This volume presents studies of the outcome of pathology for children with specific psychiatric diagnoses such as in children with chronic medical illnesses childhood traumas mood and anxiety disorders attention deficit hyperactivity disorder conduct disorders and eating disorders *Homosexuality and the Mental Health Professions* Jack Drescher, 2013-06-17 For more than half a century The Group for the Advancement of Psychiatry GAP has produced position statements on relevant and controversial psychiatric topics This latest monograph *Homosexuality and the Mental Health*

Professions The Impact of Bias continues a tradition of timely publications dealing with specific aspects of bias discrimination and human sexuality This monograph acutely identifies problems of bias overt and covert as they affect the treatment of lesbian and gay patients and as they influence the training of mental health professionals Incorporating clinical vignettes that detail actual incidents from a wide range of clinical and professional encounters the report enables the clinician not only to review his or her own experience but also to envision alternative possibilities of constructive and caring intervention As psychiatry enters a new era of understanding the full range of normal variation in human sexuality this monograph will serve both as an indispensable teaching tool and as an invaluable touchstone for assessing quality of care with gay and lesbian patients

The Gender Gap in Psychotherapy E.H. Carmen,P.P. Rieker,2012-12-06 This collection of readings is designed to clarify the relationship between social structures and psychological processes Our awareness of the need for such a book derives from our extensive experiences in teaching a for mal course for mental health professionals on gender and psychother apy The material in this anthology emphasizes the clinical implications of the new research and knowledge that has changed our understanding of the psychological development of women and men Throughout the book we present ideas that challenge conventional explanations of psy chological distress in women and men and suggest alternative concep tualizations of these processes As will be evident our work is informed by and contributes to the growing field of knowledge produced by feminist scholars over the last decade That this book on gender has more to say about women reflects the existence of a substantial body of research that reconceptualizes women s psychology The corresponding research on men is still in its formative stages due in part to the later development of a men s move ment Although many of the chapters focus on women we have attempted in our discussion to consider the implications for men We believe that the fundamental processes explored in this book are relevant to the understanding of both women and men
