Only in fairly recent years has History and Philosophy of Science been recog nised though not always under that name as a distinct field of scholarly endeavour Previously in the Australasian region as elsewhere those few individuals working within this broad area of inquiry found their base both intellectually and socially where they could In fact the institutionalisation of History and Philosophy of Science began comparatively early in Australia An initial lecturing appointment was made at the University of Melbourne immediately after the Second World War in 1946 and other appointments followed as the subject underwent an expansion during the 1950s and 60s similar to that which took place in other parts of the world Today there are major Departments at the University of Melbourne the University of New South Wales and the University of Wollongong and smaller groups active in many other parts of Australia and in New Zealand *Nominations of A. Sidney [sic] Herlong, Jr. and Ezra Solomon* United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs, 1971 National Union Catalog , 1968 **Hearings, Reports and Prints of the Senate Committee on Foreign Relations** United States. Congress. Senate. Committee on Foreign Relations, 1979 **Doing Business with China** , 1976 **Overseas Business Reports** , 1976 Energy for a Sustainable World Vincenzo Balzani, Nicola Armadori, 2010-12-01 An easy read balancing the pros and cons this book surveys the energy issue from a broad scientific perspective while considering environmental economic and social factors It explains the basic concepts provides a historical overview of energy resources assesses our unsustainable energy system based on fossil fuels and shows that the energy crisis is not only a tough challenge but also an unprecedented opportunity to become more concerned about the world in which we live and the society we have built up By outlining the alternatives for today and the future it gives an extensive overview on nuclear energy solar thermal and photovoltaics solar fuels wind power ocean energies and other renewables highlighting the increasing importance of

electricity and the long term perspectives of a hydrogen based economy An excellent source of updated and carefully documented information on the entangled aspects of the energy issue this book is a guide for scientists students and teachers looking for ways out of the energy and climate crisis and the problems and disparities generated during the fossil fuel era
