The American Presidents Biographies Of Our Chief Executives 10th Edition:

Recarving Rushmore Ivan Eland,2014-10-01 Who were the best and worst U S presidents In the past when historians and scholars have rated the presidents their evaluations often have been based on individual charisma activism and service during periods of crisis Taking a distinctly new approach in Recarving Rushmore Ivan Eland profiles each U S president from Washington to Obama on the merits of his policies and whether those strategies contributed to peace prosperity and liberty This ranking system is based on how effective each president was in fulfilling his oath to uphold the Constitution Contrary to the preferences of modern conservatives and liberals this oath was intended to limit the role of the federal government Readers will be intrigued to discover why of the four men given exalted representations on Mount Rushmore only Washington deserves the honor They will learn why Teddy Roosevelt has been overrated why Jefferson hypocritically violated his lofty rhetoric of liberty and why Lincoln provoked a civil war that achieved far less than believed Readers will uncover why some presidents are rated much higher than the conventional wisdom for example Warren Harding and some rank much lower for example Harry Truman As for more modern U S chief executives Republicans will be astounded to learn that Nixon was the last liberal president and that Reagan wasn't all that conservative Democrats will be amazed to learn that Clinton was in some respects more conservative than George W Bush and why both Obama and Bush are ranked as bad Readers will learn why the author goes against the grain and anoints Eisenhower and Carter as the two best modern presidents *The American Presidents* David C. Whitney,Robin Vaughn Whitney,2009 Describes the lives and presidential terms of all the American chief executives from George Washington to Barack Obama lists the first ladies and vice presidents election totals and cabinet members throughout history and includes information on presidential historic sites and the making of the presidency **Books in Print** ,1981 *John Tyler* Gary May,2008-12-09 Traces the events of the tenth executive leader's presidency from his unexpected ascent after the premature death of William Henry Harrison and unpopular veto of a proposed Bank of the United States to his indirect role in promoting secession *Presidents by Fate* F. Martin Harmon,2019-08-16 Throughout the history of the United States only nine men were elevated to the White House by the death or failure of a sitting president and their legacies are as mixed as their circumstances This book evaluates the similarities and distinct differences of these men their varying degrees of ambition and readiness and how each handled their suddenly enormous duties Some became presidential legends while others are counted among the worst Their shared stories shed light on America's political development during the last two centuries *Subject Guide to Books in Print* ,1993 *Books in Print Supplement* ,1994 **The Complete Book of U.S. Presidents** William A. DeGregorio,1993 A ready reference guide to the presidents of the United States from George Washington through Bill Clinton **American Presidents** David C Whitney,2012-05-10 The American Presidents covers the history of the presidents of the United States of America from George Washington to Barack Obama and contains information on the influences of our country's leaders
