The Anterior Construction in Classical Hebrew Ziony Zevit, 1998 The author provides a detailed but relatively straightforward examination of the syntactical means by which chronological sequencing of events is expressed in biblical Hebrew narrative Author and scripture indexed Annotation copyrighted by Book News Inc Portland OR Construction in Classical Hebrew Ziony Zevit, 1998-01-01 Parenthesis in Biblical Hebrew Tamar Zewi, 2007 In its examination of parenthesis in Biblical Hebrew this book presents a linguistic description of Biblical Hebrew parenthetical units through integration of several research disciplines and scholarly approaches linguistics discourse studies text linguistics textual philology comparative Semitics Bible translations and literature Style And Structure In Biblical Hebrew Narrative Jerome T. The author presents and examines the two main sources of pragmatic foregrounding events or states deviating from well established schemata structures of reader expectation that can be manipulated by the narrator to highlight specific chunks of discourse and evaluative devices which are used by the narrator to indicate to the reader the point of the story and direct its interpretation Cotrozzi critiques the particular evaluative device known as the historic present a narrative strategy that employs the present tense to describe past event He tests two main theories that support this device by using a cross linguistic model of the historical present drawing upon a variety of languages Cotrozzi ultimately refutes these theories with a thorough examination and detailed

refutation He concludes with a study of a particular Hebraic verb as a particular marker of represented perception a technique whereby the character's perceptions are expressed directly from its point of view **Biblical Narrative and the** Death of the Rhapsode Robert S. Kawashima, 2004-12-09 Informed by literary theory and Homeric scholarship as well as biblical studies Biblical Narrative and the Death of the Rhapsode sheds new light on the Hebrew Bible and more generally on the possibilities of narrative form Robert S Kawashima compares the narratives of the Hebrew Bible with Homeric and Ugaritic epic in order to account for the novelty of biblical prose narrative Long before Herodotus or Homer Israelite writers practiced an innovative narrative art which anticipated the modern novelist's craft Though their work is undeniably linked to the linguistic tradition of the Ugaritic narrative poems there are substantive differences between the bodies of work Kawashima views biblical narrative as the result of a specifically written verbal art that we should counterpose to the oral traditional art of epic Beyond this strictly historical thesis the study has theoretical implications for the study of narrative literature and oral tradition Indiana Studies in Biblical Literature Herbert Marks General Editor Arnold, 2014-11-04 The NIV Application Commentary helps you communicate and apply biblical text effectively in today s context To bring the ancient messages of the Bible into today s world each passage is treated in three sections Original Meaning Concise exeges to help readers understand the original meaning of the biblical text in its historical literary and cultural context Bridging Contexts A bridge between the world of the Bible and the world of today built by discerning what is timeless in the timely pages of the Bible Contemporary Significance This section identifies comparable situations to those faced in the Bible and explores relevant application of the biblical messages. The author alerts the readers of problems they may encounter when seeking to apply the passage and helps them think through the issues involved This unique award winning commentary is the ideal resource for today s preachers teachers and serious students of the Bible giving them the tools ideas and insights they need to communicate God's Word with the same powerful impact it had when it was first written

A Guide to Biblical Hebrew Syntax Bill T. Arnold, John H. Choi, 2003-11-24 This introduces and abridges the syntactical features of the original language of the Hebrew Bible or Old Testament Scholars have made significant progress in recent decades in understanding Biblical Hebrew syntax Yet intermediate readers seldom have access to this progress due to the technical jargon and sometimes obscure locations of the scholarly publications. This Guide is an intermediate level reference grammar for Biblical Hebrew As such it assumes an understanding of elementary phonology and morphology and defines and illustrates the fundamental syntactical features of Biblical Hebrew that most intermediate level readers struggle to master The volume divides Biblical Hebrew syntax and to a lesser extent morphology into four parts The first three cover the individual words nouns verbs and particles with the goal of helping the reader move from morphological and syntactical observations to meaning and significance The fourth section moves beyond phase level phenomena and considers the larger relationships of clauses and sentences The Hebrew Bible Frederick E. Greenspahn, 2008 In April of 2001 the headline in the Los Angeles Times read Doubting the Story of the Exodus It covered a sermon that had been delivered by the rabbi of a prominent local congregation over the holiday of Passover In it he said The truth is that virtually every modern archeologist who has investigated the story of the exodus with very few exceptions agrees that the way the Bible describes the exodus is not the way it happened if it happened at all This seeming challenge to the biblical story captivated the local public Yet as the rabbi himself acknowledged his sermon contained nothing new The theories that he described had been common knowledge among biblical scholars for over thirty years though few people outside of the profession know their relevance New understandings concerning the Bible have not filtered down beyond specialists in university settings There is a need to communicate this research to a wider public of students and educated readers outside of the academy This volume seeks to meet this need with accessible and engaging chapters describing how archeology theology ancient studies literary studies feminist studies and other disciplines now understand the Bible **Le-ma'an Ziony** Frederick E. Greenspahn, Gary A. Rendsburg, 2017-03-02 An international array of twenty six scholars contributes twenty one essays to honor Ziony Zevit American Jewish University one of the foremost biblical scholars of his generation The breadth of the honoree is indicated by the breadth of coverage in these twenty one articles with seven each in the categories of history and archaeology Bible and Hebrew and Aramaic language Judges 19-21 and the "Othering" of Benjamin William Krisel, 2021-12-28 Of all the tribes of Israel why is Benjamin cast in the role of the villainous other in Judges 19 21 Krisel argues that the anti Benjamin Tendenz in the narrative reflects economic political and ideological tensions between the Golah community the deportees who returned from Babylon during the early Persian period and the people who had not gone into exile who lived primarily in the Benjamin region The hypothesis is supported by archaeological and survey data largely overlooked by biblical scholars and by a careful redaction history of the text Krisel engages critically with the predominant scholarly view that Judges 19 21 uses irony to cast the explicit heroes in the narrative the sons of Israel as the implicit villains The Fate of Justice and

Righteousness During David's Reign Richard G. Smith, 2009-12-10 Revision of the author's thesis Ph D University of Cambridge 2001 presented under the title The figure of Joab and the fate of justice and righteousness during David's reign rereading the so called court history according to 2 Samuel 8 15 20 26 On Conditionals in the Greek Pentateuch Anwar Tjen, 2010-07-29 The book examines conditionals in the Greek Pentateuch from the point of view of the study of translation syntax It takes seriously into account the double character of Septuagintal Greek both as a translation from Hebrew and as vernacular Greek Methodologically the underlying Hebrew is taken as the point of departure in close comparison with the resultant translation with the purpose of examining major features in the translators handling of this complex construction These include the rendering of verbal and non verbal forms in the protasis and apodosis the question of sense division between the two constituent clauses the influence of genre or discourse type and interference from the underlying form or structure Detailed analyses of the resultant translation displays features that are natural Greek on the one hand and features that betray the character of translation language on the other hand owing to interference from the source text The latter manifests itself most conspicuously in renderings that are ungrammatical or unnatural and in a more subtle way through equivalents which are grammatically acceptable but occur with a strikingly high frequency in the Septuagint as compared with original Greek compositions contemporary with the Septuagint **Bringing the Hidden to Light** Kathryn F. Kravitz, Diane M. Sharon, 2007 Geller is Irma Cameron Milstein Professor of Bible at Jewish Theological Seminary Geller s attention to language and interest in applying the methods of literary analysis to the Hebrew Bible are reflected in his work throughout his career He has addressed such topics as The Dynamics of Parallel Verse in Deuteronomy 32 the Language of Imagery in Psalm 114 and the literary uses of Cleft Sentences with Pleonastic Pronoun Combining a historical orientation with deep exegeses of individual texts he has focused on the contribution that the literary approach might make to the study of biblical religion He has developed what he terms a literary theology in which by examining the literary devices in the passage under consideration he has been able to formulate emerging religious ideas that the ancient writers did not express in systematic treatises His method is illustrated in his studies of texts that represent the major religious traditions of the Hebrew Bible these studies have been collected in Sacred Enigmas published in 1997 The essays in this volume were contributed by colleagues friends and students of Stephen A Geller to mark the occasion of his 65th birthday Contributors include Tzvi Abusch Marc Z Brettler Alan Cooper Frank Moore Cross Stephen Garfinkel Edward L Greenstein Robert A Harris S Tamar Kamionkowski Kathryn F Kravitz Anne Lapidus Lerner David Marcus Yochanan Muffs Benjamin Ravid Michael Rosenbaum Raymond P Scheindlin William M Schniedewind Diane M Sharon Benjamin D Sommer The Verbal System in the Hebrew Text of Ben Sira Willem Th. van Peursen, 2017-07-03 This volume is a revised and enlarged version of the author's Ph D dissertation 1999 It gives a comprehensive analysis of the morphosyntax and syntax of the tenses in the Hebrew text of Ben Sira Due attention is paid to the heterogeneous character of the textual evidence three manuscripts from

the Desert of Judah and six mediaeval manuscripts from the Cairo Geniza which complicates any linguistic study of Ben Sira A descriptive analysis is complemented by a comparison with other contemporaneous earlier and later forms of Hebrew It is argued that the Hebrew of Ben Sira is a literary language in its own right rather than an imitation of Biblical Hebrew or a What Really Happened in the Garden of Eden? Ziony Zevit, 2013-11-26 A predecessor of Mishnaic Hebrew provocative new interpretation of the Adam and Eve story from an expert in Biblical literature The Garden of Eden story one of the most famous narratives in Western history is typically read as an ancient account of original sin and humanity s fall from divine grace In this highly innovative study Ziony Zevit argues that this is not how ancient Israelites understood the early biblical text Drawing on such diverse disciplines as biblical studies geography archaeology mythology anthropology biology poetics law linguistics and literary theory he clarifies the worldview of the ancient Israelite readers during the First Temple period and elucidates what the story likely meant in its original context Most provocatively he contends that our ideas about original sin are based upon misconceptions originating in the Second Temple period under the influence of Hellenism He shows how for ancient Israelites the story was really about how humans achieved ethical discernment He argues further that Adam was not made from dust and that Eve was not made from Adam s rib His study unsettles much of what has been taken for granted about the story for more than two millennia and has far reaching implications for both literary and theological interpreters Classical Hebrew in the hands of Ziony Zevit is like a cello in the hands of a master cellist He knows all the hidden subtleties of the instrument and he makes you hear them in this rendition of the profoundly simple story of Adam Eve the Serpent and their Creator in the Garden of Eden Zevit brings a great deal of other biblical learning to bear in a surprisingly light hearted book Jack Miles author of God A Biography The Verbal System in Late **Enlightenment Hebrew** Lily Kahn, 2009-10-31 This book constitutes the first detailed corpus based analysis of the verbal morphology and syntax employed in the Eastern European Maskilic Jewish Enlightenment Hebrew prose fiction written between 1857 and 1881 This verbal system exhibits biblical rabbinic and medieval elements as well as unprecedented features and similarities to Israeli Hebrew and Yiddish The first section of the work offers a selective examination of maskilic verbal morphology while the second section constitutes a thorough examination of the functions of the verbal conjugations and the third section surveys selected features of verbal syntax The work fills a serious gap in the Hebrew philological literature and will therefore be of great relevance to students and scholars of diachronic Hebrew language and linguistics

Conquering Character Sarah Lebhar Hall,2010-09-08 While recent Old Testament scholarship has seen a steady rise in the prominence of narrative approaches to the text little such work has been done on the book of Joshua This book offers a narrative treatment of the conquest accounts with specific attention given to the characterization of Joshua The method employed is eclectic including poetic analysis structural study delimitation criticism comparative literary analysis and intertextual reading Joshua s characterization has received inadequate scholarly attention to date largely because he is seen

as a pale character a mere stereotype in the biblical history This two dimensional reading often leads to the conclusion that Joshua is meant to represent another character in the history But this approach neglects the many aspects of Joshua s character that are unique and does not address the text s presentation of his flaws On the other hand some scholars have recently suggested that Joshua s character is significantly flawed This reading is similarly untenable as those features of Joshua s leadership that it portrays as faulty are in fact condoned not condemned by the text itself Close examination of the conquest narratives suggests that Joshua s character is both complex and reliable To the degree that Joshua functions as a paradigm in the subsequent histories this paradigm must be conceived more broadly than it has been in the past He is not merely a royal prophetic or priestly figure but exercises and often exemplifies the many different types of leadership that feature in the former prophets
