The Anthropologists' Cookbook Jessica Kuper, 1997 In the classic cookbook tradition contributors in this case anthropologists from all over the world include a list of ingredients and details on how to prepare and serve the meals But more than a list of remarkable recipes this book provides a feast of insights into the varied phenomena of intercultural cuisine from an anthropological point of view ranging from an examination of the significance of special dishes through general discussions about the preparation of food in different cultures to an analysis of the symbolic and structural significance of food and eating Cf bk jkt

The Anthropologists' Cookbook Jessica Kuper, 1977 **Anthropologist's Cookbook** Kuper, 2016-01-31 First published in 1997 Routledge is an imprint of Taylor Francis an informa company The Anthropologists' Cookbook Jessica Kuper, 2012-11-12 First published in 1997 This cookbook invites you to sample cuisines that are still exotic even in the post modern kitchen Try out cooking techniques from the Colombian Amazon or from Highland New Guinea Experiment with recipes from a Malaysian fishing village or taste a Maroon dish from the Jamaican mountains The idea that a meal should be made up of a sequence of dishes is by no means universal but there is no reason why one might not construct a syncretic menu But this book does not just offer a string of recipes Cooking and eating can be a way of travelling to foreign countries just as food can trigger memories and bring the past back to you This book is also a practical introduction to the anthropology of food

research to these 300 plants making it a book to come back to season after season A leading culinary historian The New York Times This encyclopedia is bound to become the seed saver s bible a holy book for gardeners intent on doing their part to combat the genetic winnowing brought about by industrial agriculture Publishers Weekly *Consumption, Status, and Sustainability* Paul Roscoe, Cindy Isenhour, 2021-08-12 This volume addresses current concerns about the climate and environmental sustainability by exploring one of the key drivers of contemporary environmental problems the role of status competition in generating what we consume and what we throw away to the detriment of the planet Across time and space humans have pursued social status in many different ways through ritual purity singing or dancing child bearing bodily deformation even headhunting In many of the world s most consumptive societies however consumption has become closely tied to how individuals build and communicate status Given this tight link people will be reluctant to reduce consumption levels and environmental impact and forego their ability to communicate or improve their social standing Drawing on cross cultural and archaeological evidence this book asks how a stronger understanding of the links between status and consumption across time space and culture might bend the curve towards a more sustainable future *Food Culture in Sub-Saharan Africa* Fran Osseo-Asare, 2005-06-30 East African notably Ethiopian cuisine is perhaps the most well known in the States This volume illuminates West southern and Central African cuisine as well to give students and other readers a solid understanding of how the diverse African peoples grow cook and eat food and how they celebrate special occasions and ceremonies with special foods Readers will also learn about African history religions and ways of life plus how African and American foodways are related For example cooking techniques such as deep frying and ingredients such as peanuts chili peppers okra watermelon and even cola were introduced to the United States by sub Sahara Africans who were brought as slaves Africa is often presented as a monolith but this volume treats each region in turn with representative groups and foodways presented in manageable fashion with a truer picture able to emerge It is noted that the boundaries of many countries are imposed so that food culture is more fluid in a region Commonalities are also presented in the basic format of a meal with a starch with a sauce or stew and vegetables and perhaps some protein typically cooked over a fire in a pot supported by three stones Representative recipes a timeline glossary and evocative photos complete the narrative **Eating for Victory** Amy Bentley, 1998 Mandatory food rationing during World War II significantly challenged the image of the United States as a land of plenty and collapsed the boundaries between women s public and private lives by declaring home production and consumption to be political activities Examining the food related propaganda surrounding rationing Eating for Victory decodes the dual message purveyed by the government and the media while mandatory rationing was necessary to provide food for U S and Allied troops overseas women on the home front were also required to provide their families with nutritious food Amy Bentley reveals the role of the Wartime Homemaker as a pivotal component not only of World War II but also of the development of the United States into a superpower **Journal of the Anthropological Society of Oxford**

Anthropological Society of Oxford,1980 **The arts of Angela Carter** Marie Mulvey-Roberts,2019-07-17 The arrangement of the material indicated by the chapter headings draws attention to a variety of areas not normally associated with dominant perceptions of Angela Carter These encompass food fashion art poetry music performance and translation which will be discussed in a number of historical literary and cultural contexts *In the Active Voice (Routledge Revivals)* Mary Douglas,2013-02-01 First published in 1982 this collection of essays is a reproach to a form of the sociology of religion that treats people as the passive objects of impersonal social influences In opposition to this the author seeks to assert an active voice style of thinking about the relations between individuals and their cultural environment whether in economics history or literary criticism This collection is assembled with the guiding principle that all the essays touch upon the borderland between economic values and personal judgements of quality Several essays illustrate the theme from the place of economics in anthropology and the place of economic behaviour in sociological and cultural criticism The essay on Cultural bias suggests a systematic method of analysis for investigating social influences on judgement and choice *Foods & Nutrition Encyclopedia, 2nd Edition* Marion Eugene Ensminger,Audrey H. Ensminger,1993-11-09 Foods and Nutrition Encyclopedia 2nd Edition is the updated expanded version of what has been described as a monumental classic work This new edition contains more than 2 400 pages 1 692 illustrations 96 of which are full color photographs 2 800 entries topics and 462 tables including a table of 2 500 food compositions A comprehensive index enables you to find information quickly and easily
