The Apocalypse And The Quest For Colonization On M

Richard Bailey

The Apocalypse And The Quest For Colonization On M:

The Quest for Utopia in Twentieth-Century America Timothy Miller, 1998-05-01 This book is the long anticipated first volume of a two volume work that will chronicle intentional communities in the twentieth century Timothy Miller's chronological account is likely to be the standard work on the subject Communities of the early twentieth century were often obscure and short lived enterprises that left little trace of themselves Historical accounts of them are few and the ephemera such ventures produced have rarely been collected Miller first looks at the older groups that were operating until 1900 He explores their impact of the early twentieth century art colonies and then turns to a decade by decade discussion of many dozens of new groups formed up to 1960 His comprehensive perspective a synopsis of the first sixty years of this century has never before been undertaken in the study of communal groups

Medicine and Colonialism Poonam Bala, 2015-10-06 Focusing on India and South Africa during the nineteenth and twentieth centuries the essays in this collection address power and enforced modernity as applied to medicine Clashes between traditional methods of healing and the practices brought in by colonizers are explored across both territories

The Craft of History and the Study of the New Testament Beth M. Sheppard, 2012-11-11 Do professional historians and New Testament scholars use the same methods to explore the past This interdisciplinary textbook introduces students of the New Testament to the vocabulary and methods employed by historians It discusses various approaches to historiography and demonstrates their applicability for interpreting the New Testament text and exploring its background Overviews of the philosophy of history common historical fallacies and the basics of historiography are followed by three exegetical studies that illustrate the applicability of various historical methods for New Testament interpretation

Kazakhstan in World War II Roberto J. Carmack, 2019-09-12 In July 1941 the Soviet Union was in mortal danger Imperiled by the Nazi invasion and facing catastrophic losses Stalin called on the Soviet people to subordinate everything to the needs of the front Kazakhstan answered that call Stalin had long sought to restructure Kazakh life to modernize the local population but total mobilization during the war required new tactics and produced unique results Kazakhstan in World War II analyzes these processes and their impact on the Kazakhs and the Soviet Union as a whole The first English language study of a non Russian Soviet republic during World War II the book explores how the war altered official policies toward the region's ethnic groups and accelerated Central Asia's integration into Soviet institutions World War II is widely recognized as a watershed for Russia and the Soviet Union not only did the conflict legitimize prewar institutions and ideologies it also provided a medium for integrating some groups and excluding others Kazakhstan in World War II explains how these processes played out in the ethnically diverse and socially backward Kazakh republic Roberto J. Carmack marshals a wealth of archival materials official media sources and personal memoirs to produce an in depth examination of wartime ethnic policies in the Red Army Soviet propaganda for non Russian groups economic strategies in the Central Asian periphery and administrative practices toward deported groups Bringing Kazakhstan's previously neglected

role in World War II to the fore Carmack's work fills an important gap in the region's history and sheds new light on our understanding of Soviet identities **End of Days** Karolyn Kinane, Michael A. Ryan, 2014-01-10 The idea of the complete annihilation of all life is a powerful and culturally universal concept As human societies around the globe have produced creation myths so too have they created narratives concerning the apocalyptic destruction of their worlds This book explores the idea of the apocalypse and its reception within culture and society bringing together 17 essays that explore both the influence and innovation of apocalyptic ideas from classical Greek and Roman writings to the foreign policies of today's United States The Publishers Weekly, 1916 Arctic Circles and Imperial Knowledge Annaliese Jacobs Claydon, 2023-12-28 In 1845 an expedition led by Sir John Franklin vanished in the Canadian Arctic The enduring obsession with the Franklin mystery and in particular Inuit information about its fate is partly due to the ways in which information was circulated in these imperial spaces This book examines how the Franklins and other explorer families engaged in science exploration and the exchange of information in the early to mid 19th century It follows the Franklins from the Arctic to Van Diemen's Land charting how they worked with intermediaries imperial humanitarians and scientists and shows how they used these experiences to claim a moral right to information Arctic Circles and Imperial Knowledge shows how the indigenous peoples translators fur traders whalers convicts and sailors who explorer families relied upon for information were both indispensable and inconvenient to the Franklins It reveals a deep entanglement of polar expedition with British imperialism and shows how geographical knowledge intertwined with convict policy humanitarianism genocide and authority In these imperial spaces families such as the Franklins negotiated their tenuous authority over knowledge to engage with the politics of truth and question the credibility and trustworthiness of those they sought to silence *New Catholic World*, 1907 **Publishers' circular and booksellers' record**, 1850 **Catholic World**, 1907 The British Catalogue of Books Published from October 1837 to December 1852, 1853 *The British Catalogue of Books, Published from October 1837 to December 1852: General alphabet*, 1853 **An Unnatural History of Religions** Leonardo Ambasciano, 2018-12-27 An Unnatural History of Religions examines the origins development and critical issues concerning the history of religion and its relationship with science The book explores the ideological biases logical fallacies and unwarranted beliefs that surround the scientific foundations or lack thereof in the academic discipline of the history of religions positioning them in today's post truth culture Leonardo Ambasciano provides the necessary critical background to evaluate the most important theories and working concepts dedicated to the explanation of the historical developments of religion He covers the most important topics and paradigm shifts in the field such as phenomenology postmodernism and cognitive science These are taken into consideration chronologically each time with case studies on topics such as shamanism gender biases ethnocentrism and biological evolution Ambasciano argues that the roots of post truth may be deep in human biases but that historical justifications change each time resulting in different combinations The surprising rise of once fringe beliefs such as

conspiracy theories pseudoscientific claims and so called scientific creationism demonstrates the alarming influence that post truth ideas may exert on both politics and society Recognising them before they spread anew may be the first step towards a scientifically renewed study of religion

Claiming Sacred Ground Adrian J. Ivakhiv, 2001-07-26 Claiming Sacred Ground Pilgrims and Politics at Glastonbury and Sedona Adrian J Ivakhiv A study of people and politics at two New Age spiritual sites In this richly textured account Adrian Ivakhiv focuses on the activities of pilgrim migrants to Glastonbury England and Sedona Arizona He discusses their efforts to encounter and experience the spirit or energy of the land and to mark out its significance by investing it with sacred meanings Their endeavors are presented against a broad canvas of cultural and environmental struggles associated with the incorporation of such geographically marginal places into an expanding global cultural economy Ivakhiv sees these contested and heterotopic landscapes as the nexus of a complex web of interestes and longings from millennial anxieties and nostalgic re imaginings of history and prehistory to real estate power grabs contending religious visions and the free play of ideas from science pseudo science and popular culture Looming over all this is the nonhuman life of these landscapes anotherness that alternately reveals and conceals itself behind a pagenant of beliefs images and place myths A significant contribution to scholarship on alternative spirituality sacred space and the politics of natural landscapes Claiming Sacred Ground will interest scholars and students of environmental and cultural studies and the sociology of religious movements and pilgrimage Non specialist readers will be stimulated by the cultural ecological and spiritual dimensions of extraordinary natural landscapes Adrian Ivakhiv teaches in the Faculty of Environmental Studies at York University in Toronto and is President of the Environmental Studies Association of Canada April 2001 384 pages 24 b w photos 2 figs 9 maps 6 1 8 x 9 1 4 index append cloth 0 253 33899 9 37 40 s 28 50 Contents I DEPARTURES 1 Power and Desire in Earth s Tangled Web 2 Reimagining Earth 3 Orchestrating Sacred Space II Glastonbury 4 Stage Props and Players of Avalon 5 Many Glastonburys Place Myths and Contested Spaces III SEDONA 6 Red Rocks to Real Estate 7 New Agers Vortexes and the Sacred Landscape IV ARRIVALS 8 Practices of Place Nature and Heterotopia Beyond the New Age
