Dorman, Mansour Farhang, 2023-04-28 No one seriously interested in the character of public knowledge and the quality of debate over American alliances can afford to ignore the complex link between press and policy and the ways in which mainstream journalism in the U S portrays a Third World ally The case of Iran offers a particularly rich view of these dynamics and suggests that the press is far from fulfilling the watchdog role assigned it in democratic theory and popular imagination This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1988 No one seriously interested in the character of public knowledge and the quality of debate over American alliances can afford to ignore the complex link between press and policy and the ways in which mainstream journalism in the U S portrays a Third World *The Arab Gulf States and the West* Dania Koleilat Khatib, Marwa Maziad, 2018-10-30 This book examines the changing image of the Arab Gulf States in the West It addresses the question of perception in international relations and how the Arab States of the Gulf have pursued various endeavors to project themselves into Western imagination The book chapters generate ideas on how perceptions came about and ways to improve cultural and political realities on the ground in the Arab Gulf States Thus it paves the way for a new area of research in the field of Gulf Studies that extends beyond traditional international relations frameworks by weaving elements of intercultural communication into the mix Recognizing yet extending beyond a traditionally realist framework which has dominated the analysis of Arab Gulf States foreign relations with western countries this book tackles both the materialist and the symbolic in the efforts and initiatives launched by the Arab Gulf States Some chapters maintain a social scientific approach about the politics of the Arab Gulf States in the West from an international relations lens Others employ theoretical frameworks that were founded on the notion of the encounter

with anthropological lenses and concepts of intercultural communication In addition to the value of this academic research agenda as such some of the chapters also touch upon the added importance of policy oriented input As the Arab Gulf States actively engage with the West the book would widely appeal to students and researchers of Gulf politics and international relations
