The Architect And The British Country House 1620-1920:

The Architect and the British Country House, 1620-1920 John Harris, 1985 The Design of the English Country House, 1620-1920 John Harris, 1985 Catalogue of an exhibition at the Octagon Washington D C organized by the American Institute of Architects Foundation and the Royal Institute of British Architects The Gentleman's House in the British Atlantic World 1680-1780 S. Hague, 2015-06-23 The Gentleman's House analyses the architecture decoration and furnishings of small classical houses in the eighteenth century By examining nearly two hundred houses it offers a new interpretation of social mobility in the British Atlantic World characterized by incremental social change **The British Country House in the Eighteenth Century** Christopher Christie, 2000 This work explores the British country house between 1700 1830 and looks at the lives of the noblemen and the servants who inhabited them Reference is made to the whole of the British Isles and there is a discussion of their political significance **The Philadelphia House** Khosrow Bozorgi, Keith Gaddie, 2023-07-03 At the very beginning of the interwar period a small collection of formally trained architects created a distinctive residential type which can undoubtedly be recognized as a Philadelphia landmark They surpassed the conventional pseudo classic or neo Gothic eclectic solution by a unique adaptation of the principles and criteria of design to suit the expression of the exclusive cultural tradition of the clients and to respond to the natural environment The works of three Philadelphia architectural firms Mellor Meigs and Howe McGoodwin and Willing and Sims are analyzed to explore this proposition using six houses constructed between 1917 and 1928 as a basis These homes and others located in the historic Chestnut Hill neighborhood are aesthetically pleasing But they also represent a break with the past the emergence of a new type which is among the architectural design innovations of the last century generally conceived as organic architecture This work which contains over 200 photographs and drawings considers the houses the training and development of the architects the creation and development of Chestnut Hill itself and the larger distinct culture of Philadelphia in contributing to the emergence of this distinctive and lasting style The Education of the Eye Peter De Bolla, 2003 The Education of the Eye examines the origins of visual culture in eighteenth century Britain setting out to reclaim visual culture for the democracy of the eye and to explain how aesthetic contemplation may once more be open to all who have eyes to look *Avery Index to Architectural Periodicals. 2d Ed., Rev. and Enl* Avery Library, 1986 *English Landed Society in the Great War* Edward Bujak, 2018-10-18 The extent to which the Great War impacted upon English landed society is most vividly recalled in the loss of young heirs to ancient estates English Landed Society in the Great War considers the impact of the war on these estates Using the archives of Country Life Edward Bujak examines the landed estate that flourished in England In doing so he explores the extent to which the wartime state penetrated into the heartlands of the landed aristocracy and gentry and the corrosive effects that the progressive and systematic militarization of the countryside had on the authority of the squire The book demonstrates how the commitment of landowners to the defence of an England of home and beauty an image also

adopted in wartime propaganda ironically led to its transformation By using the landed estate to examine the transition from Edwardian England to modern Britain English Landed Society in the Great War provides a unique lens through which to consider the First World War and its impact on English society The Italian Presence in American Art, 1760-1860 Irma B. Jaffe, 1989 Annotation Sixteen essays examine aspects of American art that owe a debt to Italy and Italian artists A central theme is the tension between perceptions of Italy as a mythic presence the visual incarnation of spirit and a contrasting ambivalence felt by many Americans about the cultural ties binding them to Europe despite their political independence With some 200 illustrations 36 in color Not indexed Pre publication price 49 95 until 12 31 90 Annotation c 2003 Book News Inc Portland OR booknews com **Laurent-Benoît Dewez (1731-1812), Architect in the Age of Enlightenment** Dirk Van de Vijver, 2025-02-11 Laurent Beno t Dewez 1731 1812 court architect to Charles of Lorraine was the most outstanding architect of his time in the Southern Low Countries After studying in Italy and serving in the eminent office of Robert Adam in London Dewez developed a personal classical style that came to embody the Eglise Belgique under the Austrian Habsburgs He designed numerous castles abbeys and churches across Belgium but time has not been kind to his legacy of his 80 architectural projects many have vanished However the Ch teau de Seneffe the abbey of Vlierbeek in Leuven and the churches in Andenne Floreffe and Harelbeke still stand as testaments to his remarkable talent This richly illustrated monograph presents for the first time a comprehensive collection and analysis of the complete works of Laurent Beno t Dewez The English Country House Chapel Annabel Ophelia Clare Ricketts, 2007 This unique study shows how the aristocracy and gentry provided their houses with places of worship after the upheavals of the Reformation Dr Ricketts makes illuminating discoveries explodes deeply rooted misconceptions and shows how by the end of the 17th century and after many false starts a new and more enduring form of private Protestant chapel had evolved as a fundamental part of the English country house Before her untimely death in 2003 the architectural historian Annabel Ricketts had made the study of the 16th and 17th century private chapel her own Under the editorship of her husband Simon Ricketts academic friends and colleagues have helped adapt her doctoral thesis for a wider readership without diluting its scholarly value The study ranges across a number of disciplines social ecclesiastical decorative and architectural and adds greatly to the understanding of the English country house **Crit** , 1984 **Old Buildings, New Ideas** Françoise Astorg Bollack, 2023-12-18 Some architectural transformations are modest some are revolutionary Shining a light on the hidden side of the accepted narrative of the history of architecture this book explores works which transform existing buildings to build a way forward through adaptations additions and visual shifts Examining 30 buildings across Europe North America and South America spanning from the early Middle Ages to the end of the 20th century it demonstrates the creative possibilities of working with existing buildings The book reveals how formal inventions can shape architecture and our environment over time in a built world constantly in a state of becoming As we face a climate emergency it taps into our deep cultural knowledge about the

inventive use and re use of buildings Generously illustrated with architectural plans and over 300 colour images it provides an alternative to the dominant view which sees conservation and preservation of historic buildings as a 20th century creation
