The Book of Memory Mary J. Carruthers, 1992-05-14 The Book of Memory is a magisterial and beautifully illustrated account of the workings and function of memory in medieval society Memory was the psychological faculty valued above all others in the period stretching from late antiquity through the Renaissance The prominence given to memory has profound implications for the contemporary understanding of all creative activity and the social role of literature and art Drawing on a range of fascinating examples from Dante Chaucer and Aquinas to the symbolism of illuminated manuscripts this unusually wide ranging book offers new insights into the medieval world

The Book of Memory Mary Carruthers, 2008-05-01 Mary Carruthers's classic study of the training and uses of memory for a variety of purposes in European cultures during the Middle Ages has fundamentally changed the way scholars understand medieval culture This fully revised and updated second edition considers afresh all the material and conclusions of the first While responding to new directions in research inspired by the original this new edition devotes much more attention to the role of trained memory in composition whether of literature music architecture or manuscript books The new edition will reignite the debate on memory in medieval studies and like the first will be essential reading for scholars of history music the arts and literature as well as those interested in issues of orality and literacy anthropology in the working and design of memory both neuropsychology and artificial memory and in the disciplines of meditation religion

Parents, 2000 *Memory Boxes* Heta Aali, Anna-Leena Perämäki, Cathleen Sarti, 2014-07-15 This volume discusses a practical approach to cultural transfer and exchange through the concept of memory box Ideas of displacement transfer and cultural memory are explored through case studies from Scotland to Italy and Germany and from Finland and France to the American colonies The authors develop an understanding of memory boxes as cultural constructions that are involved in the process of making and disputing memory but which simultaneously are important agents for cultural transfer over space and time This book emphasises memory box as an idea that allows us to study the cultural processes of transfer in conjunction with cultural memory
