Library, 1985 Disciples of Destruction Charles W. Sutherland, What's going on in the world Every day we hear more horror stories about the wars in the Middle East Americans are afraid to travel world wide because of their justified fears of terrorism And here at home we watch with amazement as the fundamentalists battle over control of a TV empire riddled with sex and drugs with a scenario that makes prime time television look tame As money sex and power once again take their toll *Disciples of Destruction* examines religion itself and the role it has played since time as we know it began Sutherland uncovers and analyzes the real ramifications of organized religion and its devastating effects on Western civilization *Disciples of Destruction* is packed with little known vignettes that are sure to astonish amuse and sometimes even outrage the reader Few will fail to be drawn in by the account of the Corpse Synod in which a Pope's body was exhumed put on trial for high crimes and subsequently dragged through the streets of Rome or shocked by the plausible contention that Albino Luciani elected Pope John Paul I in 1979 but destined to reign for only 33 days did not die a natural death but was in fact assassinated Sutherland convincingly concludes that organized religion even today maintains the proclivities of its barbaric origins as Israeli expansionism the Vatican's obsession with its financial empire the atrocities of Khomeini's Islamic Republic and Marxist militarism and repression amply demonstrate These proclivities updated to our century indicate that while the long battle to liberate the mind from the fear of tyranny continues the slow process of slaying the dragons of mythology is not keeping step with the pace of nuclear weapons development and deployment which accelerates in the context of an equally explosive growth of religious fundamentalism Unchecked this makes armageddon the easiest prophecy to fulfill *Network World*, 1995-05-01 For more than 20 years Network World has been the premier provider of information intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations Readers are responsible for designing implementing and managing the voice data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce Network World, 1996-11-25 For more than 20 years Network World has been the premier provider of information intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations Readers are responsible for designing implementing and managing the voice data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce 9/11-Enemies Foreign and Domestic Edward Hendrie, 2011 Hendrie proves beyond a reasonable

Divided We Stand Ofira Seliktar,2002-11-30 The relationship between Israel American Jews and the peace process has

been a subject of passionate debate among scholars political activists and lay observers alike This book is the first rigorous attempt to chart the impact of the peace process on the American Jewish community and its relationship with Israel as mediated by the changing identity needs of American Jews Overall the trajectory of this relationship has been from a wide consensus of support for Israeli foreign policy toward increasing polarization On one side is the peace camp composed mainly of those whose Jewish American identity is based on a religious universalistic definition of Judaism on the other those who identify as nationalistic or orthodox in religious terms and support a hard line vision of Greater Israel The acrimony between the two combined with demographic change has undermined Israel as a symbol of Jewish identity in America and impeded effective lobbying for Israel
