This book encourages the readers to reembrace their passion for the truth written in the Bible by examining King Solomon's life to the light of the religious-political condition of today's world. At the same time, it extends a wake-up call to the world leaders and decision-making leadership to bring back the moral principles written in the Bible and the Torah to the public schools, the supreme courts, the congress, parliaments, and wherever in the world they exist, as a gesture of sincere repentance before the creator of the universe in order for him, God, to heal our lands and hearts. *The Independent*, William Livingston, 1907.

There is Hope for a Tree Kirsten Nielsen, 1989-01-01 Insights gained from the study of metaphorical language in other fields particularly New Testament parable research are here applied to the tree metaphors in Isaiah 1:39 The focus of investigation is the content of the metaphors the intentions underlying their use and the consequences of that use The author suggests that 1 the informative function of the tree metaphors is to provide theological interpretations of the political situation 2 the performative function of the metaphors is to engage the audience in such a way that they adopt the metaphors interpretation of reality as their own 3 the use of metaphorical language encourages continual reinterpretation of the original proclamation The tree in the Garden the felling of trees new growth of felled trees and the forest fire are among the images Isaiah uses to make his political statements He shows himself to be an extremely competent rhetorician in using these images to instill an active response in his audience The modes in which the metaphors can be reinterpreted and reapplied in new contexts are perceived as significant not only for the composition of Isaiah but for that of subsequent religious literature
