the Winter War of 1939-40 and in response the Soviet government organized a massive ski mobilization effort prior to the German invasion in 1941. The Soviet counteroffensive against Nazi Germany during the winter of 1941-42 owed much of its success to the Red Army ski battalions that had formed as a result of the ski mobilization. In this lucid translation that includes most of the original illustrations, scholar and former biathlon competitor William D. Frank collaborates with E. John B. Allen, known world wide for his work on ski history.

**Russian Fractals in Indigenous Artifacts** Abdul Karim Bangura, Leonid A. Zhigun, 2025-06-22. This book is the first comprehensive work on Russian Fractals in indigenous artifacts. While existing works focus on universal phenomena such as liquid crystal or finance, none explore the intersection between Fractals and Russia. *Russian Fractals in Indigenous Artifacts* therefore investigates how indigenous Russian cultures have a wonderful Fractal heritage that was originally tied to socially just and ecologically sustainable social practices including those of indigenous northern groups such as the Yakut. Fractal designs originally allowed unalienated value both human and nonhuman to be visible thereby enabling just and sustainable living. This book also examines how the tsarist elite encouraged the creation of unique creative masterpieces developing and strengthening traditional crafts and art of indigenous people hence Fabergé or imperial architecture. Today the challenge for contemporary Russia is to reestablish the relationship between the social and ecological sustainability of indigenous cultures and practices for which we can now provide modeling and analysis. Lay attempts at this have only limited success as they have based the attempts on a purely religious basis which recognizes the ecological aspects but often succumbs to authoritarian nationalism. However the free accession of indigenous peoples to Russia for the sake of national liberation has had a positive effect on enriching them with spirituality and creativity by Fractal artifacts through friendly exchanges with one another. In *Russian Fractals in Indigenous Artifacts* Bangura and Zhigun express why there is a need for a forward thinking Fractal renaissance in Russia bringing together contemporary computational and scientific analyses with these ecologically and socially sustainable traditions.

The Art of Carl Fabergé Alexander von Solodkoff, 1988      **Art and Artists**, 1960      **The Art of Peter Carl Fabergé** A. La Vieille Russie (Firm), Peter Carl Fabergé, 1961      *Passion and Precision* A. V. C. Schmidt, 2015-01-12. *Passion and Precision* contains twenty essays on a range of major medieval and modern English and Irish poets. The first part consists of three chapters on Chaucer including a substantial new study of Troilus and Criseyde, four on Chaucer's great contemporary the Pearl poet and one comparing the two poets. The core of the second part is six chapters on T. S. Eliot, three of them pioneering explorations of his poetic language. They are preceded by three on Hopkins, Shelley and Yeats including a new

study of Yeats's verse technique and followed by one on David Jones and Auden and two on Geoffrey Hill and Seamus Heaney. The previously published essays have been extensively revised, supplemented with appendixes and cross-referenced, and a full Bibliography and Index are provided. The author brings to his reading of ten representative poets from two widely separated periods of English literature, the fourteenth and the twentieth centuries, the same passionate and precise attention as they brought to their writing.

*Faberge Revealed* Geza Von Habsburg, 2011-07-06. The exquisite objects created by goldsmith and jeweler Peter Carl Fabergé and his studio in the late 19th and early 20th centuries for the aristocracy and nobility of imperial Russia are considered to be some of the most refined examples of the jeweler's art of any age. Of greatest fascination are the extraordinary Easter eggs created as special commissions for the Russian imperial family and other notable patrons, works that remain unparalleled in their ingenuity of construction and sheer beauty. Accompanying a major exhibition, *Faberge Revealed* represents a landmark for the Virginia Museum of Fine Arts and for Fabergé scholarship. The essays by Geza von Habsburg and other scholars present new findings on Fabergé, his workshops, and the creation of these extraordinary objects. For the first time, all items by or attributed to Fabergé in VMFA's collection are documented along with the museum's significant holdings of other Russian decorative arts. Also included is a section on forgeries that bravely confronts this vexing question. Every object has been splendidly re-photographed for this book, and the detailed photography alone should provide inestimable value for future Fabergé scholarship. Richly illustrated with some 600 photographs, the volume documents an important collection bequeathed in 1947 to the Virginia Museum of Fine Arts by Lillian Thomas Pratt of Fredericksburg, Va., the wife of General Motors executive John Lee Pratt. Her collection, assembled between 1933 and 1946, comprised several hundred creations by the Fabergé workshops and by other Russian imperial jewelers. These exquisite, marvelously crafted objects range from the majestic jeweled imperial eggs to delicate jeweled flowers in vases to diamond-encrusted icons and tiaras to animal figures nimbly carved from precious stone.
