The Economics Of Imperfect Knowledge:

The Economics of Imperfect Knowledge G. B. Richardson, 1998-01-01 G B Richardson's writings although from 1953 to 1972 are still very relevant to modern economics The central theme of this book of his papers is that the knowledge upon which business decisions are taken is limited and uncertain and that the availability of it is affected by market structure

The Economics of Alfred Marshall Richard Arena, 2016-01-18 The Economics of Alfred Marshall brings together a number of leading international scholars for a timely reappraisal of Marshall's contribution to the development of economics The aims of the contributors are firstly to revisit the work of Alfred Marshall and to investigate the unity of his projects which contemporary authors often tend to underestimate and secondly to show how Marshall's approach is not only a subject for historians of economic thought but may also provide a message that is relevant for the progress of economics **Routledge**

Handbook of the Economics of Knowledge Cristiano Antonelli, Albert Link, 2014-12-05 The Routledge Handbook of the Economics of Knowledge provides a comprehensive framework to integrate the advancements over the last 20 years in the analysis of technological knowledge as an economic good and in the static and dynamic characteristics of its generation process There is a growing consensus in the field of economics that knowledge technological knowledge in particular is one of the most relevant resources of wealth yet it is one of the most difficult and complex activities to understand or even to conceptualize The economics of knowledge is an emerging field that explores the generation exploitation and dissemination of technological knowledge Technological knowledge cannot any longer be regarded as a homogenous good that stems from standardized generation processes Quite the opposite technological knowledge appears more and more to be a basket of heterogeneous items resources and even experiences All of these sources which are both internal and external to the firm are complementary as is the interplay between a bottom up and top down generation processes In this context the interactions between the public research system private research laboratories and various networks of learning processes within and among firms play a major role in the creation of technological knowledge In this Handbook special attention is given to the relationship among technological knowledge and both upstream scientific knowledge and related downstream resources By addressing the antecedents and consequences of technological knowledge from both an upstream and downstream perspective this Handbook will become an indispensable tool for scholars and practitioners aiming to master the generation and the use of technological knowledge

The Economics of Imperfect Information Louis Philips, 1988 **The Dark Side of Knowledge** Cornel Zwierlein, 2016-06-10 How can one study the absence of knowledge the voids the conscious and unconscious unknowns through history Investigations into late medieval and early modern practices of measuring of risk calculation of ignorance within financial administrations of conceiving the docta ignorantia as well as the silence of the illiterate are combined with contributions regarding knowledge gaps within identification procedures and political decision making with the emergence of consciously delimited blanks on geographical maps with ignorance as a factor embedded in

iconographic programs in translation processes and the semantic potentials of reading Based on thorough archival analysis these selected contributions from conferences at Harvard and Paris are tightly framed by new theoretical elaborations that have implications beyond these cases and epochal focus Contributors Giovanni Ceccarelli Taylor Cowdery Lucile Haguet John T Hamilton Lucian H Ischer Moritz Isenmann Adam J Kosto Marie Laure Legay Andrew McKenzie McHarg Fabrice Micallef William T O Reilly Eleonora Rohland Mathias Schmoeckel Daniel L Smail Govind P Sreenivasan and Cornel Zwierlein

International Encyclopedia of Economic Sociology Jens Beckert, Milan Zafirovski, 2006 Dealing with the multiple and complex relations between economy and society this encyclopedia focuses on the impact of social political and cultural factors on economic behaviour It is useful for students and researchers in sociology economics political science and also business organization and management studies

The Elgar Companion to Information Economics Daphne R. Raban, Julia W_ odarczyk, 2024-03-14 The Elgar Companion to Information Economics dexterously navigates this interdisciplinary field of research which celebrates the crucial contribution of information to decision making market dynamics and economic well being Offering a wealth of conceptual analysis this erudite Companion embarks on an intellectual journey exploring the fundamentals of information economics This title contains one or more Open Access chapters

The Economics of Asymmetric Information B. Hillier, 1997-04-07 This book presents recent developments in the economics of asymmetric information The problems of selection and moral hazard with hidden actions or hidden information are introduced by examining how they affect the market for investment finance The ideas are then used to analyse the market for insurance signalling and screening models of education efficiency wages industrial regulation public procurement and auctions Coverage is thorough while avoiding excessive mathematical detail Diagrams and verbal reasoning make the ideas accessible to intermediate level undergraduate students and beyond

The Capitalization of Knowledge Riccardo Viale, Henry Etzkowitz, 2010-01-01 This book is an authoritative confirmation of the critical role that knowledge plays in economic transformation It is an indispensable roadmap for new research programmes and a guidepost for policy makers around the world Calestous Juma Harvard Kennedy School US How to use and capitalize knowledge for the benefit of society has become even more urgent in the present financial and economic crisis This book embraces the tensions inherent in the complex governance of research and innovation It argues for strategies appropriate to the behaviour of complex adaptive systems in an evolutionary mode thereby highlighting in a timely manner the necessary fit between organizational forms and the epistemological structure of knowledge in the overall context of a fertile investment climate Helga Nowotny European Research Council WWTF Vienna Science and Technology Fund Austria In the 21st century economic and social development depends increasingly on knowledge rather than labour and capital This book examines how knowledge is exploited through the development of innovations that yield economic and other benefits The authors who include leading figures from the field of innovation studies look in particular at the growing links between universities

government and industry and the evolving triple helix relationship as they attempt to develop more effective means for capitalizing on knowledge The book will be of considerable interest to policy makers and to senior managers in industry and universities as well as to innovation scholars Ben Martin University of Sussex UK In recent years university industry government interactions have come to the forefront as a method of promoting economic growth in increasingly knowledge based societies This ground breaking new volume evaluates the capacity of the triple helix model to represent the recent evolution of local and national systems of innovation It analyses both the success of the triple helix as a descriptive and empirical model within internationally competitive technology regions as well as its potential as a prescriptive hypothesis for regional or national systems that wish to expand their innovation processes and industrial development In addition it examines the legal economic administrative political and cognitive dimensions employed to configure and study in practical terms the series of phenomena contained in the triple helix category This book will have widespread appeal amongst students and scholars of economics sociology and business administration who specialise in entrepreneurship and innovation Policy makers involved in innovation industrial development and education as well as private firms and institutional agencies will also find the volume of interest

Moral Foundations of Management Knowledge Marie-Laure Djelic,Radu Vranceanu,2007-01-01 Exploring the ethical foundations of the different subfields of managerial thought this book brings a thoroughly new light on the issue of sustainability and responsibility in management theory and practice
