The Ecosystem Concept In Anthropology:

The Ecosystem Concept In Anthropology Emilio F Moran, Susan H Lees, 2019-09-06 Critics of the ecosystem concept have noted the tendency of ecosystem based studies to overemphasize energy flow to rely on functionalist assumptions to neglect historical and evolutionary factors and to overlook the role of individuals as the locus of natural selection and decision making In this volume leading figures in the study of biological and human ecology evaluate these criticisms and propose ways to advance the state of knowledge in ecological research [The Ecosystem Approach in Anthropology](#) Emilio F. Moran, 1990 A reassessment of the ecosystem concept for anthropology **The Ecosystem Concept in Anthropology** EMILIO F. LEES MORAN (SUSAN H.), 2022-06-30 This book uses leading figures in the study of biological and human ecology to evaluate the criticisms and propose ways to advance the state of knowledge in ecological research It examines the loss of explanatory value when the ecosystem concept in anthropology is applied to human systems **Humans as Components of Ecosystems** Mark J. McDonnell, Steward T.A. Pickett, 2012-12-06 This book a product of the fourth Cary Conference amply demonstrates the achievement of a major goal of all Cary Conferences That is Cary Conferences were conceived to provide a forum for comprehensive discussion of major ecological issues from more philosophical and comprehensive perspectives The Institute of Ecosystem Studies is proud to make its staff and facilities available on a biennial basis for the purpose of initiating and fostering these important discussions On the one hand the influence of humans on ecosystems may be quite obvious such as when a forest is cut On the other humans live within and among ecosystems but ecologists largely have avoided making detailed and rigorous analyses of the more subtle effects that human activities generate Indeed most ecologists have sought out rather pristine or remote areas for study rather than those which include humans This book brings together a stimulating mix of disciplines to highlight and evaluate these problems as well as the opportunities of including humans as integral components in studies of natural ecosystems An exciting dialogue has ensued Hopefully this book will convey some of the excitement and challenges that were generated at this Cary Conference

Integrating Social Sciences with Ecosystem Management H. Dahlberg, 2019-03-08 In this book the authors provides an up to date assessment of research on human interactions with natural resource systems They pay attention to the interaction between theory and practice by including case studies and detailed examples involving specific natural resource systems **Subsistence and Culture in the Western Canadian Arctic** Matthew W. Betts, 2008-01-01 Through innovative analysis of animal bones recovered from archaeological sites this comprehensive study documents the intricate relationships between the Siglit or Mackenzie Inuit and their food animals from their earliest occupations 800 years ago to the arrival of Europeans in the 19th century This volume chronicles the connections between developing Siglit economies and shifts in technology settlement demography and climate exposing in the process the primary link between Siglit subsistence and culture Published in English **Environmental Integration** Ton Bührs, 2009-04-09 The environmental challenges facing humankind can most effectively be met through environmental integration incorporating environmental considerations into everyday human thinking behavior and practices at both the individual and collective levels Increasingly people and organizations throughout the world are taking the environment into account but at the same time there is insufficient integration of attitudes policies and programs People and groups have different and often conflicting views and interpretations of what is desirable or required to protect the environment Environmental Integration looks at the ways that governments can play a crucial role in advancing promoting and shaping a singular integrated environmental policy
