The Encyclopedia of Occult Sciences M. C. Poinso, 2013-10 This is a new release of the original 1939 edition **The Encyclopedia of Occult Sciences**, 1939 *Chicorel Index to Parapsychology and Occult Books* Marietta Chicorel, 1978

Subject Guide to Books in Print, 1971 **Encyclopedia of Occult Sciences vol. VI Second Part (The Magical Sciences)**
Low Magic Poinso, Maffeo, 2015-10-07 It follows from this phenomenon tested hundreds of times that every thing may carry around it an invisibly written history The same thing applies to the human being Every one of us carries around him a radiance invisible to the human eye but perceptible to the trained mind Inscribed in this radiance in the shape of pictures are the most important results of our thoughts and our actions In accordance with Tradition this radiance is termed the aura and there is an aura for every principle Thus there will be an aura of the physical body of very small extent an aura of the astral body an aura of the mind It is this last which was recognised by religious tradition surrounding the heads of saints and divinities with halos It is thanks to this radiance of the three principles of the human being that we can explain many seemingly strange phenomena such as sudden sympathies or antipathies intuitions and so called unconscious previsions etc Clairvoyance is also produced as we have said by means of a special magnetised condenser of the astral plane termed the Magic Mirror of which our author speaks in connection with the Arsenal of Magic just as he speaks of the visions seen in coffee grounds in the chapter dealing with divinations of the second degree And I quite understand the reserve which he shews here but perhaps he ought to have dealt separately at least with the psychometry which has been tested by experiments Our author it is felt gives but a limited belief to these divinations of the second degree Yet he describes conscientiously not the hundreds of ancient methods which are nearly forgotten but those of the Kabbala such as onomancy taromancy and also the oracles the prophecies which prove that the secret influences of this radiance govern many of our states of mind **The Encyclopedia of the occult sciences**, 1972 **An Encyclopedia of Occultism** Lewis Spence, 1968

Encyclopedia Of Occult Sciences Vol. II Physiognomy Poinso, Maffeo, 2017-10-29 Physiognomy is not only the study of a being through its physiognomy as the layman believes although the etymology is clear physis nature gnomon who knows but really the study of a being through the whole of its outward appearance from which it would seem to follow that Chiromancy is included in it in principle although it has been detached from it owing to its importance Is it necessary for me now to justify Physiognomy It does not in fact enjoy the bad reputation of its mother Astrology It may be currently observed Who amongst us is not a physiognomist when he says of some one that he has a fine or a nasty head in the ethical sense of the word And do we not in the same way practise instinctive astrology when we speak of people who are born under a lucky star or who always seem to be in the moon Who in short has not amused himself in the same way by studying passers by in order to try and guess from their appearance their soul their social position According to evidence there are aristocratic faces apart from any title of nobility and plebeian faces the mug of the drunkard and the pretty face of the born amoureuse

the healthy face of the active man the mask of the brigand the majestic type the face of the judge the domestic the soldier the priest the scholar It is true that the dress helps a little but most certainly the character leaves its mark on the features It was only necessary to study to classify these outward marks in order to constitute a science The idea was old but the system had to be organised and this is what the famous Lavater attempted But where Lavater Delestre and other physio psychologists stop the Occultist does not stop and saturated with Astrology he in his turn says These signs manual of the stars you notice them without using the word you say that a man is choleric after you have examined his face I say that he is so because he was born under the maleficent influence of Mars In short we are agreed but you are satisfied with the observation whereas I go back to the causes And is it not much more interesting to try and guess that the subject will be of a choleric disposition if he is born under such or other particular magnetic aspect of the Sky Not only is this more interesting but this alone will be useful for if to the birth certificate there were added a horoscopic certificate the educational task of the parents would be rendered considerably easier

An Encyclopaedia of Occultism Lewis Spence, 2006-09-01 This compendium of information on the occult sciences occult personalities psychic science demonology spiritism and mysticism was one of a kind when it was first published in 1920 and is still considered the best in its field today Spence organizes a world's worth of magic from Ab a magical month in the ancient Semitic calendar to Zulu witch finders into 2 500 dictionary style entries that explore concepts and personalities both familiar Freemasonry Morgan le Fay and obscure palingenesis a process by which plants or vegetables are destroyed and then resurrected Leonora Galigai a 17th century Italian aristocrat who was burned as a witch A delight for devotees of the weird and the strange and a valuable resource for students of mythology and the evolution of scientific thought this important volume is at home in the libraries of all book lovers Scottish journalist and folklorist LEWIS SPENCE 1874 1955 was a Fellow of the Royal Anthropological Institute of Great Britain and Ireland and Vice President of the Scottish Anthropological and Folklore Society He published more than 40 works on mythology and the occult including History of Atlantis An Introduction to Mythology and Myth and Ritual in Dance Game and Rhyme *An Encyclopedia of Occultism* Lewis Spence, 1984
