The End Of Economic Man Principles Of Any Future Economics:

The End of Economic Man George P. Brockway,1995 For those who wish to take the mystery out of money and interest rates they can do no better than read George P Brockway *The End of Economic Man* E Ray Canterbury *The Literate Economist* [The End of Economic Man](#) George P. Brockway,2001 The book that took the mystery out of economics and put free will back in *A Theory of Sustainable Sociocultural and Economic Development* Mohamed Rabie,2016-04-29 Why do some countries economies struggle to develop even when they are the focus of so much research and international funding While recognizing that the obstacles facing poor nations are many and complex Rabie proposes that the roots of most obstacles are sociocultural thus sociocultural transformation and economic restructuring can only be successful when treated as interconnected mutually beneficial objectives *A Theory of Sustainable Sociocultural and Economic Development* outlines an innovative model capable of identifying the major obstacles hindering poor nations development in general and the sociocultural and political obstacles in particular placing them in their proper historical contexts and addressing them comprehensively **The Global Debt Crisis and Its Socioeconomic Implications** Mohamed Rabie,2017-10-31 This fascinating and ambitious book proposes a new strategy the Ramo Plan to tackle the current global socioeconomic crisis Issuing a direct challenge to the status quo the author lays out a bold set of policies to overcome the West East divide and lead us to a more successful and secure future Alongside the presentation of a new economic approach this book provides a thorough survey of the major forces behind the decline in economic growth rates It examines the state of the major world economies explores the impact of the global debt crisis identifies the income and wealth gaps in the United States and other countries and explains the relationship between these issues and the spread of alienation radicalism and terrorism Imaginative and refreshing this is valuable and original reading for students and academics interested in international political economy economic development sustainable development and social economics as well as global policy area studies globalization studies and international relations [Global Economic and Cultural Transformation](#) M. Rabie,2013-10-16 Society today faces multi dimensional challenges that are hard to define and even harder to deal with Social and economic systems throughout the world are becoming more complex and interdependent and globalization is moving beyond the sphere of economics to engulf other aspects of life particularly culture and security Our current theories strategies and road maps are fast becoming out dated and no new ones have emerged to take their place Mohamed Rabie re examines the relevance of major ideas and systems of the recent past including ideology and its relation to society in *Global Economic and Cultural Transformation* This book is an attempt defines and explains this transitional period and provides a new conception of economic and societal world history which us understand how we got here and where we are going **Making Sense of a Changing Economy** Edward Nell,2005-08-08 In *Making Sense of Economics* Edward Nell presents an unorthodox and original view of the current state of economic theory and policies Deriding the general trend for econobabble the author

explains the reason why conventional wisdom in economics now seems irrelevant and looks to likely future scenarios Entertaining throughout Nell employs a lightness of touch and wit not generally associated with economic literature It is an accessible and enjoyable read which requires minimal prior knowledge of economics It will appeal to those who care what is really happening in the economy

The Making of History M. A. Rabie, 2001-07-29 This book describes the development of human societies over time and identifies the major forces of change that guide history and influence its course The book argues that the course of history has been driven not by leaders states ideas or war but rather by four societal processes whose actions reactions and interactions have governed the nature and pace of historical change These processes are the socio cultural political economic and infomedia processes Three major conceptions of world history the cyclical linear and chaotic have tried to describe the course of history and explain the dynamics of change This book reviews these conceptions and concludes that each one of them is only partially able to provide an understanding of the historical dynamics of change The book incorporates these conceptions into one theory the locomotive theory of history that provides a comprehensive explanation of the movement and dynamics of change throughout history The locomotive theory explains why certain nations have made more progress than others why some people are getting richer while others remain poor and why democracy has succeeded in some countries and failed in others The multiplicity of issues that the book covers makes its analysis and conclusions of particular interest to all people engaged in politics economics socioeconomic development and globalization

The Political Economic Foundation of Democratic Capitalism Alan Ertl, 2007-05 This book traces both authoritatively and analytically the development of the ideas relating to the modern conceptualized understanding of the notions of Democracy and Capitalism

Neo-Abolitionism David Ellerman, 2021-02-17 This book argues for the abolition of the employment system in favor of workplace democracy and thus escapes the usual capitalism versus socialism binary choice by reframing the basic issue as the employment contract not private property or a market economy The author repositions the political and economic debate in the lineage of abolitionism against the owning of other people which in its modern version of neo abolitionism would also abolish the renting or hiring employing or leasing of other people The overall argument is based on three recovered theories each one of which is sufficient to yield the neo abolitionist conclusion These three rights based theories are developed throughout the book The three theories are 1 inalienable rights theory 2 the natural rights or labor theory of property and 3 democratic theory as based on a democratic constitution that only delegates governance rights versus a non democratic constitution that alienates governance rights The book therefore is a must read for everybody interested in a better understanding of the political economy workplace democracy rights based theories and the employment system

Putting Jurisprudence Back Into Economics David Ellerman, 2021-06-24 This book presents an integrated jurisprudential critique of neoclassical microeconomic theory It explains what is really wrong with the theory both descriptively as well as normatively The criticism presented is based on questions of jurisprudence and on neoclassical

theory's sins of omission and commission concerning the underlying system of property and contract. On the positive side, while the presentation is almost entirely non-mathematical, the book contains the first mathematical treatment of the fundamental theorem about property and contract in jurisprudence that underlies a market economy. The book follows the tradition of John Stuart Mill as the last major political economist who considered the study of property rights as an integral part of economic theory. The conceptual criticisms presented in this book focus on the descriptive and normative misconceptions about property and contracts that are deeply embedded in ideology in neoclassical economics, not to mention in the broader society. The book recognizes that the idealized microeconomic theory is not descriptive of reality and focuses its criticism on conceptual mistakes in the theory which are even clearer due to the idealized nature of the theory. Therefore, the book is a must-read for scholars, researchers, and students interested in a better understanding of jurisprudence in economics, neoclassical microeconomic theory, and political economy in general.
