The Lost Human and the Real End of History George Yerby, 2025-07-01 This book analyses the transformation in 16th and 17th century English economic life that overturned the traditional restraints of the medieval economy for the commercial ethos that governs the modern world and the resulting imbalance which opened the way to the environmental breakdown of today On the open fields and commons the smallholders had worked closely with the land as given with minimal intervention in natural processes The 16th century introduced a fundamental difference of approach as the inducement of exceptional profits encouraged manipulative exploitation of the land Freedom of trade from arbitrary restraints and impositions became the new economic ethos officially established by the mid 17th century revolution and reinforced by other changes such as the emergence of the nationstate The rise of science was associated with the agriculturalist adoption of empirical method for improvement and a new philosophy accorded humankind the right to degrade other species for its own ends By focusing on the causes and effects of capitalism at its first appearance this volume traces the environmental crisis back to the switch from an essentially universalist to a basically individualist world This book will be of interest to scholars and students of Early Modern England Economic Studies and Environmental Studies

Allen, 2025-02-06 Kant Adorno and the Forms of History sets the works of Theodor Adorno Immanuel Kant and Peter Weiss in dialogue revealing how an interrogation of the aesthetics of the whole and the conception of history in Western thought reveals new ways of thinking about history and historically To conceive of history as such it is necessary to conceive it as a whole but doing so carries implications about its development and direction Furthermore such an idea makes it difficult to consider its parts without subsuming them to the whole thereby making individuals merely instrumental to achieving the aims of history William S. Allen brings the thought of Kant Adorno and Weiss to bear on these tensions tracing how Adorno's reconsideration of history through his readings of Kant's Critique of Judgement are distinct from formulations offered by other thinkers Marx Hegel Lyotard Allen establishes that Kant's Critique of Judgement is not only a sustained analysis of the development of forms whether aesthetic or organic but also a tacit interrogation of the form of the whole and the possibilities of thinking it Kant Adorno and the Forms of History argues that Adorno has taken up this interrogation more than any other thinker and through his aesthetics has introduced an alternative thought which has been modified and extended in the work of Peter Weiss in his last novel *The Aesthetics of Resistance* Within this thought lies the possibility of thinking history without the whole without unity or purpose which is a possibility that may offer new insights in the face of imminent environmental

economic and political collapse      *Liberal Democracy as the End of History* Christopher Hughes, 2011-10-07 Francis Fukuyama claims that liberal democracy is the end of history This book provides a theoretical re examination of this claim through postmodernist ideas The book argues that postmodern ideas provide a valuable critique to Fukuyama s thesis and poses the questions can we talk about a universal and teleological history a universal human nature or an autonomous individual It addresses whether postmodern theories concerning the movement of time what it means to be human and what it means to be an individual subject can be accommodated within a theory of a history that ends in liberal democracy The author argues that incorporating elements of postmodern thought into Fukuyama s theory makes it possible to produce a stronger and more compelling account of the theory that liberal democracy is the end of history The result of this is to underpin Fukuyama s theory with a more complex understanding of the movement of time the human and the individual and to show that postmodern concepts can paradoxically be used to strengthen Fukuyama s theory that the end of history is liberal democracy The book will be of interest to students and scholars of political theory postmodernism and the work of Francis Fukuyama      **The Ends of History** Christina Crosby, 2012 Annotation Why were the Victorians so passionate about history How did this passion relate to another Victorian obsession the woman question Christina Crosby investigates the links between the Victorians fascination with history and with the nature of women      *Science and Technology in World History* James Edward McClellan, Harold Dorn, 2006-04-14 Publisher description
