Soviet period colouring our perception of both popular faith in Russian and medieval Russian culture for over a century It surveys the wide variety of uses of the term from the eleventh to the seventeenth century and contrasts them to its use in modern historiography concluding that our modern interpretation of dvoeverie would not have been recognized by medieval clerics and that double belief is a modern academic construct Furthermore it offers a brief foray into medieval Orthodoxy via the mind of the believer through the language and literature of the period **Studia Slavica mediaevalia et humanistica**
