

Creation and Wisdom in the Old Testament: Key Concepts

Topic: Religion | Words: 832 | Pages: 4

Distinguish between key concepts and subordinate ideas. Concisely summarize these

The key concept of 'Creation and Wisdom' by Phillip McMillion is that creation plays a vital part for a minimum of three ways in the acumen of the Old Testament: Wisdom and ethics, wisdom and idolatry, wisdom and praise. The relations between creation and wisdom are considered to be a component of a colossal controversy about the dogma of the Old Testament as a whole.

Various educators are willing to imply that wisdom does not appear to be religious; moreover, according to this theory, wisdom occurs as one of the materialistic elements of the Bible. Wisdom monitors the common world with the goal of demonstrating the wise ways people can act in various situations.

"God has created the world with certain basic principles built into the fabric of the universe. God has also created human beings to be a part of that universe" (McMillion 71). The article suggests the answer to a question about living and behaving in accordance with the natural arrangement created by God in the aspect of ethics rather than science.
