The Kids Of Prayers About All Sorts Of Things More For Kids:

Ngā Mōrehu: The Survivors (2nd Edition) Judith Binney, 2013-06-11 For much of women's history memory is the only way of discovering the past. Other sources simply do not exist. This is true for any history of Maori women in this century. All the women in this book have lived through times of acute social disturbance. Their voices must be heard. Judith Binney 1992. In eight remarkable oral histories, **NGA MOREHU** brings alive the experience of Maori women from in the mid twentieth century. Heni Brown, Reremoana Koopu, Maaka Jones, Hei Ariki, Algie Heni, Sunderland Miria, Rua Putiputi, Onekawa and Te Akakura Rua talked with Judith Binney and Gillian Chaplin sharing stories and memoirs. These are the women whose voices must be heard. The title, the survivors, reflects the women's connection with the visionary leader Te Kooti Arikirangi Te Turuki and his followers who adopted the name Nga Morehu during the wars of the 1860s. But these women are not only survivors; they are also the chosen ones, the leaders of their society. They speak here of richly diverse lives of arranged marriages and whangai adoption traditions of working in both Maori and Pakeha communities. They pay testimony to their strong sense of a shared identity created by religious and community teachings.

Battle of the Big Bang Niayesh Afshordi, Phil Halper, 2025-05-29 A thrilling exploration of competing cosmological origin stories comparing new scientific ideas that upend our very notions of space, time and reality. By most popular accounts, the universe started with a bang some 13.8 billion years ago. But what happened before the Big Bang? And how do we know it happened at all? Here prominent cosmologist Niayesh Afshordi and science communicator Phil Halper offer a tour of the peculiar possibilities: bouncing and cyclic universes, time loops, creations from nothing, multiverses, black hole births, string theories and holograms. Along the way, they offer both a call for new physics and a riveting story of scientific debate. Incorporating insights from Afshordi's cutting edge research and Halper's original interviews with scientists like Stephen Hawking, Roger Penrose and Alan Guth, **Battle of the Big Bang** compares these models for the origin of our origins, showing each theory's strengths and weaknesses and explaining new attempts to test these notions. **Battle of the Big Bang** is a tale of rivalries and intrigue of clashes of ideas that have raged from Greek antiquity to the present day over whether the universe is eternal or had a beginning, whether it is unique or one of many. But most of all, Afshordi and Halper show that this search is filled with wonder, discovery and community, all essential for remembering a forgotten cosmic past.
