Memory of Patrick Wormald Stephen Baxter, Catherine Karkov, Janet L. Nelson, David Pelteret, 2017-05-15 Patrick Wormald was a brilliant interpreter of the Early Middle Ages whose teaching writings and generous friendship inspired a generation of historians and students of politics law language literature and religion to focus their attention upon the world of the Anglo Saxons and the Franks Leading British American and continental scholars his colleagues friends and pupils here bear witness to his seminal influence by presenting a collection of studies devoted to the key themes that dominated his work kingship law and society ethnic religious national and linguistic identities the power of images pictorial or poetic in shaping political and religious institutions Closely mirroring the interests of their honorand the collection not only underlines Patrick Wormald s enormous contribution to the field of Anglo Saxon studies but graphically demonstrates his belief that early medieval England and Anglo Saxon law could only be understood against a background of research into contemporary developments in the nearby Welsh Scottish Irish and Frankish kingdoms He would have been well pleased therefore that this volume should make such significant advances in our understanding of the world of Bede of the dynasty of King Alfred and also of the workings of English law between the seventh and the twelfth century Moreover he would have been particularly delighted at the rich comparisons and contrasts with Celtic societies offered here and with the series of fundamental reassessments of aspects of Carolingian Francia Above all these studies present fundamental reinterpretations not only of published written sources and their underlying manuscript evidence but also of the development of some of the dominant ideas of that era In both their scope and the quality of the scholarship the collection stands as a fitting tribute to the work and life of Patrick Wormald and his lasting contribution to early medieval studies **Irish Kingship in the Eleventh and Twelfth Centuries**

Ronan Mulhaire, 2025-05-23 Irish Kingship in the Eleventh and Twelfth Centuries examines the power of medieval Irish kings but treats power as a complex concept worthy of study in its own right It starts from the premise that historians of medieval Ireland have interpreted power in a narrow way This book engages with the rich corpus of literature on power produced by political scientists and sociologists which reveals the sheer complexity and vicissitudes of power as a concept Where there is power there is resistance Hence drawing on evidence from medieval Irish chronicles hagiographies saga literature and advice texts this book explores the largely ignored phenomena of revolt resistance and violence in eleventh and twelfth

century Ireland It argues against a panoptic narrative of royal centralisation and suggests that the existence of a multiplicity of kings and non royal lords has proven to be more of a problem for historians than it was for the Irish kings themselves This book will appeal to scholars and students of medieval Ireland as well as those interested in the history of kingship power and resistance

The Cambridge History of Ireland: Volume 1, 600-1550 Brendan Smith,2018-03-31 The thousand years explored in this book witnessed developments in the history of Ireland that resonate to this day Interspersing narrative with detailed analysis of key themes the first volume in The Cambridge History of Ireland presents the latest thinking on key aspects of the medieval Irish experience The contributors are leading experts in their fields and present their original interpretations in a fresh and accessible manner New perspectives are offered on the politics artistic culture religious beliefs and practices social organisation and economic activity that prevailed on the island in these centuries At each turn the question is asked to what extent were these developments unique to Ireland The openness of Ireland to outside influences and its capacity to influence the world beyond its shores are recurring themes Underpinning the book is a comparative outward looking approach that sees Ireland as an integral but exceptional component of medieval Christian Europe

Heritage Destruction, Human Rights and International Law Amy Strecker,Joseph Powderly,2023-07-24 This book brings together prominent scholars in the fields of international cultural heritage law and heritage studies to scrutinise the various branches of international law and governance dealing with heritage destruction from human rights perspectives both in times of armed conflict as well as in peace Importantly it also examines cases of heritage destruction that may not be intentional but rather the consequence of large scale infrastructural development or resource extraction Chapters deal with high profile cases from Europe North Africa The Middle East Latin America and the Caribbean with a substantial afterword on heritage destruction in Ukraine

Irish Contemporary Landscapes in Literature and the Arts M. Mianowski,2011-12-06 Looking at representations of the Irish landscape in contemporary literature and the arts this volume discusses the economic political and environmental issues associated with it questioning the myths behind Ireland s landscape from the first Greek descriptions to present day post Celtic Tiger architecture

Power and Place in Europe in the Early Middle Ages Jayne Carroll,Andrew Reynolds,Barbara Yorke,2019-12-17 This book reveals a high degree of organisational capacity in early medieval societies It outlines a new agenda for assessing and interpreting early medieval power how it was formed how it functioned and how it developed across time providing the basis for the kingdoms of the European Middle Ages

Transmissions and Translations in Medieval Literary and Material Culture ,2021-12-20 Bringing together the work of scholars from disparate fields of enquiry this volume provides a timely and stimulating exploration of the themes of transmission and translation charting developments adaptations and exchanges textual visual material and conceptual that reverberated across the medieval world within wide ranging temporal and geographical contexts Such transactions generated a multiplicity of fusions expressed in diverse and often startling ways architecturally textually and through peoples
