Skills Of Primary School Management:

The Skills of Primary School Management Les Bell, Chris Rhodes, 2002-01-04 This book is for all teachers who have curriculum and management responsibilities in primary schools or who aspire to those positions It provides an analysis of those responsibilities and of how they may best be exercised in the changing climate of primary education It takes account of the many radical policy changes that have influenced the management of primary schools since 1988 Above all it offers practical guidelines on which effective strategies for managing primary schools may be based while recognising that good management is not an end in itself

Management Skills in Primary Schools Les Bell, 2018-05-11 Originally published in 1988 The qualities that identify a good school are high teaching standards and teacher morale good levels of behaviour successful pupil performance and a well balanced provision of extra curricular activities Such schools are described as well run but the correlation between effectiveness and an explicit management strategy is not yet established This book seeks to examine the role of management in the primary school and to identify those areas in which effective management practice can make a valuable contribution to school life for the benefit of both staff and pupils It argues that although useful insights can be gained into school organisation from the scientific management perspective the human relation approach to management has more to offer to those working in the primary sector The focus is therefore on personal relationships The importance of a clear sense of purpose is emphasised throughout especially in view of the challenges which now face our primary schools

New School Management Approaches OECD, 2001-05-21 Those who manage schools and educational systems today have an arduous task as schools everywhere are being asked to do more than ever before This book analyses how they are responding focusing on new school management approaches at the primary and secondary school levels

Management Skills in Primary Schools Les Bell, Managing the Primary School Mrs Joan Dean, 2002-01-04 This new edition of *Managing the Primary School* brings up to date the consideration of the tasks and skills of the headteacher which was a feature of the first edition Like the first edition this book deals with all aspects of the headteacher's role including a discussion of the changing relationships with parents and governors and an examination of the headteacher's involvement with marketing the school and controlling its finances Each chapter looks at a particular group of skills and tasks which are a part of the management role Joan Dean takes into account the implications of the Education Reform Act and the National Curriculum and includes accounts of recent research concentrating in particular on studies of effective schools This book will be invaluable to all headteachers as well as other senior staff advisors and consultants working in primary schools

EBOOK: Leadership and Teams in Educational Management Megan Crawford, Lesley Kydd, Colin Riches, 1997-03-16 Effective leadership and team working makes a crucial difference to the management of schools and colleges This book takes readers through the different dimensions of leadership and its relationship to good team work Personal and organizational skills are dealt with alongside the more theoretical aspects of the subject Throughout the editors stress that leadership and

team working are the core activities in managing people This volume forms part of the Leadership and Management in Education series This four book series provides a carefully chosen selection of high quality readings on key contemporary themes in educational management professional development reflection on practice leadership team working effectiveness and improvement quality strategy and resources The series will be an important resource for classroom teachers and lecturers as well as those holding designated management posts in schools and colleges and will provide a valuable basis for professional development programmes

Primary School Management: Learning from Experience Eric

Briault,2003-09-02 Issues raised include improving the quality of pupils learning experience effective staff organisation development of policy and management of resources and establishing good relationships between the head the school and the community

Educational Management Harry Tomlinson,2004 This collection explores historical and present day issues in education management the training and development of leaders and their roles in leading people and managing resources and provides a focus on the major management issues which are current throughout the education world The articles reprinted here include the management of applied individual psychology organizational psychology individual interpersonal and group interaction personality theory leadership theory and organization theory

Skills for Human Development

Lesley Powell,Simon McGrath,2019-03-15 Focusing on reimagining the purpose of vocational education and training VET and grounded in the reality of a small cohort of young South Africans and an institution seeking to serve them Skills for Human Development moves beyond the inadequacies of the dominant human capital orthodoxy to present a rich theoretical and practical alternative for VET Offering a human development and capability approach it brings social justice to the forefront of the discussion of VET s purpose at the national institutional and individual levels In doing so this book insists that VET should be about enlarging peoples opportunities to live a flourishing life rather than simply being about narrow employability and productivity It argues that human development approaches while acknowledging the importance of work in its broadest sense offer a better way of bringing together VET and development than the current human capital inspired orthodoxy Offering a transformative vision for skills development this book Considers the potential contribution skills development could make to broader human development as well as to economic development Points to an alternative approach to the current and flawed deficit assumptions of VET learners Presents for the first time an alternative evaluative frame for judging VET purpose and quality Presents a timely account of current vocational and education training that is high on the agenda of international policymakers Taking a broad perspective Skills for Human Development presents a comprehensive and unique framework which bridges theory policy and practice to give VET institutions a new way of thinking about their practice and VET policymakers a new way of engaging with global messages of sustainable human development It is a vital resource for those working on the human development and skills approach in multiple disciplines and offers a grounding framework for international policymakers interested in this growing area
