Sky Of Peleg:

The Sky of Peleg Twelve, **Any Other World Will Do** Alex Lubertozi, 2021-08-01 Any Other World Will Do presents an alien vision of Earth's possible future. It's a send up of the genre that wraps its earnest warning in plausible deniability. Foreword Reviews 2022 Benjamin Franklin Award Silver Winner. In a chance encounter on the overnight train from Paris to Barcelona, Vikram Bhat stumbles across a promising new recruit, Miles Townsend, an 18-year-old kid running away from a past he'd just as soon forget. He is drawn to the older Indian man, dazzled by Barcelona and smitten with the Hotel Kashmir's bartender, Anna de Wit, a Surinamese grad student with a genius for languages. Vikram's first recruit, Miles, and Anna have no idea they're being recruited. They have no idea that Vikram is neither an Indian nor a man or that he's a few thousand light years from home. He has a lot of secrets; it turns out. But he means well. When a series of bad decisions reveals the fact that Vikram isn't the only one light years from home and this other one does not mean well, Miles and Anna become unwitting ambassadors to Vikram's world, a place where the locals haven't got their shit together any better than the people of Earth. A unique coming-of-age story, *Any Other World Will Do* is inventive, irreverent science fiction, a wry commentary on the primal urge to flee our troubles and the romantic way we remember the journey. *Earth, Man, & Devolution* R. Pilotte, 2009-01-28. A girl on a couch appeared in an electro-magnetically generated cloud and it was deduced to be a vision from the past. UFOs are seen to appear and disappear out of nowhere and they are presumed to be entering and leaving another dimension. The ancients speak of the Gods descending to earth and they're deduced to be spacemen from another galaxy seeding life on earth and helping evolution along. Archaeologists see the pyramids and decide they were built by 200,000 slaves to exacting standards we can't match today just to bury a king. People read about world flood legends, look at Mount Everest, say Impossible, and decide the legends speak of local floods. Anthropologists see writing start about 5000 years ago and deduce this is evidence of the greatest advancement in the history of mankind. These deductions are all incorrect. Find out what these and other curious tidbits really mean and how they'll change your world view forever. Ever wondered where the Noah floodwater went? Find out where it came from and finally where it went. Radioactive Carbon 14 in our atmosphere isn't at equilibrium; it forms at a faster rate than it breaks down. Why? And why is that crucial in figuring out the age of the earth? Ever wondered what caused different races? How about Dinosaurs? Find out what killed them recently and be prepared for a shock because they aren't all dead. One of the plagues of Egypt was the river of blood, but this happened in more places than just Egypt. Find out the cause. This book solves the Bermuda Triangle disappearances, invisibility, the Tower of Babel, frozen woolly mammoths, erratics, massive fossil sites all around the globe, destruction of Mu and Atlantis. We also figure out the origin of reincarnation, the underworld, the continents, the seven heavens, pole shifts, the Sumerians, and not just the origin of the gods; we find out who they are. How can one book solve so much? Read *Earth Man*, *Maps of the Ancient Sea Kings*, *Immanuel Velikovsky's Earth in Upheaval*, *Wallace Budge's Book of the Dead*, *The Hollow Earth* by Raymond Bernard, and

Factual Faith - Belief Founded on Truth Jaco Prinsloo,1900 Today there are more than 10 000 religious beliefs in the world Your belief in the supernatural or the lack thereof will be among the myriad of beliefs that are held by various peoples and nations in this world How did you choose your belief system and are you 100% sure that what you believe is actually true Can you offer reliable proof to those in search of answers to substantiate your viewpoint on the matter Have you ever asked yourself why we as humans no matter where we find ourselves on the planet are the only creatures with a built in need to worship some form of Deity We walk around with so many more irrational beliefs than we realise and this can have an extreme effect on the way we think and behave We have been bombarded with information and influenced by our upbringing The foundation of our unique cultural development lies in the influence of our nurturing by parents in our personalities and the interaction with our environment and our peers In recent years people have been taught to adopt a relativistic viewpoint and not to think critically about subjects they would rather accept the popular mind set even when refuting factual evidence stares them in the face If you do not agree with what the majority sees as true and trendy it can negatively affect your social status and even your career and who wants that Prinsloo gives a sincere and accurately researched look at the flaws in modern day perceptions on extremely profound life issues If you have been intrigued by the Universe and the complexity and diversity of life on Earth and doubted the reality of the spiritual this book will bring you to the realisation that it is the one subject in which you can have 100% confidence of it being factual and true You have probably asked many questions on

matters pertaining to the very essence of your being and on the truth about the Universe life and the world in which we live as philosophers and scientists have done over centuries In this book you will find your answers based on provable facts and thorough scientific verification presented in an accessible and logic fashion This work challenges mainstream theories like Relativism and Darwinism and offers innovative evidence for belief in the supernatural through verifiable evidence in an enjoyable and interesting way It provides tangible proof which you can easily verify for yourself You will be challenged by questions like How does one prove something to be factual and true What are the motives for accepting unfounded beliefs and why keep on believing in something that is already proven false Would you have more confidence in your belief if you had access to scientifically provable facts that supported and substantiated your viewpoint Does God exist Can we prove that He exists Who is He really and what are the implications for my life Whenever you encounter new ideas or views you will be called upon to contrast them against those concepts and theories that you have always believed to be true Many of these ideas and theories have simply been chosen and adopted by people in defiance of the truth since the alternative would not fit their worldview or the responsibility it would require of them This book will help you not to become an influenced victim of untrue modern trends but will place you in a position of knowledge and authority to defend your beliefs Read this ground breaking book you who dare and the secret motives of your belief system will reveal themselves to you
