The Trouble with Empire Antoinette M. Burton, 2015 While imperial blockbusters fly off the shelves there is no comprehensive history dedicated to resistance in the 19th and 20th century British Empire The Trouble with Empire is the first volume to fill this gap offering a brief but thorough introduction to the nature and consequences of resistance to British imperialism Historian Antoinette Burton's study spans the 19th and 20th centuries when discontented subjects of empire made their unhappiness felt from Ireland to Canada to India to Africa to Australasia in direct response to incursions of military might and imperial capitalism The Trouble with Empire offers the first thoroughgoing account of what British imperialism looked like from below and of how tenuous its hold on alien populations was throughout its long unstable life By taking the long view moving across a variety of geopolitical sites and spanning the whole of the period 1840-1955 Burton examines the commonalities between different forms of resistance and unveils the structural weaknesses of the British Empire

The History of Ghana Roger S. Gocking, 2005-06-30 Gocking provides a historical overview of Ghana from the emergence of precolonial states through increasing contact with Europeans that led to the establishment of formal colonial rule by Great Britain at the end of the 19th century Colonial rule transformed what was known as the Gold Coast economically socially and politically but it contained the seeds of its own demise After World War II an increasingly more effective nationalist movement challenged British rule and in 1957 Ghana became independent Independence brought its own challenges the most important of which was the inability to maintain political stability Within the space of 24 years there were four military coups and the collapse of three republics Ghana's Fourth Republic established in 1993 has dealt with the legacy of instability inherited from the past as it moves towards a more stable future A timeline photographs maps and an appendix of biographies of notable figures in the history of Ghana are included Students and adults

alike will find this book to be highly effective in describing the often turbulent and tumultuous history of this country

Boundaries of Self and Other in Ghanaian Popular Culture Joseph K. Adjaye, 2004-03-31 Rituals are among the most enduring aspects of the African cultural landscape They appear to exist outside of time eternal and unchanging Joseph Adjaye argues that while rituals may seem to be static in reality they are dynamic and changing Through intense analysis of child naming ceremonies libations puberty initiation rights funerals and two major Ghanaian festivals Adjaye explores the interplay between ritual and audience interaction and participation By so doing he shows the many ways rituals have provided Ghanaians with a means to conceptualize and change their present and shape their future In other words rituals help individuals escape the boundaries of self by promoting a sense of collective purpose and agency This book will appeal to not only Africanists but to readers interested in the roles rituals play in their own lives and the ways that rituals encourage socially transforming initiatives
