The Land Of Light Egypt And Her Mysteries:

Ancient Egypt, the Light of the World Gerald Massey, 1907 The Celestial Ship of the North Emma Valentia Straiton, 1927 *From the Mysteries* Hermann Beckh, 2020-06-03

In the early part of the last century Professor Hermann Beckh began a search to discover the truth about the Mystery wisdom of antiquity. As a recognized authority on Buddhist texts he knew that complete knowledge of such Mysteries was not to be found within the limitations of waking consciousness, sense perception and logic. Beckh was already aware that Gautama Buddha had indicated the stages of higher knowledge. Furthermore, his studies of Rudolf Steiner's anthroposophical teachings revealed that such knowledge could be experienced directly given disciplined meditation. Clairvoyant cognition included the conscious penetration of sleep consciousness, the dream state and an experience of pre-natal consciousness. Both the Mysteries and Rudolf Steiner's major books, he concluded, were founded on the same perceptions. Beckh, a worldwide expert on Tibetan, Sanskrit, Pali and Avestan texts, quickly became disenchanted with Madame Blavatsky's Theosophy as it displayed little precise academic knowledge of primary records. At the same time, university departments showed scant trace of understanding the texts they analysed through philology and sociology. Thus, based on comprehensive studies and personal experience, he resolved to present his own perceptions and vision to the public. The results are to be found in this invaluable book, bringing together for the first time in English three groundbreaking publications: *Our Origin in the Light* (Genesis 1-9, 1924), *Zarathustra* (1927) and *From the World of the Mysteries* (1927), as well as five of Beckh's articles from contemporary periodicals.

Ancient Egypt, the Light of the World Gerald Massey, 1992

Gerald Massey was one of the first Egyptologists in modern times to realize that with the final eclipse of the incredibly old Land of Kam, a light had been extinguished in world civilization. He was a man of protean interests and concerns: at once a poet, socialist, Shakespearean scholar, mythographer and Egyptologist. Part of his genius was the ability to look truth in the face and not flinch. Massey did in the cultural domain what modern paleontologists have done in the anthropological: pinpoint Africa as the crucible of humanity's story. In the first volume of *Ancient Egypt*, Massey was primarily concerned with elaborating how the first humans emerged in Africa, created thought. What had been evident to him from the outset was that the myths, rituals and religions of ancient Egypt or Old Kam had preserved virtually intact a record of the psychomythic evolution of humanity. In the second volume, Massey examines the celestial phenomenon known as the Precession of the Equinoxes. He believed only by understanding this phenomenon was it possible to fathom Nile Valley history. He provides the reader with extensive detail on the interconnection of the two. The last half of the second volume is devoted to the Kamite sources of Christianity. Massey demonstrated the manner in which New Testament Christianity evolved directly out of the Osirian mysteries. Massey pioneered the effort to connect Old Kamite thought to its origin in Africa's antiquity. His conclusions, which are constantly being verified, showed that Kamite thought was the direct progenitor to the philosophy, metaphysics, religion and science that eventually shaped Western civilization from back cover.
