A small white dog is sitting on the dock next to her. In the background, there is a calm lake, a small building with a red roof on the far shore, and a large, translucent blue pyramid structure that appears to be floating or rising from the water. The sky is blue with some clouds.

America Floyd Orr, 2006 Godzilla Stuffed into a Briefcase Columbus takes a vacation to The Bahamas and discovers the area to be a fun place He tells all his other adventurous friends about it and they decide they all need vacations too Soon everybody in The Old Country is loading up enough beer to make the trip and sailing to The Bahamas Hysterical events have surprised us inventions have made us more comfortable and recreational pursuits have all but dominated our lives The story of America is told in a pair of Jekyll Hyde Timelines You will meet the good doctor inside His mean ugly brother will arrive in 2008 This is a lot more than a pop culture trivia book although no simpler phrase describes it Ten timelines tell the story of America s development from the arrival of Columbus to the homeruns of Barry Bonds and the movie release of The Da Vinci Code The story is separated into ten topics events comforts cars toys movies television music nerds sports and gossip Like any competent trivia book there is a test at the end but this tale is about the quest not the grail This is a capsule history of the things that have defined us and Godzilla doesn t like being so tightly restrained Contemporary German-Chinese

and media studies Sinophone studies transnational studies cultural studies and social and cultural anthropology Lineages of the Feminine Emmanuel Todd, 2023-06-06 We are experiencing an anthropological revolution We see it in the MeToo movement in the denunciation of femicide and in an increasingly vociferous critique of patriarchal domination Why this sudden rise of an antagonistic conception of the relationship between men and women at the very moment when progress is accelerating and when the goals of first and second wave feminism seem on the verge of being achieved In this book the anthropologist and historian Emmanuel Todd while not underestimating the importance of crucial inequalities that remain argues that the emancipation of women has essentially already taken place but that it has given rise to new tensions and contradictions As women gain more freedom they also gain access to traditional male social pathologies economic anxiety the disorientation of anomie and individual and class resentment But because they remain women with the ability to bear children their burden as human beings although richer is now more difficult to bear than that of men In order to understand our current condition Todd retraces the evolution of the male female relationship through the long history of the human species from the emergence of Homo sapiens a hundred thousand years ago to the present He also conducts a broad empirical study of the convergence between men and women today and of the differences that still separate them in education in employment and in relation to longevity suicide and homicide electoral behaviour and racism He explores the relations between women's liberation and other changes in contemporary societies such as the collapse of religion the decline of industry the decline of homophobia the rise of bisexuality and the transgender phenomenon and the decline in a sense of the collective life And he shows how and why Western countries and especially the Anglo American world Scandinavia and France are in their new feminist revolution perhaps less universal than they think *KEY TO SOCIOLOGY* Dr. [Prof.] Rakhee Kalsekar , 2015-07-01 As per my knowledge and experience for several years I have observed as academic discipline sociology is quite important subject Despite being a research oriented discipline it is taught at degree level in many Indian Universities Also it has been included in the syllabus of B L S LLB B A LL B programs under guidance of UGC and Bar Council of India But the main problem rests with finding the suitable text book which fulfils the needs of B L S LLB B A LL B students Sociology being an imported discipline major texts are available written by foreign authors which the students of B L S LLB B A LL B finds very difficult to follow and this fact was revealed to me in the class room interaction with the students This book is an endeavour to cater the needs of the students who are just out of schools to pursue B L S LLB B A LL B course Care has been taken to present the subject matter in simple language with copious examples discarding jargon for easy and quick comprehension *Minds of Our Own* Wendy Robbins, Meg Luxton, Margrit Eichler, Francine Descarries, 2009-08-02 This book of personal essays by over forty women and men who founded women's studies in Canada and Quebec explores feminist activism on campus in the pivotal decade of 1966-76 The essays document the emergence of women's studies as a new way of understanding women men and society and they challenge some current preconceptions about second wave

feminist academics The contributors explain how the intellectual and political revolution begun by small groups of academics often young untenured women at universities across Canada contributed to social progress and profoundly affected the way we think speak behave understand equality and conceptualize the academy and an academic career A contextualizing essay documents the social economic political and educational climate of the time and a concluding chapter highlights the essays recurring themes and assesses the intellectual and social transformation that their authors helped set in motion The essays document the appalling sexism and racism some women encounter in seeking admission to doctoral studies in hiring in pay and in establishing the legitimacy of feminist perspectives in the academy They reveal sources of resistance too not only from colleagues and administrators but from family members and from within the self In so doing they provide inspiring examples of sisterly support and lifelong friendship

Gender and Sexual Identity Julie L. Nagoshi, Craig T. Nagoshi, Stephan/ie Brzuzy, 2013-10-21 The first comprehensive presentation of an explicitly transgender theory This theory goes beyond feminist and queer theory by incorporating the idea of fluid embodiment and lived experience in conceptualizing gender and sexual identity Beyond developing a formulation of transgender theory that incorporates the socially constructed embodied and self constructed aspects of identity in the narrative of lived experiences the authors discuss the implications of this trans identity theory for theory research and practice

Biopolitical Governance Hannah Richter, 2018-05-17 For years critical theorists and Foucauldian biopolitical theorists have argued against the Aristotelian idea that life and politics inhabit two separate domains In the context of receding social security systems and increasing economic inequality within contemporary liberal democracies life is necessarily political This collection brings together contributions from both established scholars and researchers working at the forefront of biopolitical theory gendered and sexualised governance and the politics of race and migration to better understand the central lines along which the body of the governed is produced controlled or excluded

New Perspectives on Gender and Translation Eleonora Federici, José Santaemilia, 2021-11-30 This collection expands the body of research on the intersection of gender and translation to highlight perspectives across different countries in Europe showcasing developments in the field from its origins in the emergence of feminist translation in Quebec over the last thirty years Building off seminal work on feminist translation by scholars in Canada in the 1980s and 1990s the book explores the evolution of the discipline in shifting translation practices and research across a range of European countries with a focus on underrepresented areas such as Malta Serbia and Poland The different chapters examine key developments such as the critical reframing of gender and identity the viewing of historical translation activity by women through the lens of ideological and political motivations and the analysis of socio political contexts where feminist or gender inspired translation has impacted translators practices The volume looks concurrently at the European context and beyond it putting the spotlight on new voices in translation and gender research in the region but also encouraging transnational dialogues on key issues in the discipline pushing the field further into new directions This book will be of particular interest to scholars in
