Activists defended these trees not only because the redwood forest had dwindled in size but also because by the late twentieth century the local economy was increasingly dominated by multinational corporations. The resulting conflict, the Redwood Wars, pitted workers and environmental activists against the rising tide of globalization and industrial logging in a complex war over endangered species, sustainable forestry, and of course the fate of the last ancient redwoods. Activists perched in trees and filed lawsuits while the timber industry led by Pacific Lumber fought the lawsuits and used their power to halt reform efforts. Ultimately the Clinton administration sidestepped Congress and the courts to negotiate an innovative compromise. In the process the Redwood Wars transformed American environmental politics by shifting the balance of power away from Congress and into the hands of the executive branch.

Conservation and Environmentalism Robert C. Paehlke, 2013-04-03 Focusing on both problems and solutions, this authoritative reference work maintains a healthy balance between science and the social sciences in its coverage of all aspects of the environment. **Living Deep Ecology** Bill Devall, 2020-11-24 *Living Deep Ecology: A Bioregional Journey* is an exploration of our evolving relationship with a specific bioregion. It is set in Humboldt County in northwestern California in the Klamath Siskiyou bioregion. By focusing on a specific bioregion and reflecting on anthropogenic changes in this bioregion over three decades, Bill Devall engages the reader in asking deeper questions about the meaning we find in Nature. He addresses questions such as how do we relate the facts and theories presented by science with our feelings, our intimacy, and our sense of Place as we dwell in a specific bioregion. This book engages the reader to consider our place in Nature. Devall approaches the bioregion not from the perspective of agencies and government but from the perspective of the landscape itself.
