The Key Party:

The Key Party James Gilbert, 2017-04-25 *Party Elites in Divided Societies* Kris Deschouwer, Kurt Richard

Luther, 2004-01-14 Working from the basis of Arend Lijphart's 1968 work on divided societies the authors go on to look at such cultures and subcultures thirty years on bringing in new evidence and analysis to bear on the issue They also examine the essential role of party politics within and between these D framing comparisons with a number of countries from Belgium to Israel **The Europeanization of Party Politics in Ireland, North and South** Katy Hayward, Mary

Murphy, 2013-10-31 Ireland's relationship with the European Union has been determined by the behaviour actions and discourse of political parties This book examines this impact through an in depth analysis of the Europeanization of party politics in the Republic of Ireland and Northern Ireland First it presents original research on cross cutting issues that have featured in political debates about European integration including referendum campaigns on EU treaties Irish neutrality and party policy positions on the EU Secondly it is the first book of its kind to examine in detail how each of the main parties on the island of Ireland has adapted to EU membership In doing so it both tests the thesis of Europeanization and deepens understanding of the impact that EU membership can have on national and sub national party politics What this study reveals is that while Europeanization is clearly evident in all parties in Ireland including those most critical of European integration its influence has been strictly curtailed We argue that the effects of Europeanization in Irish party politics have been limited by enduring resistance to and conditions placed upon EU influence in particular policy areas the importance of pragmatism and sub national priorities in shaping parties approaches to European integration and the fact that engagement with the EU continues to be a predominantly elite led process This book was published as a special issue of Irish Political Studies

Party Discipline in the U.S. House of Representatives Kathryn Pearson, 2015-08-06 Political party leaders in the U S House of Representatives command greater loyalty than ever from fellow party members in roll call votes campaign contributions and partisan speeches In return leaders reward compliant members with opportunities to promote constituent interests and to advance their own political careers Denial of such privileges as retribution against those who don't fully support the party agenda may significantly damage a member's prospects Kathryn Pearson examines the disciplinary measures that party leaders in the U S House of Representatives employ to exact such loyalty as well as the consequences for a democratic legislature Drawing upon data from 1987 2010 Pearson identifies the conditions under which party leaders opt to prioritize policy control and those which induce them to prioritize majority control She then assesses the ways in which these choices affect on one hand the party's ability to achieve its goals and on the other hand rank and file members ability to represent their constituents Astute party leaders recognize the need for balance as voters could oust representatives who repeatedly support the party's agenda over their constituents concerns thereby jeopardizing the number of seats their party holds In her conclusion Pearson discusses the consequences of party discipline such as legislative gridlock stalled bills and

proposals banned from the agenda Although party discipline is likely to remain strong as citizens become more cognizant of enforced party loyalty their increasing dissatisfaction with Congress may spur change **Negotiating Political Power in Turkey** Elise Massicard, Nicole Watts, 2013 This book examines how individuals and groups within particular political parties in Turkey gain influence and control over party resources and decision making and relatedly to examine party relationships with non party actors particularly social groups and identities to study how parties and groups within parties interact with gain strength from and compete with non party players in their quest for control over local and national political landscapes

The Politics of Marketing the Labour Party D. Wring, 2004-11-23 The Labour Party has been using marketing longer than is commonly realised Leading figures like Morrison Snowden Webb Gaitskell Benn and Wilson were among those who recognized the importance of imagery and symbolic communication long before the time of Kinnock Mandelson and Blair Politics of Marketing the Labour Party traces how the party s political campaigning has developed since its birth and how the increasing use of marketing contributed to the radical restructuring of both the organization and its policies

The Labour Party's Economic Strategy, 1979-1997 R. Hill, 2001-09-26 The book considers Labour s economic strategy as it developed through the party s long period of opposition between 1979 and 1997 This history argues strongly that accounts of Labour s recent past which claim that the Party was driven by a combination of Thatcherism and opinion polls are flawed It offers an alternative account which stresses the importance of debates within and around the Party about how the economy should be understood the role of markets and the state and British industrial decline
