Tunisia Anna Carew-Miller, 2014-10-21 Tunisia is a small nation on the Mediterranean coast of North Africa An Arab country in which the people are predominantly Muslim Tunisia nonetheless maintains strong ties to Europe and good relations with its African neighbors Among the countries of the Arab world Tunisia is considered a moderate state its policies unlike those of neighboring Libya are generally favorable to the United States and the West The country is not without its problems however Religious fundamentalists who want Tunisia to impose strict Islamic laws on the country have caused unrest since the 1980s In addition political power is concentrated in the hands of a few people Many hope that one day Tunisia will create a truly democratic society in which all of the people can participate in improving their country Discusses the geography history economy government religion people foreign relations and major cities of Tunisia **In the Land of Mosques & Minarets** Milburg Francisco Mansfield, Francis Miltoun, 1908 **The Tunisia of Ahmad Bey, 1837-1855** L. Carl Brown, 2015-03-08 Under the energetic but confused prodding of the activist ruler Ahmad Bey Tunisia made its first effort to institute European inspired political and military reforms L. Carl Brown's book on the reign of Ahmad Bey is thus a case study in modernization as well as a historical survey of Tunisia in the mid nineteenth century Professor Brown explains the workings of the traditional political system an elaborate blend of Hafsid and Ottoman governmental ideas and practices He explores the ways in which the changes imposed on Tunisia by the West made this system unworkable Turning to the modernization movement itself the author argues that the first phase of modernization was almost exclusively in the hands of the existing political elite whose background education career pattern and self image he examines This elite working within a political climate characterized by a close interweaving of domestic and diplomatic concerns developed an operating style described as collaborationist modernization In addition to recapturing in a narrative history the age of Ahmad Bey and the

political class over which he ruled Professor Brown fits the Tunisian story of these years into the broader historical context of change imposed by the West on the rest of the world Originally published in 1975 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
