The Last Of Old Europe:

The Last of Old Europe Alan John Percivale Taylor, 1976 More than a recreation of moments in time from Europe that no longer exists The Last of old Europe captures in these photographs an unchanging quality of humanity AJP Taylor reminds us that all things change but that we recognize ourselves in these faces looking out at us from the past Coming as it so opportunely did at the eleventh hour of culture about to be overtaken by incredible industrial and technological change the camera has preserved a record of daily life that the written history of the period could never have a wholly preserved Though artists of the day recorded the splendor of royal and wealthy patrons few could afford to devote themselves to as vast a record of the common man The efforts of these pioneering photographers have immensely enriched historical perspective

Last Days in Old Europe Richard Bassett, 2019-01-31 Selected as a Book of the Year in the TLS and Spectator The final decade of the Cold War through the eyes of a laconic and elegant observer In 1979 Richard Bassett set out on a series of adventures and encounters in central Europe which allowed him to savour the last embers of the cosmopolitan old Hapsburg lands and gave him a ringside seat at the fall of another ancien regime that of communist rule From Trieste to Prague and Vienna to Warsaw fading aristocrats charming gangsters fractious diplomats and glamorous informants provided him with an unexpected counterpoint to the austerities of life along the Iron Curtain first as a professional musician and then as a foreign correspondent The book shows us familiar events and places from unusual vantage points dilapidated mansions and boarding houses train carriages and cafes where the game of espionage between east and west is often set There are unexpected encounters with Shirley Temple Fitzroy Maclean Lech Walesa and the last Empress of Austria Bassett finds himself at the funeral of King Nicola of Montenegro in Cetinje plays bridge with the last man alive to have been decorated by the Austrian Emperor Franz Josef and watches the KGB representative in Prague bestowing the last rites on the Soviet empire in Europe Music and painting architecture and landscape food and wine friendship and history run through the book The author is lucky observant and leans romantically towards the values of an older age He brilliantly conjures the time the people he meets and Mitteleuropa in one of the pivotal decades of its history **The Lost World of Old Europe** David W.

Anthony, Jennifer Chi, 2010 In the prehistoric Copper Age long before cities writing or the invention of the wheel Old Europe was among the most culturally rich regions in the world Its inhabitants lived in prosperous agricultural towns The ubiquitous goddess figurines found in their houses and shrines have triggered intense debates about women's roles The Lost World of Old Europe is the accompanying catalog for an exhibition at New York University's Institute for the Study of the Ancient World This superb volume features essays by leading archaeologists as well as breathtaking color photographs cataloguing the objects some illustrated here for the first time The heart of Old Europe was in the lower Danube valley in contemporary Bulgaria and Romania Old European coppersmiths were the most advanced metal artisans in the world Their intense interest in acquiring copper Aegean shells and other rare valuables gave rise to far reaching trading networks In their graves the

bodies of Old European chieftains were adorned with pounds of gold and copper ornaments Their funerals were without parallel in the Near East or Egypt The exhibition represents the first time these rare objects have appeared in the United States An unparalleled introduction to Old Europe s cultural technological and artistic legacy The Lost World of Old Europe includes essays by Douglass Bailey John Chapman Cornelia Magda Lazarovici Ioan Opris and Catalin Bem Ernst Pernicka Dragomir Nicolae Popovici Michel S f riad s and Vladimir Slavchev

Old Europe's Suicide: The Building of a Pyramid of Errors Christopher Birdwood Thomson,2020-09-28 When the snows melt there will be war in the Balkans had become an habitual formula in the Foreign Offices of Europe during the first decade of the twentieth century Statesmen and diplomats found comfort in this prophecy on their return from cures at different Continental spas because the season being autumn the snow had still to fall and would not melt for at least six months This annual breathing space was welcome after the anxieties of spring and summer the inevitable war could be discussed calmly and dispassionately preparations for its conduct could be made methodically and brave words could be bandied freely in autumn in the Balkans Only an imminent danger inspires fear hope has no time limit the most unimaginative person can hope for the impossible twenty years ahead Without regard either for prophecies or the near approach of winter Bulgaria Servia Greece and Montenegro declared war on Turkey at the beginning of October 1912 The Balkan Bloc had been formed and did not include Rumania a land where plenty had need of peace King Charles was resolutely opposed to participation in the war he disdained a mere Balkan alliance as unworthy of the Sentinel of the Near East Bukarest had for the moment anyhow lost interest my work there was completed and a telegram from London instructed me to proceed to Belgrade The trains via Budapest being overcrowded I decided on the Danube route and left by the night train for Orsova in company with a number of journalists and business men from all parts of Rumania We reached the port of the Iron Gate before dawn and found a Hungarian steamer waiting soon after daybreak we were heading up stream Behind us lay the Iron Gate its gloom as yet unconquered by the sunrise on our left the mountains of North Eastern Servia rose like a rampart on our right the foothills of the Carpathians terminated abruptly at the river s edge in front the Danube shimmered with soft and ever changing lights a stillness reigned which no one cared to break even the crew spoke low like pious travellers before a shrine War s alarms seemed infinitely distant from those glistening waters set in an amphitheatre of hills How can man being happy still keep his happy hour The pageant of dawn and river and mountain faded as the sun rose higher dim outlines became hard and sharp the Iron Gate surmounted by eddying wisps of mist looked like a giant cauldron The pass broadened with our westward progress revealing the plain of Southern Hungary low hills replaced the mountains on the Servian bank A bell rang as we stopped at a small river port it announced breakfast and reminded us incidentally that stuffy smells are inseparable from human activities even on the Danube and within sight of the blue mountains of Transylvania

American, African, and Old European Mythologies Yves Bonnefoy,1993-05-15 Here are 80 articles on mythologies from around the world including Native Americans African

Celtic Norse and Slavic and about such topics as fire the cosmos and creation Also includes an overview of the Indo Europeans and an essay on the religions and myths of Armenia Illustrations Ancient Europe Stuart Piggott, 2017-09-05 This book interprets the main lines of European prehistory from the first agricultural communities in the sixth or even seventh millennium B C until the incorporation of much of barbarian Europe within the Roman Empire It traces the beginnings of animal domestication and plant cultivation in ancient Western Asia and the transmission of these skills by movements of peoples or by assimilation in the European continent The early technology of working in copper and later in bronze is discussed Metal winning and working and trade in raw materials and finished products brought social and political repercussions to barbarian and civilised peoples alike The spread of the Indo European languages is considered in its archaeological context as is the formation of the Celtic peoples soon to acquire iron technology and to become the main barbarian component in Europe side by side with the civilised Mediterranean societies Greek Etruscan or Roman The later Celtic world of Europe and the British Isles is examined and an attempt made to estimate the contribution of the older barbarian world to the Europe which emerged from the ruins of the Roman Empire geographically the book ranges over the whole European field from the Atlantic shores to the Urals and the Caucasus While it does not pretend to be a prehistory of Europe within the period chosen the book does bring together and discuss for the first time much scattered and often little known archaeological evidence This book is organized in a manner that will permit it being read on two levels For the general non specialist reader the text and illustrations should give a sufficient idea of the nature of the theme and of the evidence and of the development of the barbarian cultures side by side with the civilizations of antiquity as their precursors and their subsequent counterparts For the archaeological student however the text is documented with rather full references and notes at the end of each chapter *Old Europe's Suicide* Christopher Birdwood Baron Thomson, 1922 The Last European War John Lukacs, 2001-01-01 This absorbing study of the first phase of World War II tells not only how events happened but why Eminent historian Lukacs presents an extraordinary narrative of these two years followed by a detailed sequential analysis of the political military and intellectual relations and events **The Last of Old Europe**, 1984

Strategic Management - New Rules for Old Europe Christian Scholz, Joachim Zentes, 2007-11-05 Perhaps it was not really meant the way it was said but when Donald Rumsfeld used the term Old Europe in his famous speech of January 22 2003 he coined a phrase to depict not the birthplace of modern society but a graveyard of old and outdated ideas Even though it is legitimate for many of us in Europe to oppose the underlying message of going to war in Iraq it makes absolute sense to examine the rules of the game which Europe is currently playing and which it will play in the future In doing so it becomes obvious that important changes are taking place Strategic Management New Rules for Old Europe makes the hidden rules governing strategic management in Europe transparent The book follows a from to logic and takes the reader along the course of changing conditions and contingencies Europe has not only witnessed major transformations such as the

dramatic fall of the Iron Curtain economic and monetary integration and the incorporation of new member states
Fundamental change can also be perceived with respect to the corporate responses to these ongoing dynamic changes
Strategic Management New Rules for Old Europe is divided into four parts Each of these consists of several contributions
starting with the focus on people then on culture then on systems
