747-8 in 2012 with an improved design and more efficiency but it struggled with sales. The COVID-19 pandemic further accelerated the retirement of 747 passenger planes. End of an Era: 2023 Boeing delivered its final 747 on January 31, 2023, to Atlas Air, marking the end of over 50 years of production. Many airlines have retired their passenger 747s, but cargo versions remain in operation. Legacy: The 747 changed aviation by making international travel more accessible. It remains a symbol of innovation with its iconic hump and massive size. Even though newer jets have replaced it, the 747 will always be remembered as the Queen of the Skies.
