The Paranormal Equation James Stein, 2012-12-26 Most of us think science is incapable of explaining supernatural phenomena This would include everything from ghosts and communication with the dead to extrasensory perception ESP precognition and telekinesis Scientists are generally highly skeptical of the existence of such phenomena because of the lack of the rigorous documentation that science requires Nevertheless many great scientists have believed and do believe in the supernatural The Paranormal Equation presents an argument for the existence of supernatural phenomena based on the mathematics and science discovered during the last century It also explains why supernatural phenomena must exist if the universe satisfies certain conditions conditions which are accepted by many working scientists The Paranormal Equation explores such questions as How can we distinguish between the truly unknown and the supernatural How have scientists attempted to study the supernatural What are the rational reasons for believing in the supernatural Which hypotheses about the universe mandate the existence of supernatural phenomena Anyone interested in how science is beginning to understand and even explain the seemingly unexplainable will want to read this fascinating new title **The Transcendental**

**Temptation** Paul Kurtz, 2013-09-10 In this landmark work Paul Kurtz examines the reasons why people accept supernatural and paranormal belief systems in spite of substantial evidence to the contrary According to Kurtz it is because there is within the human species a deeply rooted tendency toward magical thinking the transcendental temptation which undermines critical judgment and paves the way for willful beliefs Kurtz explores in detail the three major monotheistic religions Judaism Christianity and Islam finding striking psychological and sociological parallels between these religions the spiritualism of the nineteenth century and the paranormal belief systems of today This acclaimed and controversial book includes sections on mysticism belief in the afterlife the existence of God reincarnation astrology and ufology Kurtz concludes by explaining and advocating rational skepticism as an antidote to belief in the transcendental **The Force Is With Us** Thomas

Walker, 2014-03-17 Inspired by encounters with his son from beyond the grave Tom Walker went searching for answers He discovered that paranormal phenomena have not only been exhaustively studied but that scientific evidence exists to support it He uncovered numerous scientific studies involving telepathy clairvoyance precognition and psychokinesis as well as government funded scientists who proved their validity Through his research Walker eventually came to the belief that there is a force in the world that makes things happen The force an energy field that permeates the universe forms and sustains all things and is the basis behind paranormal phenomena and alternative forms of healing He describes his provocative conclusions in this book Making compelling connections between ideas like the Great Void and dark matter between Chi and quantum fields Walker argues that it is our connection with the higher planes of consciousness the fundamental quantum reality that truly makes up the world **The Haunting of Twenty-First-Century America** William J. Birnes, Joel

Martin, 2013-12-17 In this companion volume to *The Haunting of America* and *The Haunting of Twentieth Century America*

national bestselling authors William J Birnes and Joel Martin explore today's intellectual and spiritual awakening one that is challenging traditional belief systems Birnes and Martin show that though many governments deny the importance of a spiritual component to national policy even the most conservative governments have based social and financial policy decisions on a profound belief in the existence of the paranormal ghosts and spirits From using psychic spying programs to gather intelligence on enemy nations to investigating the use of mind control to impede the abilities of hostile troops the U S government has continuously developed paranormal weapons and tactics alongside their more mundane counterparts U S Presidents from Franklin Pierce through Ronald Reagan regularly relied on the paranormal using trance mediums channelers and astrologists to help plan agendas and travel schedules The Haunting of Twenty First Century America is unlike any American history you will ever read it posits that not only is the paranormal more normal than most people think but that it is driving current events to a new Fourth Culture of the twenty first century At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied *Pseudoscience* Allison B.
