Supernatural Isle Of Man:

Supernatural Isle of Man Jenny Randles, 2003 The ancient kingdom of Mann has many unique charms from its steam trains and horse trams to the world's oldest unbroken parliamentary democracy However the island is also home to a rich gathering of legends and present day mysteries Where else in modern times would you find a UFO crash on a mountain top alongside precautions to ensure that the present British monarch paid homage to strange beings that live under a bridge This book brings you the adventures of the fenoderee who created the world's first crop circles It talks about the fearsome moddey dhoo that terrified castle guards plus dozens of other amazing cases including the most bizarre twentieth century poltergeist story on record Even the island's creation myth is steeped in the supernatural Whether following these weird tales from the comfort of your armchair or using the book's visitor friendly features on an actual trip you will find that wonder and mystery are alive and well just 60 miles off the British shores Supernatural Isle of Man is the most informative and up to date account of this magical island

Otherworlds Aisling Nora Byrne, 2016 This book offers a new perspective on the otherworlds of medieval literature These fantastical realms are among the most memorable places in medieval writing by turns beautiful and monstrous alluring and terrifying Passing over a river or sea or entering into a hollow hill heroes come upon strange and magical realms These places are often very beautiful filled with sweet music and adorned with precious stones and rich materials There is often no darkness time may pass at a different pace and the people who dwell there are usually supernatural Sometimes such a place is exactly what it appears to be the land of heart's desire but the otherworld can also have a sinister side trapping humans and keeping them there against their will Otherworlds Fantasy and History in Medieval Literature takes a fresh look at how medieval writers understood these places and why they found them so compelling It focuses on texts from England but places this material in the broader context of literary production in medieval Britain and Ireland The narratives examined in this book tell a rather surprising story about medieval notions of these fantastical places Otherworlds are actually a lot less other than they might initially seem Authors often use the idea of the otherworld to comment on very serious topics It is not unusual for otherworld depictions to address political issues in the historical world Most intriguing of all are those texts where locations in the real world are re imagined as otherworlds The regions on which this book focuses Britain Ireland and the surrounding islands prove particularly susceptible to this characterization

on regional studies has further produced evidence for parallel yet different processes of cultural change taking place throughout the British Isles as a whole This volume brings together some of these regional perspectives and compares them across the Irish Sea area The authors consider new ways to explain regional patterning in the use of material objects and relate them to past practices and social strategies Were there practices that were shared across the Irish Sea area linking different styles of monuments and material culture or were the media intrinsic to the message The volume is based on papers presented at a conference held at the University of Manchester in 2002 **Breaking the Time Barrier** Jenny
