**Anomalistic Psychology** Christopher C. French,Anna Stone,2017-09-16 The science behind claims of alien encounters and visions of ghosts can be even more fascinating than the sensationalist headlines What leads some people to believe in the paranormal Why might someone think they have been abducted by aliens And is there any room for superstition in the modern world of science Anomalistic Psychology Provides a lively and thought provoking introduction to the psychology underlying paranormal belief and experience Covers the latest psychological theories and experiments and examines the science at the heart of the subject Uses a unique approach to apply different psychological perspectives including clinical developmental and cognitive approaches to shed new light on the key debates Whether you are a psychology student or simply curious about the paranormal Anomalistic Psychology is the essential introduction to this contested and controversial field Belief in the paranormal has been reported in every known society since the dawn of time find out why      *Ghosts, Spirits, and Psychics* Matt Cardin,2015-07-28 This fascinating work provides a complete overview of paranormal phenomena including the beliefs attitudes and notable figures who have attempted to explain defend or debunk the mysteries behind the unknown Recent interest in the paranormal as pop culture fodder belies its historical status as an important subject of cultural philosophical and scientific significance This book traces the trajectory of paranormal studies from its early role as a serious academic and scientific topic studied by mainstream scientists and eminent scholars to its current popularity in books film and TV This compelling reference work details the experiences encounters and ideas that make up this controversial

field of study The contributed entries examine the broad phenomena of the paranormal addressing the history of scientific investigations along with its contemporary media depictions to illustrate the evolution of cultural attitudes about the paranormal A selection of primary documents provides real life accounts and contributions from noted experts that explore the full scope of themes from spiritualism to poltergeists to astrology Accompanying images timelines quotations and sidebars make the content come to life and encourage alternative explanations of these events

*The Myth and Mystery of UFOs* Thomas E. Bullard, 2016-10-17 When United Airlines workers reported a UFO at O Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings But when a related story broke the record for hits at the Chicago Tribune s website it was clear that such unexplained objects continued to occupy the minds of fascinated readers Why wonders Thomas Bullard don t such persistent sightings command more urgent attention from scientists scholars and mainstream journalists The answer in part lies in Bullard s wide ranging magisterial survey of the mysterious frustrating and ever evolving phenomenon that refuses to go away and our collective efforts to understand it In his trailblazing book Bullard views those efforts through the lens of mythmaking discovering what UFO accounts tell us about ourselves our beliefs and the possibility of visitors from beyond Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to hide the truth He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos Bullard s book takes in the whole spectrum of speculations on alien visitations and abductions magically advanced technologies governmental conspiracies varieties of religious salvation apocalyptic fears and other paranormal experiences Along the way Bullard investigates how UFOs have inspired books movies and television series blurred the boundaries between science science fiction and religion and crowded the Internet with websites and discussion groups From the patches of this crazy quilt he posits evidence that a genuine phenomenon seems to exist outside the myth Enormously erudite and endlessly engaging Bullard s study is a sky watcher s guide to the studies stories and debates that this elusive subject has inspired It shows that despite all the competing interests and errors clouding the subject there is substance beneath the clutter a genuinely mysterious phenomenon that deserves attention as more than a myth
