Ramsey Campbell Keith M. C. O'Sullivan, 2023-05-15 This book pays overdue attention to the British writer Ramsey Campbell a key figure in the post 1970s boom in Anglo American horror fiction. Despite a huge output and receiving every accolade within his field over a long career Campbell has not yet been accorded anything like the wider critical recognition given to his contemporary Stephen King. This study concentrates also on Campbell's neglected novels and novellas rather than the short stories for which he has been better known. The book Ramsey Campbell establishes the author's unique prose style denoted by a haunted self-consciousness about the act of writing and role of readership and his distinctive mediation of the Gothic tradition religiously agnostic politically liberal and ethically humane. For the first time Campbell's works are interpreted in the contexts of trends in postmodernist and posthumanist thought and compared explicitly to King's and his contribution to both Gothic studies and wider contemporary literature is appraised. **Monsters and Madonnas** Judith Taylor Gold, 1999-05-01 Judith Taylor Gold challenges traditional views that trace the source of Christian anti-Semitism to the presentation of Jews in the first four books of the New Testament. She contends that the unflattering depiction of Jews in the gospels and other Christian writings is the result not the cause of Christian anti-Semitism. Traversing widely ranging subjects such as pre-Christian religion New and Old Testament scripture horror literature incest and pornography she invokes an imperative exchange of dialectics between the unconscious mind and the hidden content of the Christ story as the birthplace of Christian anti-Semitism. Publishers' circular and booksellers' record, 1887 *The Works of Joseph Hall, D.D., Successively Bishop of Exeter and Norwich* Joseph Hall, 1837 **Spaces and Fictions of the Weird and the Fantastic** Julius Greve, Florian Zappe, 2019-11-18 This collection of essays discusses genre fiction and film within the discursive framework of the environmental humanities and analyses the convergent themes of spatiality climate change and related anxieties concerning the future of human affairs as crucial for any understanding of current forms of weird and fantastic literature and culture. Given their focus on the culturally marginal unknown and other these genres figure as diagnostic modes of storytelling outlining the latent anxieties and social dynamics that define a culture's structure of feeling at a given historical moment. The contributions in this volume map the long and continuous tradition of weird and fantastic fiction as a seismograph for eco-geographical turmoil from the nineteenth to the twenty-first century offering innovative and insightful ecocritical readings of H.P. Lovecraft Harriet Prescott Spofford China Miéville N.K. Jemisin Thomas Ligotti and Jeff VanderMeer among others. A Research Guide to Gothic Literature in English Sherri L. Brown, Carol Senf, Ellen J.
