South Dakota Air National Guard's 114th Fighter Wing Lt. Col. George A. Larson, USAF (Ret.), 2021 The South Dakota Air National Guard's 114th Fighter Wing's history began during World War II with the 356th Fighter Group. It became a post World War II Air Guard unit initially flying the North American F 51D Mustang removed from storage as the active duty Air Force began transitioning to turbojet fighters. It was slowly upgraded to turbojet aircraft first with the T 33 trainer to assist pilots into the F 94 Starfighter. One of the most dramatic upgrades was with the F 89D Northrop Scorpion which had onboard radar for all weather interception and the F 89J armed with the nuclear warhead Genie rockets to shoot down Russian bombers. Its first supersonic fighter was the Convair F 102A Delta Dagger a delta wing fighter. The wing continued to transition through various turbojet fighters to the current General Dynamics F 16 Fighting Falcon from 1992 to the present. The unit is fully integrated into the US Air Force's aerial defense of the United States and the Global War on Terrorism
