Superstitions And Divination:

Encyclopedia of Superstitions, Folklore, and the Occult Sciences of the World Mrs. Cora Linn (Morrison) Daniels, Charles McClellan Stevens, 1903 *Encyclopaedia of Superstitions, Folklore, and the Occult Sciences of the World* Cora Linn Morrison Daniels, 1903 *The Origin of Man and of His Superstitions* Carveth Read, 1920 **Treatise on the Heathen Superstitions that Today Live Among the Indians Native to this New Spain, 1629** Hernando Ruiz de Alarcón, 1984 The Treatise of Hernando Ruiz de Alarcón is one of the most important surviving documents of early colonial Mexico. It was written in 1629 as an aid to Roman Catholic churchmen in their efforts to root out the vestiges of pre-Columbian Aztec religious beliefs and practices. For the student of Aztec religion and culture, it is a valuable source of information. Hernando Ruiz de Alarcón was born in Taxco, Guerrero, Mexico, in the latter part of the sixteenth century. He attended the University of Mexico and later took holy orders. Sometime after he was assigned to the parish of Atenango, he began writing the Treatise for his fellow priests and church superiors to use as a guide in suppressing native heresy. With great care and attention to detail, Ruiz de Alarcón collected and recorded Aztec religious practices and incantations that had survived a century of Spanish domination, sometimes in his zeal extracting information from his informants through force and guile. He wrote down the incantations in Nahuatl and translated them into Spanish for his readers. He recorded rites for such everyday activities as woodcutting, traveling, hunting, fishing, farming, harvesting, fortune telling, lovemaking, and the curing of many diseases, from toothache to scorpion stings. Although Ruiz de Alarcón was scornful of native medical practices, we know now that in many aspects of medicine the Aztec curers were far ahead of their European counterparts. **Superstition and Magic in Early Modern Europe: A Reader** Helen L. Parish, 2014-11-20 Superstition and Magic in Early Modern Europe brings together a rich selection of essays which represent the most important historical research on religion, magic, and superstition in early modern Europe. Each essay makes a significant contribution to the history of magic and religion in its own right, while together they demonstrate how debates over the topic have evolved over time, providing invaluable intellectual, historical, and socio-political context for readers approaching the subject for the first time. The essays are organized around five key themes and areas of controversy: Part One tackles superstition; Part Two, the tension between miracles and magic; Part Three, ghosts and apparitions; Part Four, witchcraft and witch trials; and Part Five, the gradual disintegration of the magical universe in the face of scientific, religious, and practical opposition. Each part is prefaced by an introduction that provides an outline of the historiography and engages with recent scholarship and debate, setting the context for the essays that follow and providing a foundation for further study. This collection is an invaluable toolkit for students of early modern Europe, providing both a focused overview and a springboard for broader thinking about the underlying continuities and discontinuities that make the study of magic and superstition a perennially fascinating topic. **Traditions, Superstitions, and Folk-Lore** Charles Hardwick, 2025-08-28 Reprint of the original first published in 1872.
